MENTOR, OHIO

General List of Herbaceous and Alpine Plants

Plants preceded by one star are rock plants but large enough to be grown on the margin of the hardy border, as well as in the rock garden.

Plants preceded by two stars should be grown in the rock garden only.

Achillea - Milfoil or Yarrow

	Doz.	100
Eupatorium (syn. <i>filipendula</i>). 3 to 4 feet. Flat heads of brilliant yellow flowers; finely cut foliage. Blooms last dried all winter.....	\$1.50	\$10.00
Millefolium roseum (Rosy Milfoil). July to October. Rosy pink flowers in dense heads, on stems 18 inches high. Effective on edge of shrubbery or in border....	1.50	10.00
Ptarmica, Perry's White . 1 to 2 feet. June to September. Large pure white flowers; broad, overlapping petals. Nothing better for cutting.....	1.50	10.00
Ptarmica, The Pearl . Pure white, double flowers all summer. Prized for cutting.....	1.25	8.00
Ptarmica, Boule de Neige . New. An improvement on "The Pearl," with fuller and more perfect flowers. Best for borders; neat plant.....	1.25	8.00
*Tomentosa . 6 to 8 inches. July to September. Bright yellow flowers. Excellent for rockeries; plant 4 inches apart.....	1.75	12.00
Sibirica (Mongolica). Loose growing rock plant about 12 inches high. Noted for its graceful silvery leaves, white flowers in June and July. A splendid wall plant for dry exposed places.....	2.50	18.00

Aconitum - Monkshood

Autumnalis . 3 to 4 feet. September-October. Large, dark blue flowers in a raceme.....	3.50	25.00
Fischeri . A dwarf variety with dark blue flowers. September and October. 2 to 3 feet. This is the hardiest and most useful of all the Aconites.....	1.50	10.00
Napellus . Upright, single spike reaching a height of about 3 to 4 feet. The straight spike is covered during July and August with dark blue flowers.....	3.50	25.00
Napellus bicolor . The same habit and flowering time as <i>Napellus</i> , listed above. The flowers are blue and white. Looks very fine in clumps of six or more....	3.50	25.00
Sparks' Variety . July- and August-flowering; tall branched spikes, 4 to 5 feet high, covered with deep blue, Monkshood flowers.....	3.25	22.50
Wilsoni . The true variety which we are herewith offering is the late autumn-flowering kind, producing 6- to 7-ft. spikes covered with beautiful mauve colored flowers. It is a very rare and lovely variety.....	3.50	25.00

Adenophora - Gland Bellflower

Potanini . A plant resembling <i>campanula</i> , but more shrubby in habit. Flower spikes are from 2 to 3 feet long, flowers 1 1/4 inches across and light blue during July and August. The best variety for average American gardens.....	2.50	18.00
---	------	-------

Aethionema - Persian Candytuft

Grandiflorum . A lovely little plant about 12 inches high. Blue-green foliage which remains handsome all summer. During June the plant is covered with long spires of clear rose-colored flowers.....	2.00	15.00
*Persicum . Strong, twiggy bushes covered with long, slender spikes of rosy pink flowers. One of our best rock plants. 9 inches. June-July flowering.....	2.00	15.00

WE SHALL be very glad to send you our illustrated retail catalog upon request.

Standard (tree form)
Wisteria

See Page 16 for

Daphne Cneorum

Fine Stocks of Both Available

Agapanthus - Blue Lily of the Nile or Blue African Lily

	Doz.	100
Umbellatus (Blue Lily of the Nile). A most desirable plant for decoration of terrace or formal pools. Planted in large pots or tubs on the lawn or piazza they make a very fine picture. They must be stored inside, however, in cold sections of the country, as they are not hardy. Specimen plants, price on application. Plants in 6-inch pots, each, 80c.....	\$8.00	
Umbellatus Mooreanus . Grows about 18 inches high, leaves rather short and upright; flowers are large and dark blue, as large as of <i>Umbellatus</i> itself. A lovely small plant for the rockery or near a small pool or stream. This novelty is introduced by Wayside Gardens for the first time in this country. June, July and August.....	4.00	30.00

Agrostemma - Rose Campion or Joy of Love

	Doz.	100
Coronaria (Mullein Pink). Bright rosy crimson. 2 1/2 to 3 feet high. Best variety for average American gardens.....	\$1.50	\$10.00

Ajuga - Bugle

*Genevensis . Grows 6 to 8 inches high; dense spikes of blue flowers in May and June.....	1.75	12.00
*Reptans rubra . Grows 3 to 4 inches high, with deep purplish blue flowers in May and June.....	1.50	10.00

Allium

*Tibetica . Four years ago this variety was introduced from Tibet for the first time in England. Height 6 to 8 inches. Flowers on short stems in clusters are a lilac-mauve. Blooms during June and July. Excellent for rock garden.....	2.00	15.00
---	------	-------

Alyssum - Madwort; Basket of Gold

*Argenteum . Dense growth. Leaves silvery beneath, flowers yellow in clustered heads, all summer. About 15 inches.....	1.50	10.00
*Citrinum . Similar to <i>Saxatile</i> , but flowers are pale citron-yellow. 1 foot.....	2.00	15.00
*Rostratum (Wierzbicki). Prostrate, almost shrubby variety, hoary grey all over. Flowers pale yellow, in unbranched heads. May to July. 1 foot.....	1.75	12.00
*Saxatile compactum . Broad masses of bright yellow flowers in early spring. An excellent plant for the rockery or front of borders. 1 foot.....	1.25	8.00
*Serpillifolium (Alpestre). Very dwarf, 4 to 5 inches high, with racemes of pale yellow flowers and rough, hoary leaves. Charming for the rock garden. Flowers just after <i>Saxatile</i> is out of bloom.....	1.75	12.00
**Spinulosum roseum . A rare plant with handsome silvery gray foliage; a neat, small-leaved species remaining longer in beauty than any of the others. For wall or rock garden. 10 inches.....	2.50	18.00

Amsonia

Tabernaemontana . Blooms late May and early June, producing numerous flowers of light blue in panicles, on 2- to 3-ft. stems; fine for the hardy border or planted among shrubbery.....	1.75	12.00
--	------	-------

Anchusa - Alkanet

Dropmore . Tall spikes of beautiful blue flowers in June and intermittently all summer. 4 to 5 feet.....	1.50	10.00
Opal . Very beautiful variety, with large, pale blue flowers in June and intermittently all summer. 3 to 4 feet.....	1.75	12.00
*Myosotidiflora . A distinct, dwarf perennial from Russia, with clusters of charming blue flowers resembling Forget-me-nots. An effective rock plant for shady or sunny places, flowering in May and June. 12 inches high.....	1.75	12.00

Androsace - Rock Jasmine

**Lanuginosa Leichtlini . Rosettes of silky foliage and heads of rose-pink blossoms on stems about 8 inches high. June and July flowering.....	3.25	22.50
**Sarmentosa (Chumbulji). One of the easiest and best. Rosettes of silky foliage and heads of verbenalike blossoms of pink on stems about 6 inches high. From the Himalayas. June and July flowering.....	3.25	22.50

Anemone - Windflower

	Doz.	100
ANEMONE JAPONICA (Japanese Windflower)		
Alba , Purest single white, with yellow center.....	\$1.75	\$12.00
Alice , Large flowers of rose-pink, lilac center; excellent new variety. The best and strongest grower of all pink sorts.....	2.00	15.00
Buhler Kind , Early double white.....	2.50	18.00
Kriemhilde , Double, rich pink; of excellent form.....	1.75	12.00
Prince Henry , Double red flowers; dwarf, but early...	2.50	18.00
Queen Charlotte , Abundant semi-double flowers, broad and perfectly formed; "La France" pink.....	1.75	12.00
Richard Ahrends , Large, single shell-pink flowers with lilac hue.....	2.00	15.00
Rubra Flora Plena , Double rosy red.....	2.50	18.00
September Charm , Is in full flower by September 20th. The color is delicate silvery pink, shaded with rose and mauve. Extremely free and attains an average height of 2 feet.....	2.00	15.00
Whirlwind , Excellent double white flowers.....	1.75	12.00

ANEMONE (Species)

* Hepatica coerulea (Wood Anemone). A pretty native, spring-flowering plant, with blue flowers; prefers shade, but will do fairly well in any open situation in moist, rich loam. We offer large clumps, each consisting of 6 to 12 flowering crowns.....	1.50	10.00
* Hupehensis (Early Anemone). The plant grows from 12 to 14 inches high and from early in August until late in the autumn produces an abundance of flowers about 1½ inches in diameter, of a pleasing mauve-rose.....	1.75	12.00
* Pulsatilla (Pasque Flower). Grows from 9 to 12 inches high and produces violet or purple flowers during April and May. An interesting plant for the rockery or well drained border.....	1.75	12.00
* Pulsatilla rubra . Of dwarf habit with reddish purple flowers.....	2.00	15.00
* Pulsatilla alba . Same habit as the Pulsatilla with beautiful white flowers. Very rare.....	3.00	20.00
* Sylvestris . Fine for cool, moist corner of rock garden or border. Large, white blossoms on nodding stems of about 12 inches, blooming freely in May and June. Lovely cut flower.....	1.75	12.00
** Vernalis (Lady of the Snow). A rare and exquisite alpine. Large, open flowers of pure white, flushed violet outside, on short stems. Blooms very early. Easily grown in rich vegetable soil in full sun. Plant 4 to 6 inches apart.....	4.00	30.00

Anthemis - Chamomile

Tinctoria (Kelway's Variety). Handsome, finely cut foliage, and large golden yellow flowers produced all summer. Succeeds in the poorest soil; excellent cut flowers.....	1.50	10.00
--	------	-------

Anthericum - St. Bernard's or St. Bruno's Lily

Liliastrum major , Lovely spikes of white flowers 1½ feet high in May and June. A choice border plant...	3.00	20.00
Ramosum , A lovely graceful plant with good foliage and many strong thin stems covered with small lily-like white blooms in panicles, from June until August. Very graceful with other flowers.....	2.50	18.00

Aquilegia - Columbine

Buergeriana , A dwarf oriental species not over 12 inches. Its blooms are pale yellow with purplish flush. A very attractive addition for the rock garden.....	2.50	18.00
Canadensis (Common American Columbine). The native bright red and yellow variety, and one of the brightest.....	1.50	10.00
Chrysantha , Beautiful golden yellow flowers; blooms for 2 months.....	1.50	10.00
Chrysantha alba , White form of above.....	1.50	10.00
* Coerulea (Rocky Mountain Blue Columbine). Lovely blue flowers with long spurs.....	1.75	12.00

AQUILEGIA—Continued.

	Doz.	100
Crimson Star . This remarkable novelty combines all the charm of the ordinary Aquilegia with other qualities, which make it more effective as a garden plant. Its flowers are very large with crimson sepals and spurs, and white petals; an entirely new color in Aquilegias. The plant has a sturdy free-flowering habit, and shows very little variation when grown from seed.....	\$2.00	\$16.00
Dobbie's Imperial Hybrids . These new long-spurred Columbines are unequalled for their range of colors and sturdiness. They have received a great deal of attention abroad and are considered in England the best mixture offered today.....	2.00	15.00
* Flabellata nana alba , A delightfully dwarf variety for the rock garden, perfect foliage and ivory-white flowers. The whole plant not over 8 to 10 inches high. A quaint Japanese species.....	1.75	12.00
Nivea grandiflora , A fine white, robust variety; profuse bloomer.....	1.50	10.00
Scott Elliott Long-Spurred Hybrids . Wonderful colors with very long-spurred flowers. Our stock is from seed from this choice breeder, absolutely true strain.....	1.50	10.00
Skinneri , Excellent in shady places where its greenish yellow and scarlet flowers show off to great advantage. In full bloom during May and June.....	1.50	10.00
Wayside Pink , A beautiful strain of clear pink colors, with long spurs. We do not think that they can be surpassed.....	1.75	12.00

Arabis - White Rock-Cress

* Alpina , Pure white flowers produced in dense masses, splendid for border and rockery work, and last quite some time when cut.....	1.50	10.00
* Alpina rosea , Similar in habit to the above. The flowers are a delicate pale pink.....	1.75	12.00
* Alpina flore pleno , Same as above but with double white flowers; very fine rock plant.....	2.00	15.00
* Procurens , A prostrate, creeping plant with glossy evergreen leaves which form a dense carpet on the ground. The flowers are white on upright, slender stems in April and May.....	3.00	20.00

Arenaria - Sandwort

** Balearica , An emerald mantle for shady rocks. Myriads of white, fairy, starlike flowers in May, one-half inch high.....	2.50	18.00
* Grandiflora , From the Pyrenees Mountains. Covers itself with pure, snow-white, star-like flowers. One of the best of all rock plants. May flowering.....	1.75	12.00
* Montana , Close tufts, profusely covered with small, silvery white flowers quite early in the season. Excellent as an edging plant in formal gardens and for rockeries in sunny places. The flowers in May resemble small white, upturned morning glories.....	1.75	12.00
** Verna , A prostrate growing plant creeping low over the ground and between cracks in stones. Excellent for the rock garden and between flagstones.....	2.00	15.00

Armeria - Thrift or Sea-Pink

* Cephalotes rubra , 8 to 10 inches; deep pink flowers freely produced from a neat cushion-like plant....	2.00	15.00
* Lauchiana , Bright rosy red, 3 to 6 inches. May-June. Very free flowering.....	1.75	12.00
* Maritima , 3 to 6 inches. May and June. Valuable for edging; flowers pale pink; foliage grasslike, evergreen.....	1.75	12.00
* Maritima alba , 3 to 6 inches. May and June. Tufts of deep green foliage; white flowers.....	1.75	12.00
Mixed Seedlings , 18 to 24 inches. June to October. Large flowers of delightful white, rose and pink shades. Very useful for edging and cutting.....	1.50	10.00

Arnica - Mountain Tobacco

Montana (Mountain Tobacco). An attractive border plant. Stems about a foot high with clusters of yellow daisy-like flowers in June and July.....	3.25	22.50
---	------	-------

Artemisia - Southernwood; Sage Brush

	Doz.	100
* Abrotanum , Dwarf plant with silvery gray, highly aromatic foliage; yellow flowers in July; good for margins of the border or bold groups in the rockery.....	\$1.75	\$12.00
Lactiflora , A tall-growing plant of fine foliage and heads of small, white flowers in August and September, which fill the garden with fragrance. A splendid and graceful cut flower.....	1.50	10.00
Silver King , A striking white-leaved contrast plant. A beautiful "mist" for setting off bouquets and floral combinations. The entire color effect bright frosted silver. Three feet high. Sprays may be cut to mix with winter bouquets.....	1.75	12.00

Asclepias - Butterfly Weed

Tuberosa , Attractive plants, flowering during July and August, and growing about 1½ feet high. Produces umbels of bright orange-colored flowers which are lovely to cut and last a long time.....	1.50	10.00
---	------	-------

Asperula - Woodruff

* Odorata , 6 to 8 inches high. Increases rapidly and is used for carpeting shady places and in the rock garden. Heads of snowy white flowers appear just above the foliage in May. A fine scented herb reminding one of new mown hay.....	2.00	15.00
---	------	-------

Asphodelus - Asphodel

Luteus , Tall spikes of bright yellow flowers; very fragrant; swordlike foliage; fine for borders; plant in groups of three or more for best effect.....	2.00	15.00
---	------	-------

ASTILBE. (See Spiraea).

Aster - Starwort or Michaelmas Daisy

Artis , Double flowers of clear Petunia-violet completely cover the plant in early autumn. About 3 feet high.....	1.75	12.00
Barr's Pink , This is of the Novae-angliae type; a strong, vigorous grower forming shapely plants from 4 to 5 feet high; the finest bright pink.....	3.00	20.00
Blue Gem , Double flowers of rich blue; the best blue in cultivation.....	1.75	12.00
Charm , Very double violet-blue flowers.....	1.75	12.00
Climax , One of the best and showiest, with large, pyramidal spikes of large, light lavender-blue flowers; very free, 5 feet. Excellent as a cut flower.....	1.75	12.00
Erica , A beautiful clear pink; large, semi-double flowers.....	1.75	12.00
Elta , Semi-double flowers of pale lilac. Handsome shape; free flowering.....	1.75	12.00
Feltham Blue , A pretty aniline blue; very free.....	1.75	12.00
Glory of Colwell , Good sized, almost double; Ageratum-blue flowers.....	1.50	10.00
Grey Lady , Exquisite shade of opal, with semi-double flowers.....	1.75	12.00
Joan Vaughan , Large, semi-double flowers of deepest blue.....	1.75	12.00
Lady Lloyd , A very fine, clear rose-pink. Lasts exceedingly well.....	1.75	12.00
Mauve Queen , Very large, semi-double flowers of clear mauve.....	1.75	12.00
Mrs. Raynor , The nearest red of all Asters; good form.....	2.00	15.00
Novae-angliae roseum superbum , Almost red and a profuse bloomer.....	2.00	15.00
Queen Mary , This is unquestionably the best of the Nov-belgi type yet introduced, with graceful flowers 2½ inches in diameter arranged loosely in branching panicles of a particularly pleasing blue tinted lavender, 3½ feet high.....	2.00	15.00
Robert Parker , Pale heliotrope, 4 feet.....	1.75	12.00
Robinson V. C. , A pretty bluish mauve, double flowers borne in long sprays.....	1.75	12.00
Sam Benham , Early flowering, semi-double white. The best of all white Michaelmas Daisies; produces large flowers; fine for cutting.....	1.75	12.00
St. Ewgin , A pleasing, rosy pink; very free blooming; dwarf habit.....	1.75	12.00

Aster Species

	Doz.	100
* <i>Alpinus albus</i> . Fine dwarf white Aster, bearing large, single white flowers on stems 6 to 8 inches high. May and June. Excellent for rock gardens.....	\$1.75	\$12.00
* <i>Alpinus, Goliath</i> . Indispensable for the rockery or edge of hardy borders; 6 to 10 inches high, and bears large, showy, bluish purple flowers in May and June.	2.00	15.00
* <i>Alpinus rubra</i> . Also good for the rock garden or as an edging plant, producing rose-purple flowers; 6 to 10 inches high. May and June.....	2.00	15.00
* <i>Diplostiphoides</i> (Dubla). A very fine dwarf Aster for the rock garden, producing early in the season, pale blue flowers, 2 to 3 inches across.....	2.50	18.00
* <i>Farrerri, Big Bear</i> . With beautiful flowers of the richest violet, orange centr, for rock garden or border	2.50	18.00
* <i>Mauve Cushion</i> . Distinct species. It forms a circular cushion-like plant 1½ feet across, rarely exceeding 9 inches in height; the flowers of delicate, soft mauve, with silvery white reflections, over 1¼ inches in diameter, and in such lavish profusion as to completely cover the plant; the blooms begin to expand in October, but are not at their best until November.	1.75	12.00
<i>Tataricus</i> . Distinct, large bluish violet; very late. 6 feet	1.00	7.00

Aubrietia - Purple Rock-Cress

* <i>Eyri</i> . Rosy lilac; best of all.....	1.75	12.00
--	------	-------

Baptisia - False-Indigo

<i>Australis</i> . Dark blue, pea-shaped flowers in June, are produced on top of spikes 2 feet high; suitable for the hardy border or wild garden. Very attractive foliage all summer.....	1.25	8.00
--	------	------

BELAMCANDA. (See *Pardanthus Chinensis*).

Bellis Perennis - English Daisy

<i>Perennis, Snowball</i> . Mammoth white.....	1.25	8.00
<i>Perennis, Longfellow</i> . Mammoth pink.....	1.25	8.00

BERGAMOT. (See *Monarda*).

BLEEDING HEART. (See *Dicentra*).

Bellium - Alpine Daisy

* <i>Bellidioides</i> . A dainty little miniature of the <i>Bellis perennis</i> , except that it throws out numerous runners and so forms a wide mat, covered in summer with small, white daisies. Fine for rockery.....	2.50	18.00
--	------	-------

Betonica - Betony

<i>Grandiflora</i> . Close tufty foliage with bright rose-purple flowers on long stems about 2 to 3 feet tall produced during June, July and August. A lovely plant for a hot, dry place in the border.....	1.75	12.00
---	------	-------

Bocconia - Tree-Celandine or Plume Poppy

<i>Cordata</i> . A noble hardy perennial, beautiful in foliage and flower, and adapted for planting in the shrubby borders, and in bold groups in any position, attaining 6 to 8 feet in height. Flowers creamy white in terminal panicles.....	1.50	10.00
---	------	-------

Boltonia - Bolton's Starwort

<i>Asteroides</i> . White. 5 to 6 feet high.....	1.50	10.00
<i>Latisquama</i> . Pink, slightly tinged with lavender. 4 to 6 feet. Really the best of all varieties offered.....	1.50	10.00

Buphthalmum - Ox-eye

<i>Salicifolium</i> . Bears large, rich, golden yellow flowers through the summer. 2 feet high. Is a very fine plant for the sunny hardy borders.....	1.75	12.00
---	------	-------

Calamintha - Calamint

* <i>Alpina</i> . A very graceful little rock plant, growing 6 inches high, with rich purple flowers.....	1.50	10.00
---	------	-------

Calandrinia

* <i>Umbellata</i> . Prostrate plant, 4 to 6 inches, with brilliant crimson, saucer-shaped flowers; good for hot place in rock garden.....	2.50	18.00
--	------	-------

Callirhoe - Poppy Mallow

	Doz.	100
* <i>Involucrata</i> . Trailing plant, with finely divided foliage and large, saucer-shaped flowers of bright rosy crimson, with white centers, which are produced all summer and fall.....	\$1.75	\$12.00

Caltha - Marsh-Marigold

<i>Palustris</i> . Flowers bright yellow in spring, on stems 12 to 18 inches high. A very showy plant in wet places, both in sun and shade. Its foliage is always clean and attractive	1.75	12.00
--	------	-------

Campanula Medium - Canterbury Bells

CALYCANTHEMA (Cup and Saucer).

Tall, erect growing plants completely covered with large cup and saucer-shaped flowers during late May and June. One of the loveliest of biennials and a perfect plant for the old-fashioned, hardy garden. Flowers last a week or more when cut.

<i>Calycanthema Blue</i> . Covered with blue flowers	1.25	8.00
<i>Calycanthema Pink</i> . Same as above with lovely pink flowers	1.25	8.00
<i>Calycanthema White</i> . Same as above with pure white flowers	1.25	8.00

MEDIUM (Single Canterbury Bells).

These have the same habit of growth and are just as lovely as the *Calycanthema*, the flowers, however, do not have the so-called "saucer," but are bell-shaped.

<i>Medium Blue</i> . Plants are completely covered with blue bells	1.25	8.00
<i>Medium Pink</i> . Same as above with lovely pink bells... ..	1.25	8.00
<i>Medium White</i> . Same as above with pure white bells ..	1.25	8.00

Campanula - Bellflower

<i>Alfilariaefolia</i> . A grand border plant with tall spikes of long, pendent bells. 3 feet high.....	1.75	12.00
---	------	-------

<i>Aucheri</i> . Small tuft of narrow, oval leaves covered at flowering time with large bells of rich satin purple. A rare and beautiful plant for the rockery.....	3.25	22.50
---	------	-------

* <i>Barbata</i> . Silvery blue bearded or hairy bells on stalks about 6 to 9 inches long and are produced in June and July. It is a very unusual and outstanding plant for rockery or border	2.50	18.00
---	------	-------

<i>Bononiensis</i> . Small, blue flowers borne profusely on slender stems. June. 2½ feet	2.00	15.00
--	------	-------

* <i>Carpatia</i> (<i>Carpathian Harebell</i>). A pretty species growing in compact tufts not exceeding 8 inches high; flowers clear blue held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for hardy border or for the rockery it is unsurpassed.....	1.50	10.00
---	------	-------

* <i>Carpatia alba</i> . A pure white form of the preceding ...	1.50	10.00
---	------	-------

* <i>Cullimore</i> . A lovely hybrid form of <i>Carpatia</i> and other dwarf-growing species. Much more prolific than <i>Carpatia</i> . Its flowers of various shades of blue are produced all summer. Very nice edging plant or for the rock garden	2.50	18.00
--	------	-------

<i>Elegans</i> . Fine Campanula for borders and rockeries. Height 18 inches. Blooms all summer	2.00	15.00
--	------	-------

* <i>Gargania</i> . A gem for the rock garden. Forms a low spreading tuft which in June is covered with starry light blue flowers having a white eye. Exquisite hanging over a rock	2.50	18.00
---	------	-------

* <i>Glomerata var. dahurica</i> . A Campanula that should be in every garden. It is about 18 inches high. In June and July has large, close heads of deep blue flowers which are strikingly effective. An old European garden favorite	2.00	15.00
---	------	-------

<i>Lactiflora alba</i> . A beautiful variety from the Imperial Gardens of Petrograd producing spikes 2 feet high bearing large, white flowers	1.75	12.00
---	------	-------

<i>Lactiflora coerulesa</i> . Pale blue flowers during July and August on stems 2 to 3 feet high; does well in light shade	1.75	12.00
--	------	-------

<i>Latifolia macrantha</i> . Very handsome, enormous drooping bells of fine satiny lilac and deep purplish shades on stems 3 to 4 feet high; does well in light shade or full sun	2.00	15.00
---	------	-------

<i>Latifolia macrantha alba</i> . A white-flowered form of the above	2.00	15.00
--	------	-------

** <i>Muralis</i> . Very dwarf plant covered with blue-purple flowers in June. Fine for wall or rock garden. The most popular wall plant or rock plant of the entire Campanula group	3.00	20.00
--	------	-------

CAMPANULA—Continued.

	Doz.	100
<i>Persicifolia grandiflora alba</i> . One of the finest Campanulas, with large, handsome, white, bell-shaped flowers. A great acquisition. Height 2 feet	\$1.75	\$12.00

<i>Persicifolia grandiflora coerulesa</i> . An excellent companion to the white variety, the large bright blue flowers making an effective contrast. Height 2 feet ..	1.75	12.00
---	------	-------

<i>Pyramidalis</i> . Produces spikes from 4 to 6 feet long covered with blue, star-shaped flowers during the entire summer; excellent plant with Delphinium in background in the hardy border	1.75	12.00
---	------	-------

<i>Pyramidalis White</i> . Similar to the above, producing white flowers	1.75	12.00
--	------	-------

* <i>Raineri Hybrids</i> . A very rare and beautiful species of dwarf and spreading habit. Plants are covered in June and July with flowers in various shades of lavender-blue	3.00	20.00
--	------	-------

<i>Rapunculoides</i> . Strong, 3-foot stems with slightly nodding bright blue bells. Very common in Siberia and a fine border plant for the cold parts of this country. Grows quite freely	2.50	18.00
--	------	-------

* <i>Rotundifolia</i> (<i>Blue Bells of Scotland or Harebells</i>). 1 foot. June to August. In the wild it is more slender and taller than in the garden; clear blue flowers. Especially suited for crevices in the rock garden or deep slopes, best planted so as to show pendent habit. Does well in light shade	1.75	12.00
--	------	-------

* <i>Sarmatica</i> . A low-growing, much branched variety. Each plant with 8 to 10 stems not over 16 inches high. Covered with pale blue, bell-like flowers. Foliage a silvery gray. Splendid variety for rockery or border ..	3.00	20.00
--	------	-------

<i>Trachelium</i> (<i>Coventry Bells</i>). 2 to 3 feet. July and August. Sturdy, hairy plant, with light purple, somewhat drooping flowers	1.75	12.00
--	------	-------

Carlina - Charlemagne's Thistle

* <i>Acaulis</i> . An Alpine Thistle with an immense, stemless flower head. Leaves are intensely spiny and very silvery, making a handsome subject for the rockery. Rare and unusual plant	2.50	18.00
--	------	-------

Carnations - Hardy Border

<i>Scarlet and Red Shades</i> . Dozens of double and single red and scarlet flowers on long stems, lovely for cutting, are produced during June and July	1.50	10.00
--	------	-------

<i>White Shades</i> . The same as above but with single and double white flowers	1.50	10.00
--	------	-------

<i>Mixed Shades</i> . A riot of color and flowers in great abundance in June and July, are the result from just a few plants. Cut back all flower stems when through blooming	1.50	10.00
---	------	-------

Cassia - Indian Senna

<i>Mariandica</i> . Handsome pinnate foliage and numerous racemes of showy yellow flowers during July, August and September. An extremely desirable plant of the easiest culture	1.50	10.00
--	------	-------

Catananche - Blue Cupidone, or Love-Plant

* <i>Caerulea</i> . Heads of pretty deep blue flowers on long stems. Profuse and excellent cut flowers in great quantities on 18-inch stems during July, August and September	1.75	12.00
---	------	-------

Centaurea - Knapweed

<i>Dealbata</i> . Large and striking rose-pink flowers. June-July. 2 feet high	1.50	10.00
--	------	-------

<i>Macrocephala</i> . Large, thistle-like, golden yellow flowers; useful for cutting and showy in borders. July and August. 3½ feet high	1.50	10.00
--	------	-------

<i>Montana</i> (<i>Perennial Cornflower</i>). Grows 2 feet high, bearing large, violet-blue flowers from July to September	1.50	10.00
--	------	-------

<i>Montana alba</i> . White form of the above.....	1.50	10.00
--	------	-------

<i>Ruthenia</i> . This handsome plant grows about 5 feet high and bears from July to September, lovely lemon-yellow flowers. Fine for the background of the hardy border	1.75	12.00
--	------	-------

CENTRANTHUS (See *Valeriana*).

Cephalaria - Giant Scabious

<i>Tatarica</i> . Flat heads of showy cream-white flowers on stems 6 feet high, during July and August. Suited for rear of borders, where tall effects are desired ..	1.75	12.00
---	------	-------

Cerastium - Chickweed

***Tomentosum** (Snow-In-Summer). A low-growing plant having silvery white foliage and producing an abundance of snow-white flowers in May. Especially suitable for rock or border purposes\$1.75 \$12.00

CERATOSTIGMA (See Plumbago Larpentae).

Cheiranthus - Siberian Wallflower

***Allioni**. A beautiful rock plant. Dazzling fiery orange flowers, on stems about a foot high. Best used as a biennial as it frequently blooms itself to death 1.50 10.00

Chelone - Turtle-head or Shell-Flower

Glabra alba. Terminal spikes of creamy white flowers. 1.75 12.00
Lyoni. Heads of showy purplish red flowers 1.75 12.00

Chrysanthemums**HARDY GARDEN VARIETIES**

The following varieties of these well known plants have been selected for their hardiness as well as for their beautiful colors. There are no plants grown in our gardens that are so lovely late in summer or early autumn.

Culture. To grow these plants well it is essential that the soil should be deeply dug and liberally enriched before planting. Heavy soils should have plenty of decayed vegetable refuse and sand, as well as manure, added to lighten its texture. The safest time to set out plants is the first or second week in May. Planted earlier the plants often get checked by frost and do not make good progress afterwards. If to be grown in the mixed border we advise not less than three plants of one kind to be grown in a group. After flowering cut the stems off close to the ground, place a mulch of cinder ashes around the crown of each, or cover with clean straw. Plant in spring only, 18 inches apart. Lift and divide every second year for best results.

Adironda. The small compact flowers completely cover the plant when in bloom. The flowers are a rich bronze with coppery gold center. Very early and very hardy.

Aladdin. (The Perpetual Flowering Chrysanthemum). The flowers are borne on erect stems, the terminal buds giving the first bloom. As the plant develops the lateral branches make a surprising growth, throwing the lateral and sub-lateral flowers well above the first terminal blooms, thus giving a continuous succession of bloom. The first blooms appear late July and early August, the color at first being an exquisite warm coppery bronze, with an overlay of orange-apricot shade. The coloring in the first weeks of its summer bloom has been accurately compared with the Tallman rose. As the season advances the flowers take on a pinkish or terra-cotta-copper shade, which deepens in early autumn. Requires no staking, 3 inches high. Doz., \$2.00, 100, \$15.00.

Angelo. A lovely, very early, free-flowering pink variety. The large blooms resist the effects of bad weather to a remarkable degree and therefore are always good.

Argenteuillais. Well shaped scarlet bronzy flowers tipped with gold are produced in great quantities. Exceptionally hardy variety of medium height.

Boston. The beautiful bronzy orange flowers are produced in great abundance in well branched heads on tall, erect stems. Also noted for its unusual hardiness.

Bronze Button. Late, free-flowering, of medium height, producing large heads of tiny button-like, bronze colored flowers. Very hardy and a great bloomer.

Brune Poitevine. An outstanding and fine variety of medium height. The flowers are fairly large, loose in structure and produced in great abundance. The deep velvety reddish-bronze flower petals have a golden reverse, greatly adding to the general beauty of the plant. Flowers very early and the plant is exceptionally hardy.

Capt. R. H. Cook. A most popular pompon-flowered variety. The clear deep rose colored petals are tipped golden bronze, creating a most unique appearance. Tall grower; hardy.

Carrie. As early as *Glory of Seven Oaks* and of practically the same habit, but the flowers are a clean, clear pale yellow.

Comoleta. Very tall growing sort. Late-flowering. Very large and double yellow flowers with reddish orange shadings.

Daybreak. Daybreak will flower about October 10th, and can be depended on for a fine display each season. The flower is of single type, almost 3 inches across, soft shell-pink and has a noticeable sweet fragrance. Splendid variety for cutting or garden display. Strong and free growing. Height, 2 feet.

Excelsior. In habit much the same as *White Doty* but with most brilliant golden yellow flowers. It is perhaps more prolific, certainly an easily grown and most satisfactory variety.

Firelight. Tall, midseason, large flowering. Very showy spikes covered with heads of red flowers tipped with copper. Very hardy.

CHRYSANTHEMUMS—Continued.

Frances Whittlesey. A decided improvement in this particular color. Habit is stocky and dwarf, averaging 18 inches in height. Color, rich bronze and garnet—just right for the fall garden. It commences to flower in late September and makes a gorgeous showing through October, having the ability to resist considerable frost in the open flowers.

Glory of Seven Oaks. This is the first outdoor Chrysanthemum to bloom, commencing to do so in August; its soft but clear masses of bloom have made it a great favorite. Medium height and fine for a planting in front of taller varieties.

Gypsy Girl. A garden variety of the single type, crimson in color, shading to chestnut-crimson. It commences blooming in early October, resisting early frosts, and it flowers well into November.

Harvest Home. Beautiful midseason-flowering variety. Medium height and covered with large golden yellow flowers about 3 inches across.

Idolph. About 18 to 24 inches high. Midseason, flowering very profusely. Produces light rose-pink, very double flowers with yellow center.

Jean Cumming. This new variety is regarded as a very great improvement on older white varieties. Large flowers of purest white, with the softest yellow and bluish shading at the center of the buds. Growth erect and wiry, height medium. Commences flowering about September 15, and having exceptional keeping qualities, is undoubtedly the best white variety to date.

Marle Antoinette. A late, sure blooming sort, bushy and very free-flowering. Excellent deep pink flowers.

Mitzi. A delightfully free-flowering variety. Rather late but the small, brilliant clear yellow flowers light up the garden. The best and hardest yellow button variety.

Mrs. F. H. Bergen. A lovely pale pink variety, the center of the flowers a creamy-white. The whole plant is of medium height and noted for its good foliage as well as hardiness.

Mrs. H. Craig. Very early-flowering sort, rather dwarf in growth. Large, shaggy yellow flowers overlaid with orange-crimson.

Mrs. H. Harrison. Medium height. Plant produces large clusters of fine, full double pink flowers with cream-pink center. Excellent pompon.

Mrs. Phillips. The large daisy-like, single pink flowers with a clear golden center are often three to four inches across. It is an outstanding single variety noted for freedom of bloom and hardiness.

Nellie Blake. A fine aster-flowered type. Midseason. Flowers a rich reddish copper, long lasting.

Nellie Kleris. Midseason, of medium height with splendid clear pink blossoms. Petals are decidedly incurved, and compact. Two inches across.

Oconto. The largest white 'mum for outdoor growing, flowers often four to five inches across on good strong stems, therefore excellent for cutting.

October Girl. A sturdy Chrysanthemum of vigorous habit. The flowers are single or semi-double, fully 2 inches across, clear rosy-pink on opening, becoming shaded with lavender when fully opened. Very prolific. In full flower by October 1st.

October Gold. This variety is noted for its large flowers, which are freely produced on a plant of medium height. The loose flowers open coppery orange and change gradually to golden yellow, the center of the bloom a clear yellow with lovely pink sheen.

October Dawn. Lovely shade of soft daybreak-pink, entirely free from contrasting tints. This variety will greatly appeal to those who appreciate the more delicate color effects. The flowers are of good size, full-petaled, and of nice decorative type. It is of medium height, but well branched, bushy and very free and effective in the garden or as a cut flower. Commences flowering about October 5th.

Ouray. A lovely pompon variety, in fact, it is considered one of the most brilliant of Chrysanthemums. The masses of blooms are a rich bronze with coppery glow. Very early flowering and of medium height, noted also for its hardiness.

Petite Louise. One of Totty's splendid introductions. Very early flowering and of medium height. Plants completely hidden by pale pink, shaggy flowers about 3 inches across. A very free-flowering sort and a great favorite.

Provence. Early and dwarf, very free flowering. Pale pink flowers fading to white with yellow center. Excellent cut flower; hardy.

R. Marion Hutton. For a mass color effect in the garden, we know of no variety comparable to this new yellow. The flower is of the Decorative Pompon type, not large or impressive in itself, but in addition to exceptional freedom in blooming, it is one of the earliest to flower, and certainly the brightest canary-yellow available, flowering from late September on. It is remarkably resistant to frost.

Old Rose. Stout erect stems densely covered with dark green foliage topped with a cluster of semi-double flowers which are about 2½ or 3 inches in diameter. The color is best described as old rose, totally void of any objectionable pink or lilac shades so prevalent in Chrysanthemums. This lovely pastel shaded 'mum is unquestionably the loveliest early garden variety of recent introduction. Per 12, \$2.00; Per 100, \$15.00.

CHRYSANTHEMUMS—Continued.

Ruth Cumming. This variety is considered by some authorities to be the best all-around garden Chrysanthemum. Flowering about October 10. It has proved consistently good, regardless of the season, and has never failed to make a fine showing. Rich reddish bronze in color, with terra-cotta shades, aging to an even, soft bronze tone and one that immediately attracts attention.

Snowdrop. Midseason and of medium height, plant rather loosely formed. The best pure white button known; is very hardy.

Tints of Gold. Early-flowering, of medium height. Flowers are large, of rich golden yellow suffused with red near base of petals. Very striking variety.

Vivid. A very striking and effective variety, the color of which very closely approaches that of the American Beauty rose—a rosy crimson or amaranth shade new to the earlier flowering Chrysanthemums. Flowering about October 1, it is extremely vigorous and very free.

White Doty. The tall, straight upright flower stalks, never needing any support, carry large heads of pure white pompon flowers. Excellent for cutting or in the background of other varieties.

Zeila. Midseason and rather tall with old-fashioned large orange flowers produced in quantity. A splendid outdoor variety.

The price of the above named sorts is \$1.25 per doz.; \$8.00 per 100.

Will be supplied in pots and are guaranteed to bloom perfectly.

HARDY OLD-FASHIONED CHRYSANTHEMUMS

We collect from old gardens some of the old-fashioned Chrysanthemums which are very hardy and which bloom in October and November, after all other outdoor flowers are gone. Often in bloom when the snow is on the ground; are very showy. 3 to 4 feet high. When in bloom are a perfect mass of flowers.

	Doz.	100
Old-fashioned Hardy Pink	\$1.25	\$8.00
Old-fashioned Hardy Red	1.25	8.00
Old-fashioned Hardy White	1.25	8.00
Old-fashioned Hardy Yellow	1.25	8.00

Chrysanthemum Maximum - Shasta Daisy

Alaska. Handsome plant, with large, glistening white blossoms in June and July 1.25 8.00

Etoile d'Or. Another of the large-flowering English type, producing the largest and best flowers of any we have. July to September 2.00 15.00

Glory of Wayside. Abundant small flowers and blooms early in May; excellent for front of the hardy border. 1.50 10.00

Mayfield Giant. A lovely, strong growing and free-flowering Shasta Daisy of recent introduction. If old flowers are removed when faded this variety will bloom throughout the summer 2.00 15.00

Mrs. C. Lothian Bell. Very large, perfectly formed flowers. Continuous bloomer. One of the largest. June to August 1.75 12.00

Sutton's May Queen. Not one of the largest but one of the earliest; similar to the Hartje & Elder Daisy but with a better stem. Flowering for Decoration Day, it is one of our most valuable cut flower varieties .. 1.50 10.00

Chrysanthemum Species

***Arcticum** (The Arctic Daisy). Among fall-flowering perennials this is a perfect gem. It forms an attractive rosette-like clump of pretty dark green foliage, and in September multitudes of flower stems appear, terminated by pure white flowers 2 to 2½ inches in diameter. These begin to develop during the last week in September, and continue throughout October, and frequently into November. 1.25 8.00

Coreanum (Korean Chrysanthemum). A remarkable new perennial from Korea, of iron-clad hardiness. White flowers with golden center. Flowers often turn to a light pink; 2 to 4 feet high, in bloom from October to December 1.75 12.00

Leucanthemum flore pleno (Double White Daisy). Flowers double, pure white, of medium size, excellent for cutting; each plant produces from 30 to 60 flowers; perfectly hardy. May and June flowering ... 1.25 8.00

Uliginosum (Syn. Pyrethrum). Giant Daisy. Grows 3 to 4 feet high, covered with large, white, Daisy-like flowers from June to September 1.50 10.00

Zavadsky. A dwarf growing midsummer flowering Daisy with pale pink flowers. Good for front of border 1.75 12.00

Cimicifuga - Snakeroot

	Doz.	100
Racemosa. Handsome shade-loving plant, bearing in July and August spikes of pure white flowers, 4 to 6 feet high; well suited for planting at the back of border or for naturalizing at the edge of the woods..	\$1.50	\$10.00

Cistus

* Formosus. Fine, shrublike plant for rockery, with yellow flowers with dark spots. Fine plants for the South and hot southern exposures. Great favorites in the European rock garden	2.50	18.00
* Radiatus. Similar to above with orange blossoms.....	2.50	18.00

Clematis, Dwarf - Shrubby Clematis

Davidiana. A most desirable variety, with fresh, bright green foliage and tubular, bell-shaped flowers of deep lavender-blue during August and September; deliciously fragrant. 2½ feet high	2.50	18.00
Integrifolia coerulea. A good border plant, growing from 18 to 24 inches high, producing its interesting porcelain-blue flowers from June to August	2.50	18.00
Recta. Grows from 2 to 3 feet high, and produces fragrant, pure white flowers in very large, showy clusters during June and July	2.50	18.00

Codonopsis - Bellwort

* Ovata. Twining in habit; 10 to 12 inches high; pale blue flowers are produced on delicate stems, in all a very lovely little rock plant.....	3.00	20.00
---	------	-------

Convallaria - Lily-of-the-Valley

Majalis. This popular and fragrant subject repays for being well treated. Grand for massing near shrubs or along shaded borders. Imported Pips (Fortin strain)75	4.00
Clumps. (In fall only). Our clumps are grown from the finest type of imported Fortin stock and are far superior to the common native sort	4.00	30.00
	100	250
* Berlin Pips. The earliest, largest and best for forcing. Extra strong pips with long roots producing flowers with 15 to 20 bells and fine foliage. Ready in December for indoor forcing	\$6.00	\$12.50 \$50.00

Coreopsis - Tickseed

	Doz.	100
Auricula Superba. Large yellow blooms with eye encircled with reddish band. A most attractive and useful addition to our hardy cut flowers	\$1.75	\$12.00
Grandiflora. An improved variety with large bright yellow flowers; one of the best hardy plants. Excellent for cut flowers all summer	1.25	8.00

Cornus - Bunchberry

Canadensis. Six inches high, with four broad leaves at the top. Flowers greenish, surrounded by a showy white involucre, followed by bright red berries. A desirable plant for a shady corner; fine for massing. 1.50	10.00
--	-------

Coronilla - Crown Vetch

* Cappadocica (Iberica). A first rate and brilliant rock plant. Trailing habit. Glauca leaves and large, rich, long golden flower heads in June and July. Three inches high. Called in England "Lady Fingers"	3.25	22.50
* Varia. A strong creeper; good for covering rough banks; showy heads of pink and white, pea-shaped flowers on 1- to 2-ft. stems. From June to August ..	1.75	12.00

Corydalis - Fumitory

* Cheilanthesifolia. Handsome variety with fernlike foliage and long spikes of yellow blossoms. 10 to 12 inches in height. Prefers rich, well drained, stony soil. Perfectly hardy, lovely little rock plant; does very well in shade.....	2.50	18.00
---	------	-------

Crucianella - Crosswort

* Stylosa. Early flowering, hardy perennial, suitable for rock work; bright purple, ball-shaped flowers. Height 6 inches	1.50	10.00
---	------	-------

Cypripedium - Lady's Slipper

* Acaule (Lady's Slipper; Moccasin Flower). This is often called the Red Lady's Slipper, but the flower is rose-purple in color	3.00	20.00
--	------	-------

CYPRIPEDIUM—Continued.

	Doz.	100
* Pubescens (Large Yellow Lady's Slipper). Very much like <i>Parviflorum</i> , only the flowers are larger. This should be planted in a rich bed in which leaf-mold should be a part, in some moist, yet well drained, shady spot.....	\$3.00	\$20.00
* Spectabile (Showy Lady's Slipper). The finest and most showy of all our orchids. It grows about 2 feet high, bearing along the stalk several rather large, roundish leaves, and on top 1 or 2 quite large, rose-purple or nearly white flowers	3.50	25.00

Delphinium - Larkspur**English Delphiniums**

Wayside Gardens Hybrids. Here offered are the newest, the best and the finest to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among these new hybrids are flowers of huge size in both single and double forms. This strain has been raised from seed saved from the finest named kinds in creation. Visitors at our nursery proclaim them the best they have ever seen. Those who wish to perfect their already much prized borders cannot afford to overlook these wonderful hybrids. **Doz., \$2.50; 100 for \$18.00.**

	Doz.	100
Blackmore and Langdon Hybrids. This English strain is one of the finest developments in the Delphinium family. The flowers are enormous, produced on solid, erect spikes of great height and rigidity. The colors lie in delicate shades of blue, mauve and pink. Combines landscape value with a grace and elegance for cutting unsurpassed in this family of plants.....	\$2.00	\$15.00
Fanny Stormonth. This is the only named English Delphinium we have been able so far to grow successfully in this country. Produces large, single, navy-blue flowers on tall spikes; robust in growth, flowers well placed along the spike. Has never shown signs of disease with us	3.00	20.00
Gold Medal Hybrids. They are made up from the following strains: Blackmore & Langdon's, Watkins', Samuel's, Kelway's, and Vanderbilt's. All familiar with Delphiniums know that these firms are careful growers and well known specialists.		
Strong, 1-year-old plants	1.35	9.00
Strong, 2-year-old-plants	1.75	12.00

Delphinium Belladonna

Belladonna. Light sky-blue.		
1-year-old plants	1.25	8.00
2-year-old plants	1.75	12.00
Bellamosa. A dark blue form of Belladonna. Like the latter and of strong growth.		
1-year-old plants	1.25	8.00
2-year-old plants	1.75	12.00

Delphinium Chinense - Chinese Delphinium

Chinense. A very pretty variety, with fine, feathery foliage and gentian-blue flowers in open panicles.....	1.50	10.00
Chinense album. A pure white form of the above.....	1.50	10.00

Desmodium

Penduliflorum. Half-shrubs, the long canes of each season's growth usually winter-killed. The stools become stronger, throwing up more shoots and forming a thick shrub 2 to 5 feet high in showy late summer bloom. Arched branches and long, close, drooping racemes of liquid purple flowers. 2-yr. plants	2.00	15.00
--	------	-------

Dianthus - Pinks

Beatrice. This everblooming cluster Pink is a very valuable plant for the garden, constantly in bloom from June until September. A lovely pure pink.....	1.75	12.00
Essex Witch. Delicate pink; finely fringed	1.75	12.00
Furst Bismarck. Similar to the Beatrice in habit and freedom of bloom, its flowers are, however, several shades darker, more the color of the Paul Neyron rose	1.50	10.00
Gladys Cranfield. Single, flowers bright rose, with velvet crimson eye, very fragrant.....	2.50	18.00
Her Majesty. Very large; purest white	1.75	12.00
Manning's Pink. A very free-flowering variety, producing deep pink flowers; sweet scented	2.00	15.00
White Reserve. Continuous flowering; pure white	1.75	12.00

Dianthus Plumarius - Old-Fashioned Pinks

	Doz.	100
Plumarius, Highland Hybrids Mixed. A beautiful and varied mixture, including unnamed hybrids of all possible shades. Especially noted for their fragrance and long bloom	\$2.50	\$18.00
* Semperflorens flore pleno. Double and single blooms. Blooms throughout the summer	1.25	8.00

Dianthus Heddegi - Japanese Pinks

Mixed Varieties	1.50	10.00
------------------------------	------	-------

Dianthus Barbatus - Sweet William

Atrococcineus flore pleno (Double Sweet William). Intense deep scarlet double flowers; very brilliant in the garden and a fine cut flower	1.25	8.00
Sutton's Fairy. Charming variety of recent introduction, with delicately tinted salmon-pink flowers ..	1.25	8.00
Sutton's Giant White. Enormous trusses which might well be mistaken for perennial Phlox	1.25	8.00
Sutton's Pink Beauty. We have succeeded in fixing the shade of this beautiful salmon-pink variety, which should be grown in every garden	1.25	8.00
Sutton's Rich Crimson. The richest Sweet William known; although very dark, it is a bright color	1.25	8.00
Sutton's Scarlet. A remarkable color. The flowers are of intense scarlet	1.25	8.00
Sutton's Mixed Shades. Include all the various tints, which give a most pleasing and harmonious effect ..	1.25	8.00

Dianthus Species

Alpinus Allwoodi. This is one of the loveliest of all rockery Pinks, with glossy leaves and large flowers of various shades of rose and pink on 4-inch stems, produced during July and August. It thrives best in loam with some lime added. A gem for the rock garden..	2.00	15.00
* Arenarius (Sand-Loving Pink). This Pink delights in a sandy soil and sun. Flowers white with carmine ring, on 5-inch stems, deeply fringed and fragrant. Excellent for dry, hot places	2.00	15.00
* Caesius grandiflorus (Cheddar Pink). It is very compact in growth and makes a cushion of glaucous leaves from which in May, spring the sweet smelling, rose-colored flowers. It varies as much as from 4 inches to 10 inches in height. It is easily grown and very fine for the rock garden	2.00	15.00
* Cruentus. Dense heads of flowers on long stems. Deep red. Fine border plant	2.00	15.00
* Deltoides (Maiden Pink). A beautiful little prostrate plant with narrow leaves, and bearing a profusion of small, crimson flowers during June and July. Easily grown on rockery	1.75	12.00
* Deltoides albus. A charming white form of the above variety	1.75	12.00
* Deltoides "Brilliant." Glowing crimson-red; a most striking rock plant	1.75	12.00
* Knappi. A dainty species producing slender stems which bear clusters of small, yellow blossoms. This is a unique Dianthus as it is the only species which produces yellow flowers. Place it high in the rock garden as it loves a dry sunny place	2.50	18.00
* Liboschitzianus. A lovely species, pure white flowers in great profusion during July. Very lovely plant for rockery or border. About 20 inches high	2.50	18.00
* Neglectus var. Roysi. Dianthus Neglectus is also known under the name of Glacialis. The variety Roysi is one of the lovely English garden varieties. It grows about 4 inches high, completely covered with carmine-pink flowers. In Europe it is considered one of the choicest Pinks for the rock garden. Introduced for the first time in this country	2.50	18.00
* Speciosus. A free-flowering, lavender-pink variety; flowers are finely cut, giving a lacy effect; wonderfully sweet scented, growing anywhere like all other varieties under this heading; the hotter and drier the spot the more they are at home	2.00	15.00
* Sylvestris (Wood Pink). Bluish foliage and salmon-pink flowers on stems about a foot high. Likes an open place in stony loam and a slight covering of stone chips upon the surrounding soil is beneficial ..	2.50	18.00

Dicentra - Bleeding Heart

	Doz.	100
* <i>Eximia</i> (Plumy Bleeding Heart). A dwarf-growing sort, with beautiful, finely cut foliage and showy racemes of pretty pink flowers throughout the season. Too much cannot be said for this fine border plant as it is equally at home in full shade or sun and perfectly hardy anywhere.	\$1.75	\$12.00
<i>Spectabilis</i> (Bleeding Heart or Seal Flower). An old-fashioned favorite; its long racemes of graceful heart-shaped pink flowers are always attractive; it is used also for forcing in the house, and is perfectly at home in any part of the hardy border, and especially valuable for planting in clumps.	2.50	18.00

Dictamnus - Gas Plant or Fraxinella

<i>Fraxinella alba</i>	1.75	12.00
<i>Fraxinella rubra caucasicus</i> . Is the better of the two, with rose-pink flower spike	1.75	12.00

Digitalis - Foxglove

<i>Ambigua</i> or <i>grandiflora</i> . 2- to 3-foot spikes in June and July. A hardy plant, with yellowish flowers, marked with brown. Effective in groups in wild garden. This is a good perennial species.	1.75	12.00
<i>Giant Shirley Hybrids</i> . The flower heads are over 3 feet long, crowded with big, bell-shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted crimson or chocolate.	1.75	12.00
<i>Gloxinaeflora</i> . 3 to 4 feet. June and July. A popular variety, deep purple. Robust habit.	1.50	10.00
<i>Gloxinaeflora alba</i> . 2 feet. June and July. The white-flowered Foxglove.	1.50	10.00
<i>Gloxinaeflora rosea</i> . 3 to 4 feet. June and July; tall spikes of rose-pink flowers.	1.50	10.00
<i>Isabellina</i> . A lovely cream-yellow sort of medium height, producing 3 to 4 flower spikes to a plant. It is beyond doubt the nicest of all the Foxgloves.	1.75	12.00
<i>Laevigata</i> . A dignified and handsome perennial Foxglove. Bronzy yellow flowers with whitish lip.	2.00	15.00

Dodecatheon - American Cowslip

* <i>Meadia</i> (Shooting Star). A pretty perennial, with rose-colored or sometimes white flowers in May or June, on 8- to 10-inch stems. This is sometimes called "American Cyclamen." It thrives in rich, moist woods, in the open border or rock garden.	1.25	8.00
--	------	------

Doronicum - Leopardbane

<i>Caucasicum</i> . Large, bright yellow flowers, one of the most effective early spring-flowering perennials. Effective in a hardy border. It is a splendid flower for cutting, as it carries well and stands a long time in water.	2.00	15.00
---	------	-------

Draba - Whitlow Grass

<i>Fladnizensis</i> (Androsacea). A very hardy species from the Arctic regions. Produces a profusion of yellow flowers from March to May. Fine for rock garden.	3.25	22.50
<i>Olympica</i> (Bruniaefolia). A lovely dwarf variety about 4 inches high with golden flowers in large quantities in June. It is a native of Greece. Plants quite often vary in habit and form.	3.25	22.50

Dracocephalum - Dragonhead

* <i>Ruyschianum japonicum</i> . Flowers blue; central lobe of corolla with a blue border and white spots, might be called a blue <i>Physostegia</i> . 2 feet. July and August.	2.00	15.00
--	------	-------

Dryas - Mountain Avens

** <i>Octopetala</i> . Very choice plant for the Alpine garden. Forms flat carpets of deep green foliage, and when well established bears immense white anemone-like blossoms. Very choice.	3.25	22.50
--	------	-------

Echinops - Globe Thistle

<i>Ritro</i> . Interesting and showy thistle-like plants with globular heads of deep metallic blue flowers during July and August, which can be dried and remain attractive for a long time. 2 to 3 feet high.	1.75	12.00
---	------	-------

Edraianthus - Wahlenbergia

<i>Dalmaticus</i> . Low border or rock plant about 3 to 4 inches high, producing blue flowers not unlike the <i>Platycodon</i> ; this plant is very rare.	2.50	18.00
--	------	-------

Epigaea - Trailing Arbutus

	Doz.	100
* <i>Repens</i> (Mayflower). Likes acid soil, therefore plant in some place where lime will not hurt it. Very difficult to transplant. Sent only at your risk. Strong plants.	\$3.25	\$22.50

Epilobium - Willow-herb or Rose-bay

<i>Angustifolium</i> . Blush-white flowers; very showy among shrubbery. 3 to 4 feet high. Flowering from June to August.	2.00	15.00
---	------	-------

Epimedium - Barrenwort

* <i>Macranthum</i> . A dwarf-growing plant suitable for shady position in the rock garden or edge of border, with leathery, bronzy foliage and panicles of small, sulphur-yellow flowers in May.	4.00	30.00
--	------	-------

Erigeron - Fleabane

* <i>Alpinus</i> . A dwarf species suitable only for rock gardens. Plant bears an attractive head of purplish flowers throughout the summer.	2.50	18.00
<i>Elatior</i> . A medium sized plant, rather of airy growth. Completely covered with small, daisy-like, purple flowers in July. Lovely in border or good tall plants for rockery. About 2 feet in height.	2.00	15.00
<i>Macranthus</i> . A fine hardy perennial with violet flowers, effectively used in mass plantings in borders together with Hardy Asters, <i>Bocconia</i> or other tall plants for backgrounds.	2.00	15.00
<i>Spectosus</i> . Large, handsome blue flowers, violet tinted and yellow centers during June and July; fine for cutting.	2.00	15.00

Erinus

** <i>Alpinus roseus</i> . Pretty rosettes of foliage and racemes of rosy purple flowers. A first rate rock plant and also invaluable for establishing on old walls or between steps. 4 inches. May and June.	1.75	12.00
** <i>Alpinus albus</i> . White form of the above.	2.00	15.00

Eryngium - Sea-Holly

<i>Amethystinum</i> (syn. <i>Oliverianum</i>). The true blue Thistle, with amethyst stems and bracts. 2 feet high. At its best in July and August.	2.50	18.00
<i>Giganteum</i> . A very fine giant variety. The plant is very strong, entirely blue-green. When cut and dried, it makes one of the finest specimens for winter decorations. 2 feet high; lovely in August.	2.50	18.00
<i>Platum</i> . Branching heads of steel-blue flowers; stems and bracts of a glistening metallic sheen; about 30 inches high. At its best in July and August.	1.50	10.00

Erysimum - Rock Wallflower or Hedge-Mustard

	Doz.	100
* <i>Pulchellum</i> (Fairy Wallflower). Dwarf plant with sulphur-yellow flowers. Six inches high; good rock plant.	\$1.75	\$12.00

Erythraea

<i>Diffusa</i> . A charming little Alpine plant which does best in a dry, sandy soil in light shade. A lovely and very valuable little rock plant. In summer it is covered with clear pink flowers on stems 4 inches high.	3.25	22.50
---	------	-------

Eupatorium - Hemp Agrimony; Hardy Ageratum

	Doz.	100
<i>Ageratoides</i> (Thoroughwort). A useful border plant of strong free growth, 3 to 3½ feet high, with minute white flowers in dense heads; splendid for cutting in August and September.	\$1.75	\$12.00
<i>Coelestinum</i> . A pretty, hardy plant, with light purple flowers similar to the <i>Ageratum</i> ; in flower from August until frost. 12 to 24 inches. Good cut flower.	1.75	12.00

Euphorbia - Spurge, Milkwort

<i>Corollata</i> (Flowering Spurge). Showy and useful plant growing about 24 inches high, and bearing from June till August umbels of pure white flowers much like the Baby's Breath and excellent for cutting.	1.50	10.00
* <i>Myrsinites</i> . A pretty prostrate species, bluish foliage, with crowded heads of yellow flowers.	1.75	12.00
* <i>Polychroma</i> (Epithymoides). A beautiful formal plant growing 1 foot high, forming a hemispherical clump covered with yellow flowers in May and June. Excellent border or rock plant.	3.25	22.50

Ferns

	Doz.	100
<i>Adiantum pedatum</i> (Hardy Maidenhair Fern). Most attractive of our native Ferns; black stems with delicate green fronds; does well in moist spots.	\$1.75	\$12.00
* <i>Aspidium acrostichoides</i> (Wood Fern). (Polystichum). An evergreen species with deep green, divided fronds. Should be planted in a shady position. 12 inches.	1.75	12.00
<i>Aspidium spinulosum</i> (<i>Dryopteris spinulosa</i>). (Spinulosa Wood Fern). An evergreen variety that requires rich, well drained soil. 18 to 24 inches.	1.75	12.00
<i>Asplenium filix-foemina</i> (Lady Fern). Grows in shade or sun. Large and handsome. 3 feet.	2.00	15.00
<i>Cystopteris bulbifera</i> (Bladder Fern). Light green fronds which attain a length of nearly 3 feet, make it useful for massing on moist banks or for lining walks where a low carpet effect is desired. Plant the crowns just at the surface and 8 inches apart.	1.75	12.00
<i>Dicksonia punctilobula</i> (<i>Dennstaedtia punctilobula</i>) (Hay-scented or Gossamer Fern). Grows well in either sun or shade. 18 to 24 inches. Very erect with broad fronds, of a soft, woolly texture.	1.75	12.00
* <i>Onoclea sensibilis</i> (Sensitive Fern). Requires wet places either in sun or shade. 12 inches.	1.75	12.00
<i>Osmunda cinnamomea</i> (Cinnamon Fern). Erect fronds, drooping at tips, with bright cinnamon-colored spores at ends of fronds; a very conspicuous variety.	2.00	15.00
<i>Osmunda Claytoniana</i> (Interrupta). A distinct and very beautiful native species; foliage velvety green, with prominent brown spores in middle of fronds.	2.00	15.00
<i>Osmunda regalis</i> (The Royal Fern). Wonderful in damp, marshy places, where its rich yellowish green foliage and golden stems make very striking subjects.	2.00	15.00
* <i>Polypodium vulgare</i> (Common Polypody). One of the best evergreen species for rockwork. Grows 4 to 10 inches high, forming dense mats. Plant about 4 to 6 inches apart for quick results and cover the new bulbs slightly.	1.75	12.00
<i>Struthiopteris germanica</i> (The Ostrich Fern). A very graceful species with finely cut pinnules, growing 2 to 3 feet high.	1.75	12.00
* <i>Woodsia obtusa</i> . Large rosettes of curious hoary foliage. Fronds 1 foot in length; very free flowering.	2.00	15.00

Funkia - Plantain-lily or Japanese Day-lily

<i>Coerulea lanceolata</i> . Broad green leaves; blue flowers from July to August.	1.75	12.00
* <i>Lancifolia</i> . Long, narrow leaves, dull green, produced in abundance; lilac-blue flowers during July and August; excellent plant for shade and edging.	1.25	8.00
<i>Subcordata grandiflora</i> . Very large, pure white, lily shape, fragrant flowers in August and September.	2.00	15.00
<i>Variegata</i> . Variegated foliage; blue flowers. Beautiful edging plant.	1.75	12.00

Gaillardia - Blanket Flower

<i>Giant Portola Hybrids</i> . Even larger than the Improved English Strain Giant Hybrids with greater variation of colors.	1.75	12.00
<i>Improved English Strain Giant Hybrids</i> . In lovely shades of orange, yellow, and red all summer and fall.	1.25	8.00

Galax

<i>Aphylla</i> . A pretty little evergreen from the mountains of North Carolina, having shining red or green leaves. Stalks a foot high, bearing many small, white flowers. Hardy in cold latitudes.	1.50	10.00
---	------	-------

Galega - Goat's Rue

<i>Officinalis nana rosea flore pleno</i> . Very fine double pink variety; rather rare.	1.75	12.00
--	------	-------

Galium - Ladies' Bedstraw

* <i>Atropurpureum</i> . Erect, thin stems, topped with many attractive, small, purple flowers used to lighten the effect of heavier flowers. It is also good in rockeries and on banks. The general effect is that of the <i>Gypsophila</i> . It is because of the legend that one of these plants was in the hay on which the Mother of Christ rested that it received the name of Ladies' Bedstraw.	1.75	12.00
---	------	-------

Gaultheria

<i>Procumbens</i> (Aromatic Wintergreen). A low evergreen, with bright green leaves. Flowers white, followed by the bright red berries, which remain until the next season. Give the bed a covering of leaves. It takes a whole season to establish this plant. Clumps.	1.75	12.00
--	------	-------

Genista - Dyers-Greenweed

	Doz.	100
* Juncea . A very fine little spring shrub about 2 feet high with silky, small leaves; the flowers are freely produced in drooping heads. It is the hardiest of the Genistas	\$3.25	\$22.50
* Sagittalis (Dwarf Prostrate Broom). The stems are curiously winged like an arrow, pealike flowers in clustered heads in June. Plant in warm, sheltered part of rock garden. Plant is about 6 inches high ..	2.50	18.00

Gentiana - Gentian

* Andrews . One of the most fascinating native plants. The flowers, which are tightly closed, are borne at the top of a stem from 6 to 8 inches long, and are an intense deep blue. Blooms best in moist places. July and October	1.75	12.00
Cruciata . The ubiquitous little cluster headed Gentian of the entire Alpine ranges. The small bright blue flowers are four-lobed. August and September flowering	3.50	25.00
Freyana . A beautiful plant in the way of Gentiana Septemfida and possibly a geographical form of it. Quite low growing, it sends out short trailing shoots, set with pairs of dark glossy leaves and ending in two or three large bells of bright blue. Rarely exceeds six inches in height.	3.50	25.00
* Lagodechiana . Easily grown and resembles the Septemfida. It is, however, prostrate. Not over 2 to 3 inches high, flowering July	3.25	22.50
* Purdoui . A new species introduced by Purdom, and a fine addition to the list of Gentians. Lovely blue flowers in July and August	3.25	22.50
* Septemfida . A very easily grown variety about 9 to 12 inches high with clustered heads of sapphire-blue in midsummer	3.25	22.50
Seeptrum . An erect-growing plant from 2 to 4 feet high, with dark blue, bell-shaped flowers during August and September. Lovely in open woods in half-shade; loves a peaty soil	3.50	25.00

Geranium - Crane's-bill

Pratense . Large blue flowers in pairs on stems 2½ feet high. Very handsome plant for border	1.75	12.00
Pratense album . Very handsome white variety of the Meadow Crane's-bill	1.75	12.00
Graudiflora . The handsome serrated foliage and large lilac blossoms produced all summer, make it one of the best. Plant is compact and bushy, about 18 inches high, and does well in light shade or full sun ..	2.50	18.00
* Sanguineum . Attractive foliage and bright crimson flowers all summer. 18 inches	2.00	15.00
* Sanguineum album . Fine rock plant; white form of the above	2.00	15.00

Gerbera - Transvaal Daisy

Jamesoni Giant Hybrids . A lovely mixture of brilliant orange, pink, and yellow shadings; in pots, available in spring only	3.00	20.00
--	------	-------

Geum - Avens

Coccineum , Mrs. Bradshaw (Chiloense). A splendid variety, with large, double flowers of a fiery orange-red, blooming nearly all summer	1.75	12.00
Lady Stratheden . A new introduction of great merit. Rich golden yellow blossoms, counterpart of Mrs. Bradshaw	1.75	12.00

Gillenia - Indian Physic-plant

Trifoliata . A lovely plant for a shady place in rockery or border	1.75	12.00
---	------	-------

Globularia - Globe Daisy

* Trichosanthea (Globe Daisy). A dwarf, tufted little plant with beautiful lavender flower heads. Does well in front of a well drained border and is a brilliant picture in the rock garden	1.75	12.00
--	------	-------

Grasses, Hardy Ornamental

Elymus glaucus (Blue Lime Grass). Handsome Grass with narrow, glaucous silvery foliage. Well adapted for the border or edge of beds with taller sorts. About 18 inches high.	1.50	10.00
--	------	-------

GRASSES—Continued.

	Doz.	100
Eranthus ravennae (Plume Grass or Pampas). 10 to 12 feet high, frequently throwing up 30 to 50 flower spikes topped with silvery plumes	\$2.50	\$18.00
Eulalia gracillima univittata (Japan Rush). Graceful habit, with very narrow foliage, of a bright color, with a silvery midrib; 6 to 7 feet, with fine plumes ..	1.50	10.00
Eulalia japonica . Long, narrow, graceful green foliage, and in flower the attractive silvery grey plumes are 6 to 7 feet high	1.75	12.00
Eulalia japonica variegata . Very ornamental; long, narrow leaves, striped green, white, and often pink or yellow	1.75	12.00
Eulalia japonica zebrina (Zebra Grass). The long blades of this variety are marked with broad, yellow bands across the leaf. It makes a very attractive specimen plant for the lawn. 6 to 10 feet high and silvery plumes	2.00	15.00
Festuca glauca (Blue Fescue Grass). 12 to 15 inches. Grown for dense tufts of very narrow, bluish leaves. Used for edgings or for contrast with darker foliage ..	1.50	10.00
Fenistatum japonicum (Fountain Grass). A beautiful Grass whose flower heads are produced in the greatest profusion. Color rich mahogany, conspicuously tipped with white	1.75	12.00
Phalaris arundinacea variegata (Variegated Ribbon Grass). Leaves longitudinally striped with white; very ornamental; sometimes runs wild about old places. 18 inches	1.50	10.00

Gypsophila - Chalk-Plant; Baby's Breath

Bristol Fairy . A wonderful new introduction. Bristol Fairy produces large panicles of double, white flowers, in which the individual blossom is larger, and of the purest white. It also flowers continuously throughout the summer	3.00	20.00
Paniculata compacta . When in bloom in August and September it forms a symmetrical mass 2 to 3 feet in height and as much through, of minute white flowers having a beautiful gauzelike appearance	1.25	8.00
Paniculata flore pleno . A light and graceful cut flower, compatible with all others, no matter of what shape or color; masses of minute double white flowers. (Plants offered are grafted, and we guarantee all plants to be double)	3.50	25.00
* Repens . A beautiful trailing plant for the rockery, with clouds of small, white and pink flowers in July and August	1.50	10.00
* Repens rosea . A pale pink-flowered form of the above variety; both lovely in the rock garden or in the dry wall	1.50	10.00
Rochejaka (Acutifolia). Blush white "Baby's Breath." Tall grower, and a good cut flower	1.50	10.00

Helenium - Sneezewort

Autumnale superbum . Broad heads of deep golden yellow flowers in late summer. Grows 5 to 6 feet high	1.75	12.00
Autumnale rubrum . A splendid variety; deep bronzed, changing to terra cotta, 5 to 6 feet, September ..	3.00	20.00
Bigelovi . Quick growing, branching plants, 3 to 4 feet high; quite showy during August with terminal clusters of deep yellow flowers; brown centered ..	1.75	12.00
Pumilum Magnificum . Large, golden yellow flowers; one of the most floriferous and useful border plants in cultivation. Early, flowering from July to October. Can be successfully used in place of Coreopsis where a more restrained plant is required. Height 12 to 18 inches	3.00	20.00
Riverton Beauty . Pure lemon-yellow, with large disc of purplish black. 3 to 4 feet high; early fall	1.75	12.00
Riverton Gem . Old gold suffused with bright terra cotta, changing to wallflower-red. 3 to 4 feet high. From August to October	3.00	20.00

Helianthemum - Sun Rose or Rock Rose

* Album plenum . Double white	1.50	10.00
* Buttercup . Golden yellow; single	1.50	10.00
* Clara Middleton . Single; rich orange	2.00	15.00
* Fireball . Bright scarlet; double	1.50	10.00
* Rhodanthus carneum . Large, pink flowers, silvery foliage	2.00	15.00
* Sudbury Gem . Single, crimson-bronze	2.00	15.00
* Choice Mixed Varieties	1.50	10.00

We offer 3-inch pot plants ready to bloom, which establish without any difficulty.

Helianthus - Perennial Sunflower

	Doz.	100
Maximiliani . The latest of all. Golden yellow flowers in graceful sprays 6 feet long, in October. Fine for cutting	\$1.50	\$10.00
Mollis . An improved variety of tall growth and having large flowers. A decided improvement and most beautiful sort	1.50	10.00
Multiflorus fl. pl. Clear yellow; closely resembling a small Dahlia in shape and finish. 4 feet high	1.75	12.00
Sparcifolius . The best of the summer-blooming varieties of hardy Sunflowers. Flowers 3 inches in diameter and freely produced. Plant grows 3 to 4 feet high, and spreads rapidly. Fine for the border, and for planting among shrubs	1.50	10.00

Helichrysum - Strawflower

* Bracteatum . While this is commonly understood to be annual, the perennial form was sent to us from England. Grows about 1½ to 2 feet tall with many golden yellow strawlike flowers. Is profuse in flowering and a fine border plant	3.25	22.50
--	------	-------

Heliopsis - Orange Sunflower

Pitcheriana . A desirable variety. The flowers are of a beautiful deep golden yellow, about 2 inches in diameter, very thick texture and a useful cut flower. Stems 3 feet high, from July to August	1.50	10.00
Scarbra excelsa . Chrome-yellow flowers, turning to a bright yellow as they mature. These are almost double. Plant about 3 feet high, and from mid-July to the end of September makes an effective display ..	1.75	12.00

Helipterum - Australian Everlasting

* Anthenoides . Grows about 18 inches high, somewhat spreading in habit. The white flowers are profusely produced	2.50	18.00
--	------	-------

Helleborus - Christmas Rose or Lenten Rose

Niger . Very large, white solitary flower, flushed with purple. Excellent in shady places. Leaves evergreen. 1 foot. Blooming period, February-March. Strong field plants	8.00	60.00
Strong 3-year pot plants	4.00	30.00

Hemerocallis - Day Lilies

Aurantica . A strong growing and free flowering variety, producing rich orange-yellow flowers in early summer. 2 feet	1.75	12.00
Dr. Regel . Handsome, rich orange-yellow flowers in May. Very fragrant. Fine for cutting, 1½ feet	1.50	10.00
Flava (Lemon Lily). Sweet scented, clear full yellow. 2½ feet. Flowers in June	2.00	15.00
Florham . A strong grower. 3 to 3½ feet high, large, trumpet-shaped flowers; rich golden yellow, with Indian yellow markings. June and July	2.00	15.00
Fulva (Brown Day Lily). Coppery orange, shaded crimson. 3 feet. July	1.50	10.00
Kvanso . Large, double-flowered variety with rich golden bronze flowers in July and August	1.75	12.00
Middendorff major . A very striking variety, with huge, rich, orange-yellow flowers in summer	1.50	10.00
Thunbergi . Much like Flava, but flowers a month later. Spikes 2 to 3 feet tall, pale yellow blossoms	1.50	10.00

Below we are offering six new Hybrid Hemerocallis of great merit. There is no doubt in our minds that when they become a little cheaper they will replace the old sorts. We suggest you start a collection of these lovely Lemon Lilies; enjoy them now. Each

Bay State. Brilliant and glistening deep yellow flowers on 4-foot stems. In full bloom about June 28th. Free blooming and robust in growth

Gypsy. Brilliant deep orange flowers on 3-foot slender stem in full bloom July 5th. Stems are slender and plant of medium size. A showy plant for the small border

J. A. Crawford. Rich apricot-yellow shaded light cadmium. Many flowers on 4-foot stems; at their best about June 25th. A lovely plant which looks well in light shade

Lemona. Delicate and pale lemon-yellow flowers on 4½-foot stems. Blooms are at their best July 1st. One of the finest large blooms, much like a large Japanese Iris in form

Mrs. W. H. Wyman. Lovely light pale lemon-yellow flowers on 4-foot stems. In full bloom August 1st. Very free-blooming and lasts a long time. Latest to bloom of all Hemerocallis ..

The Gem. Rich, deep orange-yellow flowers on 3½- to 4-foot stems. In full bloom June 20th. Very finely formed bloom, equal to the best Lilies; truly a gem

Herniaria - Rupture-wort

	Doz.	100
**Glabra. Prostrate creeper; excellent for planting between stones in terrace or between stepping stones; foliage moss like, green shading to bronze in winter. \$2.50	\$18.00	

Hesperis - Sweet Rocket or Dame's Violet

Matronalis. Fragrant, purple flowers in showy spikes. 2 to 3 feet. June and July. Desirable for wild garden, shrubbery or mixed border.	1.50	10.00
Matronalis alba. A white-flowered form of the above named sort. Also sweet scented and fine in the border.	1.50	10.00

Heuchera - Alum Root; Coralbells

*Brizoides. Has more robust foliage and better habit than <i>Heuchera sanguinea</i> ; the flowers are pale pink and produced profusely in May.	1.75	12.00
Plule de Feu. A lovely coral-red variety and lovely for the rock garden.	2.50	18.00
*Rosamundi. We have carefully tested several varieties of <i>Heuchera</i> in all the pink shades during the past few years, and we find that this is the most desirable of the coral-pink sorts.	2.50	18.00
*Perry's White. Pure white flowers which go well with the red and pink varieties, flowering from June to September.	1.75	12.00
*Sanguinea. Flowers bright crimson, on 12- to 18-inch stems in June and September; very free flowering. Nice for cutting. Excellent for rock garden.	1.75	12.00
*Sanguinea alba. Similar to the above, with white flowers.	1.75	12.00
*Wayside Gardens Hybrids. Especially noted for their luxuriant foliage and robust growth. Therefore used principally as an edging to beds or walks. The rich green foliage is tinted with bronze or reddish brown veins and attractive throughout the entire season.	1.75	12.00

Hibiscus - Mallow

Hibiscus. New Giant-Flowering. A wonderfully improved form of our greatly admired native Marsh-mallow or Rose-mallow.	1.75	12.00
Hibiscus, Red, Pink or White. Strong, 3-year-old.	1.50	10.00
Hibiscus, Red, Pink or White. Strong, 2-year-old.	1.50	10.00
Hibiscus, Mixed Colors. 2-year-old.	1.50	10.00

Hollyhocks - Althea Rosea

DOUBLE. Separate colors as follows: Bright Rose, Maroon, Newport Pink, Red, White, Yellow, Prince of Orange, and Mixed. Price, all colors.	1.50	10.00
New Allegheny. Immense semi-double flowers, with fringed edges.	1.50	10.00
SINGLE, Mixed.	1.50	10.00
It is best not to transplant too heavy and big roots; finest results are obtained from young plants that have not yet flowered. All orders are filled with this vigorous young stock.		

Houstonia - Bluet or Lady's Cushion

*Cerulea. A lovely little plant for the rock garden, where it will self-seed and establish itself freely. Plant in fall or very early spring.	1.75	12.00
---	------	-------

Hypericum - St. John's Wort or Rose of Sharon

Ascyron (Pyramidatum). Upright growing perennial about 3 to 4 feet high. Clusters of flowers in July. Each flower about 2 inches in diameter. Good for background in the border.	2.00	15.00
*Calyculum. Similar to <i>Moserianum</i> , except that it makes underground runners, which, when they come up, produce a beautiful carpet of green covered with large, yellow blossoms. Really a ground cover; hardiest of all; excellent dwarf shrub.	2.00	15.00
*Cork. A very pretty, erect growing little perennial plant about 3 inches high. Graceful foliage and large, yellow flowers in summer.	2.50	18.00
Henry. The same as <i>Moserianum</i> , though slightly more upright in growth. A lovely little shrub.	2.00	15.00
*Moserianum. A most desirable border shrub about 20 inches high, of free and graceful habit, producing long, slender stems, drooping, apparently from the weight of the flowers and buds, although the flowers face so none of their beauty is lost. Color a rich golden yellow, and bloom continuously the entire season.	1.75	12.00
*Reptans. Distinct, prostrate, trailing species from the Himalayas. Very large, soft yellow flowers, tinged reddish in July and August. Good rock plant.	2.00	15.00

Iberis - Candytuft

	Doz.	100
*Little Gem. Dwarf, pure white flowers in June. Its uniform, neat habit makes it one of our best rock or edging plants; perfectly hardy.	\$2.00	\$15.00
*Semipervirens. Covered with a sheet of white flowers in spring, completely covering its rich dark green foliage; a particularly fine rock plant.	1.75	12.00

Incarvillea - Trumpet Flower

Delavayi. Rose-pink flowers produced in large trusses on stiff, 18-inch stems.	2.00	15.00
*Grandiflora brevipes. This is the best sort for rock gardens, about 8 inches high and large crimson-purple flowers. A splendid rock plant, easily grown.	2.50	18.00

Inula - Fleabane

Hirta. Stems 12 to 15 inches high with brilliant flowers in July and August. A splendid plant for in front of the hardy border.	2.00	15.00
Roylana. A new introduction from the Himalayan wilds. The flowers are 5 to 6 inches in diameter, rich golden yellow, resembling sunflowers except that the petals are fine and graceful. Not over 18 to 24 inches high. One of our finest new border perennials and most unusual.	2.00	15.00

Iris Germanica - German or Flag Iris

Alcazar. S. light bluish violet; F. deep purple.	1.00	5.00
Ambassadeur. S. smoky velvety purple; F. velvety purple.	1.25	8.00
Asia. One of the highest rated and finest Irises in cultivation.	3.50	25.00
Ballerine. S. light blue-violet; F. a deeper shade.	3.50	25.00
Candlelight. Pinkish lavender.	1.75	12.00
Caprice. S. rosy red; F. deeper rosy red. 24 inches.	1.00	5.00
Cecil Minturn. Soft Cattleya rose. A beautiful flower.	1.50	10.00
Crusader. One of the finest lavender-blue varieties.	2.50	18.00
Dominion. Perhaps the most famous of all Irises. S. Daphnif blue or light bluish violet, large, erectly held, well developed. F. of exceptional substance, deep rich Indigo-purple. Very velvety texture. Each, \$1.00.	1.75	12.00
Fairy. White, delicately bordered and suffused pale blue.	4.00	30.00
Germain Perthus. Violet-purple.	1.75	12.00
Gold Imperial. The greatest golden yellow Iris known.	1.00	5.00
Helge. Lemon-yellow with pearl shading. Huge flower.	1.50	10.00
Isoline. S. pinkish buff; F. Chinese violet with russet tints.	1.50	10.00
Jeanne d'Arc. S. large and ruffled; F. white edged lilac at base.	1.25	8.00
King of Iris. S. clear lemon-yellow; F. rich maroon.	1.25	8.00
Lent A. Williamson. S. campanula-blue-violet; F. royal purple.	1.10	6.00
Lord of June. S. lavender-blue; F. rich violet-purple.	1.25	8.00
Magnifica. F. superb dark reddish purple; S. light violet-blue.	3.00	20.00
Midnight. A rich, deep purple; the finest in this color.	1.25	8.00
Moussignor. S. violet; F. heavily veined purple; late.	1.10	6.00
Mother of Pearl. Standards and falls pale bluish lavender.	1.75	12.00
Mme. Chobaut. Prussian-red with light brownish veins.	1.25	8.00
Mrs. Alan Gray. Delicate lavender-pink; pinkier in the shadow.	1.00	5.00
Nibelungen. S. fawn and yellow; F. violet-purple on bronze.	1.10	6.00
Opera. S. bright rich pansy-violet; F. rich velvety violet-purple.	1.75	12.00
Oriflamme. S. light blue; F. rich violet-purple.	1.50	10.00
Pallida Dalmatica. Princess Beatrice. True type. 3 ft. high.	1.50	10.00
Pallida Dalmatica, foliis variegatis. Lavender-blue. Each, 30c.	1.00	5.00
Perfection. Rich violet-blue flowers freely produced.	2.00	15.00
Primrose. Lovely yellow.	1.00	5.00
Princess Victoria Louise. S. sulphur-yellow; F. rich plum.	1.00	5.00
Prosper Laugier. S. light bronze-red; F. velvety ruby-purple.	1.10	6.00
Prospero. A gorgeous flower of large size and fine form.	1.75	12.00
Queen Caterina. Orchid-purple veined with brilliant gold.	1.50	10.00
Rhein Nixe. S. white; F. violet-blue with white edge.	1.00	5.00
Shekinal. Pale yellow shading to amber in the throat.	1.25	8.00
Sherwin-Wright. Color a rich golden yellow without markings.	1.00	5.00
Snow White. Fine pure white.	1.75	12.00
Souvenir de Mme. Gaudichau. A rich, deep velvety purple Iris.	1.75	12.00

Iris Pumila - Miniature Flag

	Doz.	100
These beautiful little Irises do not grow over 4 inches high and bloom in April and May. They are fine for bordering flower beds or planting in the rock garden.		
Atrorivalea. Wine colored; very dwarf.	\$2.00	\$15.00
*Sambo. Dark violet-blue.	1.50	10.00
*Excelsa. A splendid pale lemon-yellow.	2.00	15.00
*Fairy. Pale blue; very dwarf.	2.50	18.00
*Schneecuppe. A large, showy, pure white.	2.00	15.00

Iris Kaempferi - Japanese Iris

Albatross. Beautiful pure white, double-flowered. The finest of all double white sorts. Large, strong flowers of very refined form.	4.00	30.00
Catherine Parry. Double. Blue, overlaid rosy red.	2.50	18.00
Columbia. Double blue with pure white veins, yellow center.	2.50	18.00
Ellenor Parry. Double. Claret-red, flamed white and blue.	2.50	18.00
Fascination. Double. Blue, lightly veined white, pink tinge.	2.50	18.00
Gold Bound. A fine double, pure white; gold-banded center.	2.00	15.00
Koko-No-Iro. Six large, royal purple petals with yellow center.	2.00	15.00
Mahogany. Large, double flowers; purple-mahogany-red petals.	2.50	18.00
Nagano. Rich violet-purple, shaded with blue. Six petals.	2.50	18.00
President Harding. Double or six-petaled; thick-petaled flowers.	2.50	18.00
Purple and Gold. Double; early, free-blooming.	1.75	12.00
Pyramid. Double. Violet-purple, veined white in each petal.	2.00	15.00
Queen of the Blues. Pale delft blue veined white.	2.50	18.00
Red Riding Hood. A fine single amaranth veined white.	3.00	20.00
Shadow. Single. Self color, reddish purple.	2.50	18.00
Templeton. Double light violet mottled reddish pink and white.	2.00	15.00
Toro-Odori (Dancing Tiger). Vinous purple. Six petals.	2.50	18.00
T. S. Ware. Reddish violet, veined white. Center white.	3.00	20.00
Mixed Colors. Both single and double. Choice varieties.	1.25	8.00

Iris Species

*Cristata (Evanasia). A dainty native creeping species, only 3 inches in height; flowers rich amethyst-blue in May; a gem for a shady spot in the rock garden or an excellent ground cover under trees when it will form a solid carpet covered with flowers which are very lovely to behold.	1.75	12.00
Dichotoma (Vesper Iris). A most attractive fan-shaped plant 8 to 12 inches high. The slender, 2-ft. high flower stalk carries a number of small light purple blooms which open in the late afternoon. Four to six blooms open at one time. While the flowers do not last long, they are produced in endless profusion. A choice gift from China for the rock garden or border. Each, 75c.	2.50	18.00
Ochroleuca gigantea. Forms large clumps succeeding in almost any position, producing late in May numerous 3-ft. high stems with an abundance of very distinct creamy yellow flowers.	2.50	18.00
Orientalis White. Similar to the <i>Sibirica</i> varieties but not so tall. Produces masses of lovely small white flowers; a fine plant for border or waterside; about 30 inches high.	1.50	10.00
Sibirica, Emperor. Very large, clear blue flowers on stout, stiff stems. Vigorous free grower and very free-flowering; fine for cutting.	3.00	20.00
Sibirica, Snow Queen. An exquisite hardy Iris; the flowers are of a snowy whiteness, large and well formed, produced in great abundance; foliage light and graceful. A gem for flower borders or waterside. 3 feet high.	1.50	10.00
Sibirica superba. Large, violet-blue flowers; handsome foliage. Fine border plant and grand subject for planting near water, where it blooms profusely. 3 feet high.	1.50	10.00
*Tectorum. A beautiful species from the Orient with delicately crested blue flowers. 12 inches high in June. This is the Roof Iris of Japan where it is grown on thatched roofs of the cottages. Lovely in the rock garden.	1.75	12.00
Tectorum alba. A white form of the <i>Tectorum</i>	4.00	30.00

Jasione - Sheep's Scabious

***Perennis.** Like a very dainty lavender-blue Scabiosa, about 6 inches high, flowering in June and July \$2.50 \$18.00

Lactuca - Blue Lettuce

***Perennis.** A charming low-growing plant suitable for the border or rock garden; light blue flowers freely produced. 14 inches high, in early summer 2.50 18.00

Lathyrus - Perennial or Everlasting Pea

Latifolius, Pink Beauty. Large racemes of pleasing deep rose flowers 1.50 10.00
Latifolius, Red. The well known red Everlasting Pea .. 1.50 10.00
Latifolius, White Pearl. A great improvement on the older white variety, the stems giving from 12 to 15 flowers each 1.50 10.00

Lavandula - Lavender

***Nana.** Is a very fine new dwarf English introduction. Good for edging and planting between roses 2.00 15.00
Vera. This is the true Sweet Lavender; grows about 18 inches high; delightfully fragrant blue flowers in July and August 1.75 12.00

Leontopodium - Edelweiss

****Alpinum.** A well known Alpine with pretty silvery white leaves; starlike heads clothed with a dense white, woolly substance. A splendid plant for the rock garden, 4 to 5 inches high, easily grown and always of great interest, as this is one of the most famous of rock garden plants from the European Alps..... 1.75 12.00

Lewisia**DECIDUOUS LEWISIAS**

Oppositifolia. Has spatulate leaves and a very pretty starry white flower. A few inches high. Plant in full sun 3.25 22.50
Rediviva. Small plant with large, satiny pink flowers of great beauty. Plant in full sun..... 3.25 22.50

EVERGREEN LEWISIAS

Columbiana. Has a rosette of short leaves and rosy flowers with dark lines down the midrib..... 3.25 22.50
Finch. One of the largest and finest of the group. The broad bright green leaves are 1½ inches wide by 3 inches or more long and make a close rosette flat on the ground. Four or five slender scapes, 8 to 12 inches high, each bear from 20 to 30 very handsome soft pink flowers margined with a broad white band. A good plant, in flower is a solid bouquet..... 3.50 25.00
Howellii. Beautifully crested leaves and pink flowers.. 3.25 22.50
Leana. Slender, pinelike leaves and many smaller magenta flowers. Many-headed clusters of blooms 3.25 22.50

Liatris - Blazing Star or Gay-feather

Pycnostachya. The popular name of this plant is Kansas Gay Feather. Nothing can be planted that will attract more attention; beautiful as well as odd. Blooms in mid-summer and throws up long, narrow spikes of rich purple flowers, 4 ft. high, which last a long time 1.50 10.00
Scariosa. Spikes about 3 feet high, of a good clear purple. Flowers before Pycnostachya and is the next most desirable 1.75 12.00
Spicata. Similar to Pycnostachya, somewhat earlier in bloom and not quite so tall 1.75 12.00

Linaria - Toad Flax

Alpina. Brilliant orange and purple flowers like miniature Snapdragons, abundantly produced on trailing plants with neat greyish green foliage. Invaluable for the rock and Alpine garden. Blooms in summer and autumn, hardy..... 1.75 12.00

****Cymbalaria** (Kenilworth Ivy or Mother of Thousands). Lavender and purple. A charming, neat, hardy perennial trailing plant, suitable for rock work and wall gardens 1.75 12.00

Lithospermum - Gromwell

Heavenly Blue. This lovely low growing sub-shrub or woody perennial should be in every sheltered rock garden. During July and August the spot in which it is planted will be transformed in the most gorgeous blue ever seen in the rockery. It is prostrate, giving much the same effect as a clump of Daphne. One of the choicest rock plants. Strong plants in pots..... 4.50 35.00

Linum - Flax

***Alpinum.** A rare species from the Dauphine, of prostrate growth with showers of pale blue blossoms throughout the summer \$1.75 \$12.00
***Flavum.** Fine variety with transparent, yellow blossoms 1.50 10.00
***Narbonnense.** Forms a spreading clump of attractive foliage with a profusion of azure-blue flowers with white eye. Very handsome for the rockery 1.75 12.00
***Perenne.** Very attractive, both in foliage and bloom. Flowers pale blue on slender, graceful stems..... 1.50 10.00
***Perenne alba.** White form of the above 1.50 10.00

Lobelia - Indian Paintbrush

Cardinalis (Cardinal Flower). Rich, fiery cardinal flowers, producing 4 to 6 spikes, 24 to 30 inches long ... 1.75 12.00
Syphilitica (Great Blue Lobelia). Similar in growth to Cardinalis, but the flowers are blue, streaked with white. Plant in a moist place. Desirable for border of brook or lake 1.50 10.00

Lupinus - Lupine

Wayside Gardens Sweet-Scented Hybrids. A wonderful new strain that may be classed among the most beautiful of all hardy flowers. Colors are both rich and delicate shades of blue, mauve, pink, etc., and the flowers are borne on long spikes that for size and beauty rival giant Snapdragons. The added novelty of being scented makes these one of the best garden plants we have ever distributed 1.75 12.00
Polyphyllus (Hardy Lupine). Clear blue spikes, 3 to 4 feet high, during June 1.75 12.00
Polyphyllus albus. A white variety of the above 1.75 12.00
Polyphyllus roseus. Flowers of beautifully shaded rose 1.75 12.00
Polyphyllus, Moerheimii. Pink 2.50 18.00
Polyphyllus, Tunc. Deep pink 2.50 18.00
Polyphyllus, May Princess. Deep violet-blue spikes ... 2.50 18.00

Lychnis - Campion or Catchfly

***Alpina.** Dwarf, rose-pink. A charming little plant for the rock garden, about 4 inches high 1.75 12.00
Chalcedonica. Heads of vivid scarlet flowers, blooming a long time. One of the brightest plants in the hardy border. 3 feet; all summer 1.50 10.00
Forresti Hybrids. A strain which embraces a very varied range of colors, including crimson, carmine, pink, white, etc. About 2 feet in height, and admirably suitable for border decoration. The plants are in full bloom in June, a period when the herbaceous border is almost bare..... 1.75 12.00
***Hingeana.** 1 foot. June to August. Very showy, producing orange-red, scarlet or crimson flowers nearly 2 inches across. Should be planted in light shade .. 1.75 12.00
***Viscaria flora pleno.** Double variety; fine for cutting .. 2.00 15.00
Viscaria splendens alba. Flowering profusely in June and July, it is one of the best white flowers at that time. 8 to 10 inches high; fine border plant 1.50 10.00
Viscaria splendens. Pink form of the above 1.50 10.00

Lysimachia - Yellow and White Loosestrife

Clethroides. Long, recurved spikes, 2 feet long, of pure white flowers, June to September. Desirable variety. 1.75 12.00
Nummularia (Creeping Jenny or Money-wort). Valuable for planting in wet places in shade or sun 1.50 10.00

Lythrum - Purple Loosestrife

Superbum roseum. Very showy rosy purple spikes about 2 or 3 feet high, produced in profusion all summer. Splendid for banks of streams and ponds 1.50 10.00

Matricaria - Double Mayweed; Feverfew

Little Gem. A most useful border plant and valuable summer cut flower, with large, double, white flowers. June until October. 18 to 24 inches 1.50 10.00
Golden Ball. Dwarf yellow form of above 1.50 10.00

Mazus

****Reptans** (Previously offered under the name of Rugosus, which was an error, as the true Rugosus is a tender annual). A dwarf and interesting Alpine plant, covered in early spring with dainty lilac flowers with a small white lip, borne just above the foliage 2.00 15.00

Mertensia - Virginia Cowslip; Blue Bells

Virginiana. An early spring-flowering plant, growing about 1 to 1½ feet high with blue flowers fading to pink; one of the most interesting of our native spring flowers \$1.25 \$ 8.00

Mimulus - Musk or Monkey-Flower

***Luteus.** A splendid plant for shady, moist places. Produces during the entire summer large snapdragon-like yellow flowers. Also does well in full sun. About 1 foot high; somewhat spreading habit 2.00 15.00

Mitchella - Partridgeberry

***Repens.** A little trailing evergreen. It forms fine mats under trees, and when once established is sure to please 2.50 18.00

Mitella - Bishop's Cap

***Diphylla.** A gem for the shady position. Feathery spikes of creamy white flowers, 12 to 18 inches, in May and June 1.50 10.00

Monarda - Bee-balm; Bergamot; Oswego Tea; Haremint

Didyma, Cambridge Scarlet. Brilliant crimson-scarlet flowers are produced freely from June until August. A good plant for wild garden as well as border or garden in the city where other flowers don't grow well \$1.50 \$10.00
Didyma rosea. A variety of the preceding, with rose-colored flowers 1.50 10.00
Didyma violacea superba. Deep amaranth-red flowers. 1.50 10.00

Myosotis - Forget-me-not

***Palustris semperflorens.** Large, rich blue flowers with yellow eye; a charming plant for damp places and a more profuse bloomer than the alpestris, which also is inclined to be biennial in habit..... 1.25 8.00

Nepeta - Ground Ivy; Catmint

***Mussini.** An excellent plant for any position but especially useful in the rock garden. Of dwarf, compact habit, producing masses of bloom of a beautiful shade of lavender all spring and intermittently during the summer; it is one of the most used rock plants or edging plants in Europe. A garden in which the paths are edged with Nepeta Mussini should be fairly large, as it is quite strong in growth; it may be clipped back at any time. Very lovely plant 1.75 12.00
Nervosa. Vivid light blue; a fine companion to the well known Mussini, the flowers of which are a deeper lavender and of a different shade. Lovely in the rockery 1.75 12.00
Souvenir Andre Chaudron. A very distinct, upright growing plant, 14 to 18 inches high. Silvery gray foliage and large dark blue flowers blooming constantly during June, July and August in the hottest and driest weather. Grow in the border in a dry, sunny place 4.00 30.00

Nierembergia - Trailing Cup-flower

***Rivularis.** A charming dwarf creeping Alpine plant, bearing large, creamy white cup-shaped flowers from June till September; most desirable plants for the rockery 1.75 12.00

Oenothera - Evening Primrose

***Fraseri.** Pale yellow flowers on 12-inch stems from June until October 1.50 10.00
Fruticosa major. A strong growing plant, forming a dense, bushlike specimen; flowers deep yellow, in profusion, on 24-inch stems from June until September 1.75 12.00
***Missouriensis.** A low species with prostrate, ascending branches; profuse bloomer. Solitary flowers, often 4 inches across. Good for rock garden or border; in bloom from June until August 1.75 12.00
***Speciosa.** Pure white flowers 3 inches across, in great quantities on 18-inch stems all summer 1.75 12.00
Youngi. Strong, stocky, large-leaved plant with firm, shiny foliage, numerous bright lemon-yellow flowers on stems about 24 inches tall from June to August .. 1.50 10.00

Orchis - Hardy Orchids

	Doz.	100
* Spectabilis (Showy Orchid). This lovely hardy orchid produces a raceme of delicate lavender and deliciously fragrant flowers, 6 to 8 inches high in May. Plant in shade and water copiously when dry	\$2.50	\$18.00

Papaver Orientale - Oriental Poppy

Orientale, Fairy . A lovely delicate Poppy, not very large, with pure pale pink blooms of medium size, an excellent variety for small beds	2.50	18.00
Orientale, Lula A. Neeley . Good strong stems support flowers of brilliant ox-blood red, the color holding until the last. This variety is becoming a most popular Poppy in America	3.00	20.00
Orientale (Oriental Poppy). Tremendous cup-shaped blooms of brightest crimson-scarlet, with large, purplish black blotches at base of petals, creating a wonderful contrast when bloom is fully open. Clumps of these throughout the border add a brilliancy that no other flower can provide	1.50	10.00
Orientale, Beauty of Livermore . The finest dark crimson with black blotch; fine flowers freely produced	2.00	15.00
Orientale, May Sadler . Salmon-pink with black markings. We believe it one of the finest of the pink sorts because of its large flowers and robust growth	2.50	18.00
Orientale, Mrs. Perry . Orange-apricot, and a very fine variety, the best of all the "Pink Poppies"	1.75	12.00
Orientale, Olympia . The flowers, when fully developed, are about 4 inches in diameter; when first opening full double, but show a bunch of stamens as they mature. It is a brilliant rich flame-scarlet overlaid with glistening golden salmon	3.00	20.00
Orientale, Perry's White . The flowers are a fine satiny white with a crimson-maroon blotch at the base of each petal	2.50	18.00
Orientale, Wurttembergia . A striking flower of great size and substance. Brilliant glowing rose-red in color.	3.00	20.00

Papaver Nudicaule - Iceland Poppy

* Baker's Sunbeam Mixture . These plants are of neat habit, forming a tuft of bright green, fernlike, from which spring throughout the entire season, a profusion of slender, leafless stems, 1 foot high, each graced with charming cup-shaped, yellow, orange, white or pink flowers	1.50	10.00
** Papaver alpinum . Like a small and more delicate Iceland Poppy having flowers of white, pink, orange or yellow, and often delicately fringed. Not over 4 inches high	1.75	12.00
* Papaver Tibetica . Very attractive Alpine with showy orange flowers produced in great quantities; the whole plant not unlike a dwarf orange Papaver nudicaule, but giving twice as many flowers and more readily transplanted; excellent for the rock garden ..	1.75	12.00

Pachysandra - Japanese Spurge

	100	1000
Terminalis . Trailing plants 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover, which will grow in all shady situations. Some of its main uses are: under all evergreen plantings, under all shrub plantings, for areaway copings, for shrub plantings, for bordering walks and drives, for steep terraces in sun or shade, under any kind of trees.		
2-yr.-old plants in 3-inch pots	\$7.50	\$65.00
3-yr.-old plants in 3-inch pots	9.00	80.00
Field grown plants, 1 year old	5.50	45.00
Field grown plants, 2 year old	7.50	65.00

Paeonia Sinensis - Peonies

	Doz.	100
Albert Crousse , 8.6. Very fresh salmon-pink, delicate color. Large, compact bomb shape; fragrant; erect; medium height. Late	\$3.00	\$20.00
Baroness Schroeder , 9.0. Rose type; late. White with shadings of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant.	4.00	30.00

PEONIES—Continued.

	Doz.	100
Chestine Gowdy , 8.4. Late midseason. Crown type. The broad outer petals are silvery pink. These enclose a zone of fine, irregularly shaped petals of deep rich cream, which in turn surround a prominent cone of broad pink petals, splashed and tipped with crimson. Very fragrant.	\$2.50	\$18.00
Couronne d'Or , 8.1. White with yellow tints arising from a few stamens showing amidst the petals. Center petals tipped with carmine. Large, rather full flower of superb form. Strong grower and very free bloomer. Good keeper. Late	2.50	18.00
Duchesse de Nemours , 8.1. Guard petals white, center lemon-yellow, cup-shaped; at first it develops into a large bloom, gradually fading to white; fragrant; strong grower and free bloomer. Extra good commercial variety. Follows 2 or 3 days later than Festiva Maxima	2.50	18.00
Edulis Superba , 7.6. Dark pink, even color; large, loose, flat crown when fully open. Very fragrant; upright growth; early bloomer. One of the best commercial Peonies. There is much confusion over this variety, being sold under twenty or more different names ..	2.50	18.00
Eugenie Verdier , 8.6. Late. Very large, compact blooms of pale hydrangea-pink, with outer guard petals lilac-white; fragrant; extra strong stems	2.50	18.00
Felix Crousse , 8.4. Very brilliant red. Medium to large, globular, typical bomb shape; fragrant; strong growth. Stems rather weak. Midseason	2.50	18.00
Festiva Maxima , 9.3. Paper white, crimson markings in center. Large, full rose type; tall, strong growth. Early	2.50	18.00
Frances Willard . Tall, strong grower, produces creamy white flowers of large size, yet delicate texture. Late midseason. We consider this one of the best varieties.	4.00	30.00
Judge Berry , 8.6. Early. Very large, flat bloom of delicate flesh-pink; petals narrow, long and fringed, with some stamens intermingled; fragrant. Very profuse bloomer	4.00	30.00
Karl Rosenfeld , 8.8. Very large flower; globular, semi-rose type. Extremely vigorous grower, tall, and free-flowering. As an early red it has no equal	2.50	18.00
La France , 9.0. Enormous, rather flat flowers on strong stems. Soft pink, with lavender lights at base of petals. Late. A very fine variety	6.00	50.00
Le Cygne , 9.9. Very large, perfectly formed flower, freely produced; cream-white with a touch of green at the heart. The finest white. Received the highest rating of any Peony	10.00	85.00
Madame Dneel , 7.9. Large, globular, typical bomb. Light mauve-rose, with silvery reflex. Fragrant. Strong grower, medium height, very free. Extra	2.50	18.00
Madame Emile Lemoine . Large, full blooms of soft flesh-white. Petals have a rather translucent effect, tall, strong stems. Midseason	2.50	18.00
Marguerite Gerard , 8.4. Very pale salmon-pink, fading to almost white. Large, compact, rose type; very strong growth. Late	2.50	18.00
Martha Bulloch . Mammoth cup-shaped blossoms often 9 to 12 inches across. The largest of the good Peonies. Deep rose-pink in the center, shading to silvery shell-pink in the outer petals. Stalks strong and erect ...	6.00	50.00
Mme. Emile Galle , 8.5. Very soft pink changing to milk-white in center. Very large, compact, flat rose type; tall, strong, fragrant. Late	2.50	18.00
Modele de Perfection . Rose type; late. Enormous, perfectly compact, double flower of pronounced pyramidal shape; very distinct in this respect and was well named Model of Perfection; guard and collar light violet-rose with shades of flesh-pink, marbled and veined with bright rose, silver tipped, deepening in the center; profuse bloomer	2.50	18.00
Mons. Jules Elie , 9.2. The peerless pure pink. Broad reflexing guards with a high pyramidal body of semi-quilled petals converging to an apex. One of the largest, handsomest and most lasting cutting sorts in existence	3.00	20.00
Mons. Martin Calhazac , 8.8. Medium size, globular, semi-rose type. Dark purple-garnet with black reflex. The darkest Peony known. Strong, vigorous grower, free bloomer, mid-season	8.00	60.00

PEONIES—Continued.

	Doz.	100
Officinalis Rubra fl. pl. Rich deep crimson; the great Decoration Day Peony	\$3.50	\$25.00
Raoul Dessert . Large blooms with broad petals of shell-pink with deeper gleams. Distinct and fresh coloring. Late midseason	10.00	80.00
Rubra Superba , 7.2. Deep carmine-crimson. Large, fragrant, rose type; medium height. Very late	2.50	18.00
Ruth Brand , 7.9. This variety is one of the good early pinks. The flower is very large, bomb type. The guard petals are prominent and enclose a grand ball of compact center petals. The color is uniform soft lavender-pink splashed with a deeper lavender. This is a splendid variety to cut. It has a delicate and pleasing fragrance	2.50	18.00
Richard Carvel . One of the best early reds which we have. Large, bomb-shaped blooms of the same style as Felix Crousse but better in color	4.00	30.00
Solange , 9.7. Flower very large, compact; rose type; outer petals delicate waxy white, deepening toward the center with shades of orange and golden brown. One of the most beautiful Peonies in existence; a strong grower and a late, free bloomer.	4.50	35.00
Therese , 9.8. A most desirable variety of a charming shade of violet-rose, changing to lilac-white. Develops a high crown; strong grower and very free bloomer. A splendid addition to the midseason sorts of which it is one of the best	4.50	35.00
Venus , 8.3. Exquisite, pointed buds, opening into large, compact flowers of delicate shell-pink with a collar of flesh-white. Extra good both as a garden flower and as a cut flower. One of the best in our collection. Midseason	2.50	18.00
Walter Faxon , 9.3. Semi-rose type; midseason. A very distinct, delicate rose colored flower. Tall, free bloomer. Those who know this variety consider it one of the best pinks. Scarce.	4.00	30.00

Single Japanese Peonies

	Doz.
Dai-o-Kuhan . A wonderful Japanese Peony of good habit and growth and a lovely thing in the garden	\$4.00
Emma . Lilac dark pink. Two rows of perfectly shaped, round petals. Very large flower	5.50
Eva . Bright, light lilac-crimson. Very lively shade. Large round petals. Free bloomer. Short stem. Unsurpassed for landscape	4.50
Francoise . Bright rose. Two rows of petals. Center composed of petaloids which when the flower opens, are of a yellowish white shade, edged yellow. While the flower develops, the petaloids take on the same shade as the guard petals. An excellent variety	4.50
Jacqueline . Glittering pure white. A most lovely and desirable variety	4.50
Kasane-Jishi . Very light pink when opening, then changing to pure white. Petaloids are white with a yellow edge. One row of petals	4.00
Oitatsu . Opens very light pink and changes to pure white. Two rows of petals of which the inner row is somewhat shorter than the outside row. The petaloids are yellowish white with little pink tips	4.00
Rulregno . Clear red. Two rows of petals. Golden petaloids. A variety of great substance and very beautiful.	4.00
Yeso . Pure white. Two rows of petals which stand out straight. The petaloids lie straight, are narrow at the base and become wider towards the end. The tips of these are tinted salmon. Very unusual	5.00

Single Chinese Peonies

Camille . Clear violet-red, a lovely kind	5.00
Clairette . Pure white, very large and strong, giving many blooms	8.00
La Fraicheur . Rosy white. Splendid for cutting and garden use	5.00
L'Etoileante . Bright, light red. Flower of wonderful keeping qualities	5.00
Lucienne . Pure white with purple reflex. Most striking garden sort	5.00
Nagasaki . Light pink, dark foliage and robust growth. Excellent in the border	5.00
Nymphie . Bright, flesh-pink. Large flowers. Golden stamens. A very fine variety	4.00
Shi-Pen-Kue . Round petals, with thick golden petaloids. This is the nearest to blue in Peonies.	6.50
Taikon . Blood-red. Most striking against a dark background.	5.00

Chinese Tree Peonies

Banksi, Semi-double; pale lilac-rose. A very free flowering variety and easily grown. Each, \$4.00. 8-year-old specimens, each, \$13.00.
Moutan, The wild Tree Peony of Tibet. Large, red-purple flowers of tremendous size with golden center, borne in great profusion. Each, \$1.50. 18- to 24-inch specimens, \$6.00 each.
Mixed Tree Peonies, including all sorts and types. No warranty as to color or type. Each, \$1.50.

Pardanthus - Belamcanda; Blackberry Lily

	Doz.	100
Chinensis , Flowers orange colored, spotted black, on 24-inch stems. A lovely old-fashioned flower for the hardy border	\$1.75	\$12.00

Pentstemon - Beard Tongue

	Doz.	100
Barbatus Torreyi , Spikes 2 feet long of bright scarlet flowers from June till August. A very effective plant for the border	1.50	10.00
Barbatus, Pink Beauty , Color is a lovely clean shell-pink. A charming cut flower; one of the outstanding new and good plants; makes a delightful companion to Gypsophila	2.50	18.00
Diffusus alba , Long flowers of pure white on spikes about 2 feet long. Fine border variety	2.50	18.00
*Digitalis , White Foxglove-like spikes produced in great quantities all summer. Plant is about 20 inches high, excellently suited for the garden as well as naturalizing in the grass. It self seeds very freely	1.75	12.00
*Frutescens , Lilac-purple flowers with pink base about 1 foot high. A beautiful rock or border variety	2.50	18.00
Heterophyllus , Lovely metallic-blue flowers from June until September, on 3-foot spike. Excellent for the sunny border; good cut flowers	2.50	18.00
Oratus , A strong growing variety from the Rocky Mountains. Rich purplish blue flowers on stems over 3 feet tall. Good cut flowers and excellent in the sunny border	1.75	12.00
*Procerus , A very reliable and satisfactory garden sort. Flowers are rich blue-purple; early summer	1.75	12.00
Pubescens (Hirsutus), Stems 24 inches high, covered with violet flowers shading to a flesh-pink; excellent for hot dry place in the border; is also a very fine wall or rock plant. It enjoys hot, dry exposures	2.00	15.00
Roezli , Excellent variety for late bloom in the rock garden. About 14 inches high with bluish purple spiky blooms in August. Likes a dry, sunny location	3.25	22.50
Unilateralis , A very fine June-flowering variety producing 6 to 10 erect spikes, 24 to 30 inches long, covered from top to bottom with opalescent blue flowers. A beautiful border plant and splendid cut flower, lasting for several days in water	1.75	12.00

Perovskia - Russian Sage

Atriplicifolia , Produces whorls of blue flowers very late in the season. A lovely plant for the hardy border	3.50	25.00
--	------	-------

Phlox Subulata (Setacea) - Moss or Mountain Pinks

	Doz.	100
*Alba , Pure white flowers completely covering the neat compact plant in May; a lovely thing for the rock garden	\$1.50	\$10.00
Atropurpurea , The same habit of growth as the well known Phlox subulata rosea. The flowers of this variety are a deep carmine-red making a most brilliant display	1.50	10.00
*Fairy , Pale blue with dark purple eye; a beautiful little rock plant. Same habit as Vivid. Slow growing, neat in habit, with compact foliage, not spreading like Lilacina	2.00	15.00
*Lilacina , A strong growing, creeping variety suitable for bold masses in the rockery; completely covered with pale blue flowers in May; the foliage is lovely in winter	1.50	10.00
*Rosea , Rose-pink. Fine for covering banks; thrives in hot, dry situations, and blooms profusely	1.50	10.00
*Vivid , Bright pink with dark pink eye. We would say that this is the choicest and loveliest dwarf Phlox in existence	2.50	18.00

Various Phlox Species

*Amoena , This is one of the best varieties for carpeting the ground, the rockery or the border. It grows but 4 inches high, and in the spring is a sheet of rich bright pink flowers	1.50	10.00
--	------	-------

PHLOX SPECIES—Continued.

	Doz.	100
*Arendsii , Louise, Phlox Arendsi are a result from crossing Phlox Divaricata and Phlox Paniculata. The most remarkable result is that they flower from early spring until late in the autumn. There are several varieties all more or less alike. Louise, offered here, is a bright lilac with lilac-carmine eye. About 20 inches high, suited for front of the border in light shade or sun	\$3.75	\$27.50
*Divaricata canadensis , One of our native species, which is worthy of extensive planting, commencing to bloom early in April, and continuing through May, with large, fragrant, lavender flowers on stems 10 inches high. In spring this plant is sold in pots to insure best results; in fall field-grown plants are best to use	1.75	12.00
*Ovata (Carolina), Bright rosy red flowers in great quantities on 12-inch stems during June and July; good for the rockery	1.75	12.00

Phlox Decussata - Hardy Phlox

	Doz.	100
Africa , Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Good strong stem and not subject to mildew if properly taken care of. One of the best new dark red varieties grown	1.75	12.00
Antonin Mercier , A delicate lilac-blue; free-flowering variety of medium height, and fairly free from red spider	1.75	12.00
B. Conte , Tall growing variety producing large heads of rich satiny amaranth flowers. Very brilliant	1.50	10.00
Beacon , Brilliant cherry-red. Grows 36 inches high. The flower heads are carried on straight, strong stems. An excellent variety and one of the best of this color	1.50	10.00
Caroline Vandenburg , This Phlox is the most attractive of the lavender shades; it is a true lavender-blue without the magenta shades peculiar to this section. Large individual flowers	1.75	12.00
Commander (Von Hindenburg), The color is a brilliant deep crimson-red with slightly darker eye. Grows about 24 to 30 inches high and produces a great many spikes, creating a wonderful display of color	1.75	12.00
Count Zeppelin (Graf Zeppelin), Pure white flowers with vermilion-red eye. A striking, clean looking Phlox. There is no fading or suffusing of color. Considered the best of the so-called calico types. Very free-flowering	1.50	10.00
Elizabeth Campbell , Light salmon-pink with lighter shadings toward the center of flower. Decidedly the finest Phlox of this color, but unfortunately, a weak variety and slow grower	2.00	15.00
Enchantress , Bright salmon-pink with dark eye, resembling Elizabeth Campbell in color, but of much stronger growth and rich green, glossy foliage	1.75	12.00
Ethel Pritchard , A delightfully French-mauve colored Phlox, which if seen on a cloudy day, looks almost as pale blue as our native Phlox Divaricata	2.00	15.00
Europa , White changing to a pale bluish-white toward center with a red eye. This variety is similar to Count Zeppelin but has a light pinkish cast to it. Produces large heads freely and is a good, strong grower	1.50	10.00
Evelyn , A new variety of excellent habit. Flower heads are full and large. Color is a rich salmon-rose; about 3 feet high	1.75	12.00
Fuerbrand (Fireglow), Brilliant orange-scarlet. Sometimes almost vermilion. Flowers very freely and blooms are produced in quantity throughout the entire season. Of medium height, and one of the most brilliant Phlox known	1.75	12.00
Lord Raleigh , Dark mauve with decidedly purplish tint. A very unusual variety. Free flowering and rather tall. Excellent with yellow and white	1.50	10.00
Maid Marion , Good lilac flower heads. Not a new variety but an excellent kind that will be with us a long time. The color and habit are very similar to that of Antonin Mercier	1.75	12.00
Mia Ruys , Rather dwarf in habit, but produces enormous and much branched trusses of the purest white flowers possible. The habit is very free, with splendid dark green foliage	1.75	12.00
Miss Lingard , The distinguishing marks are that it flowers a month earlier than the Decussata sorts. Has beautiful, long, shiny green foliage, and is absolutely free from any disease. It flowers from early July until October with large heads of white flowers with faint pink shadings in center	1.50	10.00

PHLOX DECUSSATA—Continued.

	Doz.	100
Mrs. Jenkins (Independence), Pure white, late flowering, grows very fast and is of medium height. A splendid sort for planting in masses. Few varieties equal its free-flowering habit	\$1.50	\$10.00
Mrs. Milly Van Hoboken , An excellent new variety. Very large florets combined in rather loose, large heads. Color bright pink with a slight and delicate mauve suffusion. Strong grower and free-flowering. The general color effect, at a distance, is a fine bright pink	1.75	12.00
Mrs. Scholten , New. Dark salmon-pink flowers in enormous pyramidal spikes. A splendid sort of great value. Midseason flowering and of medium height	1.75	12.00
Mrs. W. Van Beuningen , Medium height but robust in growth, with healthy appearing foliage. Large, rich salmon-red flowers—a bright, effective self color without eye. Very free and persistent in flowering. Compact growth	1.75	12.00
R. P. Struthers , Bright rosy carmine with claret-red eye. Tall and strong grower	1.50	10.00
Rheinlander , A splendid old-time variety of good growing quality, and excellent habit. Flower heads are large and on good strong stems. The color is a beautiful salmon-pink	1.50	10.00
Rijnstroom , A good strong grower producing an abundance of stems, each one topped with heavy trusses of flowers of a lively rose-pink, much like the color of the Paul Neyron rose	1.50	10.00
Thor , Not a new sort but becoming more and more popular because of its splendid free-flowering qualities. Color a beautiful shade of deep salmon-pink, overlaid with a scarlet glow; small aniline red eye	1.75	12.00
Von Lassburg , A splendid midseason, tall, white variety. Trusses large and stems good, very free flowering. Rather tall, fine for the back of the border	1.50	10.00

Phygellus - Cape Figwort

*Capensis (Cape Fuchsia), This is a hardy Fuchsia. It endures hot, dry weather well. The plants are perfectly hardy as far north as Philadelphia, but require protection further north where they will act much the same as Buddleia, producing new shoots each summer which bear purple flowers all summer until frost. A splendid plant for the south or hot, dry states	3.25	22.50
---	------	-------

Physalis - Winter-Cherry or Chinese Lanterns

Francheti , An ornamental variety of the Winter Cherry, forming dense bushes about 2 feet high, producing freely its bright orange-scarlet, lantern-like fruits, which, when cut, will last all winter	1.50	10.00
---	------	-------

Physostegia - False Dragonhead

Virginica , Forms large clumps 3 to 4 feet high, bearing long spikes of delicate pink flowers in July and August	1.50	10.00
Virginica alba , Pure white	1.50	10.00
Virginica, Vivid , This is a new dwarf variety about 20 inches high, and a great improvement over the first two mentioned. It blooms 3 weeks later than the others, the flowers are a deeper pink; much larger and better, lasting a long time when cut	1.50	10.00

PINKS (Hardy Garden, see Dianthus).

Platycodon - Chinese Bellflower

Grandiflora , Large, showy, deep blue flowers on 20-inch spikes are produced all summer. A splendid plant for the hardy border	1.50	10.00
Grandiflora alba , White-flowered form of the above	1.50	10.00
*Mariesi , A beautiful dwarf species, with broad, thick foliage and large, deep violet-blue flowers on 12-inch stems in great profusion throughout the entire summer. Plant in front of the border or in the rock garden	1.75	12.00
*Mariesi alba , White-flowered form of the above	1.75	12.00

Plumbago - Leadwort

*Larpenae , One of the most desirable border and rock plants. It is of dwarf, spreading habit, growing 6 to 8 inches high, covered with deep blue flowers during late summer and fall	1.75	12.00
--	------	-------

Polemonium - Jacob's Ladder or Greek Valerian

	Doz.	100
Richardsoni album. A white variety of coeruleum \$1.75	12.00	
Richardsoni coeruleum. Erect stems of sky-blue flowers, 1 to 1½ feet, in June and July. A very fine plant in the sunny border 1.75	12.00	
*Reptans. Dwarf, bushy plant of graceful growth. Showy blue flowers, 6 inches high in early spring. Should be used in the rock garden and border, in shady places; foliage good all summer 1.75	12.00	

Polygonatum - Solomon's Seal

Multiflorum major. Pendent sprays of white flowers borne on long, 2-foot stems in May, followed in autumn with black or purple berries. A grand plant for a shady position, where it has plenty of room to show its pendulous sprays of bells 1.75	12.00	
---	-------	--

Potentilla - Cinquefoil

*Nepalensis. Miss Willmott. This is the improved salmon-pink "formosa." Very free flowering. A good border plant for midsummer bloom 2.00	15.00	
*Mixed Colors of Double Varieties. This mixture contains various shades of orange and coppery red; they are especially suited for in front of sunny borders or for bold masses in the rock wall or rock garden ... 1.75	12.00	
Warrensi. A lovely new plant for the sunny hardy border, offered for the first time. Reaches a height of about 2 feet and is covered with large, pure yellow blossoms all summer long. Suitable for cutting 2.00	15.00	

Primula - Primrose

*Auricula Alpina, Giant Hybrids. One of the treasures of the rock garden. The growth is very attractive, forming rosettes of thick leaves, sometimes farinose or mealy. The flower stalks rise to a height of 6 or 8 inches, bearing heads of bloom of various colors; exceedingly fragrant 2.00	15.00	
*Bulleyana. A splendid variety for a boggy place, growing about 18 inches high. The strong, stiff stems have about 4 to 8 tiers of rich apricot flowers in June. A very valuable sort 3.25	22.50	
*Cashmeriana. Large globular heads of a pleasing purplish blue shade, prefers a moist, shaded or sunny situation 3.25	22.50	
*Cashmeriana alba. A white-flowered form of the above. Very rare but as easily grown as the purple variety.. 4.00	30.00	
*Cortusoides. A distinct Siberian species, with soft, wrinkled, heart-shaped leaves. Flowers in early summer, deep rose; prefers light, rich, well drained soil in a sunny position, in border or rockery; 10 inches high 1.75	12.00	
Japonica. A lovely primrose, producing long spikes of bloom from crimson to rose to almost white. The flowers are in whorls. A mass of these in the bog garden or near the pool or stream is a sight to be remembered 3.25	22.50	
*Moerhelm Hybrids. A new strain of Hardy Primulas with the constitution of P. japonica, resulting from crossing of several. The lovely pastel colors range from cream to many shades of yellow, orange, purple, lilac, pink and crimson. They are very hardy and prefer a half-shaded position that is fairly moist; very unusual 3.25	22.50	
*Pulverulenta. Rich crimson flowers in whorls, on stems 3 feet high. One of the finest varieties 3.25	22.50	
*Vulgaris. The true old English Primrose with pale yellow flowers 3.25	22.50	

Polyanthus - Bunch Primrose

*Munstead, Exhibition Yellow. A beautiful strain of large-flowered, yellow shaded, bunch Primrose; most desired by those who love the Primrose 3.25	22.50	
*Munstead, Exhibition Cream. Very fine, large-flowered, cream-white shaded bunches of bloom, with striking yellow eye 3.25	22.50	
*Munstead's Red Giant. Rich mahogany-red flowers often gold laced, in great masses. Lovely as edging to beds or garden paths in shade or contrast color with the yellow primroses 3.25	22.50	

POLYANTHUS—Continued.

	Doz.	100
*Munstead Strain Mixed. In all shades of yellow, cream, dark orange, some pink and dark rose \$3.00	\$20.00	
*Veris Hybrids. This strain includes various shades of lilac-purple and violet, as well as a wide range of buff, orange, salmon and rich reds of vigorous growth 1.75	12.00	

Prunella - Self-heal; Heal-all

*Grandiflora. Violet or purple flowers all summer. Fine for the rockery or slightly shaded parts of the hardy border. Succeeds in any soil not excessively dry 1.75	12.00	
---	-------	--

Pulmonaria - Lungwort

*Saccharata maculata. A lovely early spring flower not unlike Mertensia, with pink flowers and when through blooming the plant has beautiful silvery spotted foliage. 12 to 14 inches high 3.25	22.50	
--	-------	--

Pyrethrum - Painted Daisy

Buckey. Double red and when well established, a marvelous plant completely covered with blooms. 3.00	20.00	
Finest Mixed English Varieties. This mixture contains double- and single-flowering sorts in many shades of pink, rose and white. Strong, 2-year clumps that will give immediate results 1.25	8.00	
Trojan. A very lovely free flowering semi-double dark pink variety. Tall stems and a good cut flower. 3.00	20.00	
Miami Queen. Semi-double pink flowers of a lighter shade than Trojan, equally good for cutting or the hardy border 3.00	20.00	
Uliginosum. See Chrysanthemum, page 4.		

Ranunculus - Buttercups

Acris flore pleno. A double yellow, upright growing Buttercup-like plant. Good for border in wet places; good cut flower 1.50	10.00	
Repens fl. pl. A pretty, double-flowering bright golden yellow Buttercup of creeping habit; flowers in May and June 1.50	10.00	

Rudbeckia - Coneflower

Golden Glow. A popular hardy plant, grows 6 feet high, producing masses of large, double, golden yellow flowers shaped like a Dahlia, in late summer 1.50	10.00	
Maxima. A rare and attractive variety, growing 5 feet high, with large, glaucous green leaves and bright yellow flowers 5 to 6 inches across, with a cone 2 inches high; flowers continuously from June to September 1.75	12.00	
Newmanii. The perennial form of the "Black-Eyed Susan." Deep orange-yellow flowers with a dark purple cone; long, wiry stems 3 feet high; blooms all summer 1.50	10.00	
Purpurea (Giant Purple Coneflower). Most attractive purple flowers, with a very large, brown, cone-shaped center. Blooms from July to October. 3 feet high. A splendid plant for the border 1.50	10.00	

Salvia - Meadow Sage or Clary

Azurea. A Rocky Mountain species. Grows 3 to 4 feet high, producing, during August and September, pretty sky-blue flowers in the greatest profusion 1.50	10.00	
Farinacea. Beautiful pale blue flowers all summer on neat plants about 2 feet high; splendid for the border 1.50	10.00	
Fitcheri. Similar to Azurea, but of more branching habit; large flowers of a rich gentian-blue color, and one of the most admired plants by the many visitors to our nurseries during the early autumn. 3 to 4 feet 1.75	12.00	
Pratensis. Lilac-blue flowers from June to September; grows about 2 feet high. Good border plant 1.50	10.00	
Turkestanica. Extremely decorative sweet scented, silvery foliage and showy whorls of white flowers surrounded by pale pink, all summer 2.00	15.00	
Virgata nemorosa alba. Distinct and effective foliage with showy whorls of white flowers 1.50	10.00	

Saxifraga - Rock-foil; Megasea

	Doz.	100
**Caespitosa. A robust grower about 2 to 6 inches high with dense foliage. Small white flowers from June to August. Loves a rich, well drained but moist soil and very light shade \$3.25	\$22.50	
**Decipiens (Crimson Moss). Dwarf mossy plants bearing white flowers in May and June. The green foliage turns bronzy crimson in winter, 4 inches high. Splendid rock plant; prefers light shade 2.50	18.00	
**McNabiana. This is a splendid sort for wall garden or in crevices in the rock garden. Foliage is grey-green in form of a rosette and quite stiff; from the center comes a flower spike about 12 inches long covered with small, white blossoms speckled with pink 2.50	18.00	
*Megasea cordifolia. These will thrive in ordinary soil in any position. Grow about 1 foot high, and are admirable for the front of the border or shrubbery, forming masses of handsome, broad, deep green foliage, which alone renders them useful; flowers appear very early in the spring 2.00	15.00	
*Megasea crassifolia. 12 to 15 inches, April to June. Showy and spreading. Drooping masses of pink flowers high above the large, clustered leaves. A fine rock plant 2.00	15.00	
*Megasea Hybrids. Handsome plants in fine mixture of all shades of rose or pink. Excellent foliage. Good for the rock garden or border. Does well in shade or sun 1.75	12.00	

Sanguinaria - Bloodroot

*Canadensis (Bloodroot). Native. A low perennial, about 6 inches high, with pure white flowers an inch in diameter, in early spring. The large, leathery leaves appear later. Plant in shady places in the rock garden or open woods 1.50	10.00	
--	-------	--

Santolina - Lavender Cotton; Ground Cypress

	Doz.	100
*Chamaecyparissus (Incana). A sweet-smelling, dwarf, everbearing perennial, with delicate, silver-white foliage, useful as rock or border plants, also largely used for edgings to flower beds or walks. 1 foot \$1.75	\$12.00	

Saponaria - Soapwort

*Ocymoides splendens. Pretty prostrate border and rockery plant; flowers rosy pink, produced in great quantities just above the foliage in late May and early June 1.50	10.00	
*Ocymoides alba. A pure white form of the above 1.50	10.00	

Scabiosa - Scabious or Pin-cushion Flower

Caucasica (Blue Bonnet). Their lovely flowers are a soft and charming shade of lavender; commences to bloom in June, throwing stems 18 to 24 inches high until September 1.75	12.00	
Caucasica alba (White Bonnet). The white form of the preceding 2.00	15.00	
Japonica. Lavender-blue flowers from July to September. 2 feet. This is a biennial, but very valuable for its great quantity of blue flowers produced throughout the summer 1.75	12.00	
Pennsylvanica (Cephalaria tatarica). Large golden yellow flowers, similar to the true Scabiosa in form, but 5 feet tall; excellent plant for back in the border or in front of the shrubs 1.75	12.00	

Scutellaria - Skullcap

*Balcensis coelestina. Short, wiry stems, 1 foot high, clothed with clear blue Snapdragon-shaped flowers during July and August; a very good plant for the rockery or in front of the border 2.00	15.00	
--	-------	--

Sedum - Stonecrop**DWARF VARIETIES**

*Acre (Golden Moss). Much used for covering graves; foliage green; flowers bright yellow; prostrate and slowly spreading 1.50	10.00	
*Aizoon. Bright yellow flowers. 1 foot. July and August. 1.50	10.00	

SEDUM—Continued.

	Doz.	100
* Album . Dwarf and spreading; thick, waxy round foliage, white flowers; good rock plant \$1.50		\$10.00
* Eversi . A very nice variety of sub-trailing habit. Foliage is glaucous gray. In October the plant is covered with rose-colored flowers 1.75		12.00
* Glaucum . Excellent dwarf variety for rockeries or border edgings; prostrate and of slow growth 1.75		12.00
* Kamtschaticum . Orange-yellow flower, with prostrate, green foliage, turning golden in autumn 1.50		10.00
* Kamtschaticum Variegated . One of the best, because of its handsome dull golden variegated foliage which blends marvelously with the orange-yellow flowers, which are profusely produced in midsummer. Good strong grower but not rampant 1.75		12.00
* Lydium . Very fine rock plant; blue-green foliage and of prostrate habit 1.50		10.00
Rupestre . Pretty glaucous, bluish green leaves of trailing yellow flowers; 3 inches high 1.50		10.00
* Sarmentosum . Excellent dwarf variety for rockeries or border edgings. The best Sedum for filling seams between rocks in wall garden; rapid grower 1.50		10.00
* Sexangulare . Very dwarf green foliage; yellow flowers; habit much like Acre 1.75		12.00
* Sieboldi . Round, succulent, glaucous foliage; bright pink flowers in September. The loveliest of all Sedums 1.75		12.00
* Spurium coccineum . A beautiful rosy crimson-flowered form; July and August, 6 inches. Very fast spreading variety; good for covering sandy banks 1.50		10.00
* Stoloniferum . Most desirable; evergreen leaves; flowers purplish pink. July and August. Excellent for rock garden, 6 inches 1.50		10.00
* Ternatum . The most satisfactory variety for planting in the shade; for ground carpeting under trees or anywhere it is difficult to make plants grow. Spreads rapidly and does well on all sorts of soil 1.50		10.00

ERECT-GROWING VARIETIES

Spectabile . One of the prettiest erect-growing species, 18 inches high, with broad, light green foliage and immense heads of handsome, rose-colored flowers; indispensable as a late fall-blooming plant 1.75		12.00
Spectabile "Brilliant" . A richly colored form of the preceding, being a bright amaranth-red 1.75		12.00
Spathulatum purpureum . Reddish leaves with gray in center of the rosette. Dark yellow flowers, contrasting beautifully with the foliage 2.00		15.00

Sempervivum - House Leek

Arachnoideum fimbriatum . A fine cobweb rosette from which radiate ten or more runners about one inch long at the end of which appear the young plants, giving a lovely star-like effect 1.75		12.00
Arachnoideum Laggeri . Similar in growth to minus except that the rosettes are twice as large and produced in greater abundance. A fine cobweb variety 1.75		12.00
* Arachnoideum minus (Small Cobweb House Leek). Tips of leaves in rosettes usually connected by silvery threads, from whence its common name; flowers bright red, in few-flowered panicles, 4 inches 2.00		15.00
* Atroviolaceum . The largest of the entire collection. Forms a beautiful rosette, almost 4 inches in diameter when fully grown, of deep reddish purple leaves. Should be in every rockery, 8 inches 3.50		25.00
* Brauni . A very attractive rosette-like plant. Color of leaves is bronze, almost a dull red at tip of leaves. At the base a dull green, 6 inches 1.50		10.00
* Doellianum . Small, hairy rosettes of pale green leaves, tinted red at the tips. The panicles of bright red flowers are 4 to 6 inches high. Effective when grown in large masses 1.50		10.00
* Fauconette . Very similar to Brauni. The general make-up of the plant, however, is a little finer and more delicate, 6 inches 1.75		12.00
* Funckii . Green tipped brownish rosettes produced rapidly in great numbers. A very fine sort to use where a brownish color is desired, 6 inches 1.50		10.00
* Globliferum . Flattened rosettes, 2 to 3 inches in diameter, of grey-green leaves, lightly tipped brown. Pale yellow flowers, three-fourths to one inch in diameter, in densely hairy panicles 1 foot high 1.50		10.00
* Tectorum . Broad rosettes, the leaves having reddish brown tips; flowers pale red, 1 foot. This is the common House Leek of our grandmothers' gardens 1.50		10.00

All Sempervivums quoted are clumps for immediate effect.

Senecio - Ragwort; Groundsel

	Doz.	100
Clivorum . Forms a neat tuft of foliage, from which spring up from July to October a succession of 3-foot stems, with clusters of orange-yellow flowers. One of the few plants that flower profusely in shade \$1.50		\$10.00

SHASTA DAISY. (See Chrysanthemum Maximum, page 4).

Shortia

* Galacifolia . A rare and beautiful species, from the mountains of North Carolina. The leaves are evergreen and the petals, five in number, are pure white, and scalloped or notched on the edges. Flowers about an inch across in early summer. Plant in a shady place 3.25		22.50
--	--	-------

Sidalcea - Greek-Mallow

Rosy Gem . Erect growing, more or less branching plants, 2 to 3 feet in height, producing their showy bright rose-colored flowers during June and July. They will succeed in any garden soil in a sunny position 1.50		10.00
--	--	-------

Silene - Catchfly or Campion

* Acaulis . A typical high Alpine. Close, green cushions and tiny, stemless, rosy flowers in May and June 3.25		22.50
* Alpestris . Dwarf rock plant, dainty, pure white flowers in May and June 1.75		12.00
* Saxifraga . A choice Alpine of mossy growth. Flowers white, in great profusion all summer 2.50		18.00
Schaffa (Autumn Catchfly). A charming border or rock plant, growing from 4 to 6 inches high, with masses of bright pink flowers from July to October 1.50		10.00

Sisyrinchium - Rush-lily or Satin-Flower; Blue-eyed Grass

* Bermudianum . A handsome dwarf, grasslike little plant for sunny place in the rock garden. Produces on top of the 6-inch leaves, dainty violet-blue flowers in June and July 1.75		12.00
--	--	-------

Spiraea - Goat's Beard; Meadow Sweet

Aruncus . Produces long, feathery panicles of white flowers, forming graceful plumes 4 feet tall in June. 2.50		18.00
Filipendula (Dropwort). Numerous corymbs of white flowers on stems 15 inches high during June and July; pretty fernlike foliage 1.50		10.00
* Filipendula flore pleno . Double white flowers on 12-inch stems; lovely fernlike foliage 2.00		15.00
Palmata elegans . Graceful plumes of lovely light pink flowers in June, on stems 3 feet high. Fine for water-side plantings 2.00		15.00
Ulmaria fl. pl. The well known double "Meadow Sweet." Creamy white flowers produced in abundance in early summer on stems about 3 feet high 2.00		15.00
Vermista (Martha Washington Plume). A noble plant growing about 4 feet high, producing in July and August handsome, rosy carmine flowers which are delightfully fragrant. The handsome foliage makes this Spiraea a desirable subject for the border or along a small brook 3.50		25.00

Spiraea - Astilbe Hybrids

The hybrid varieties should not be forced but planted in the shady, moist border where they will be one of the outstanding lovely plants. All flower in June.

VARIETIES FOR GARDEN USE ONLY

	Doz.	100
Betsy Cuperus . The fine drooping flower spikes, 2 feet long, show in summer during some weeks a great number of white flowers with pink center \$2.50		\$18.00
Gründis rosea magnifica . The drooping spikes of flowers have a length of over 2 feet, and are a beautiful creamy white, with pink centers 2.50		18.00
Marguerite Van Rechteren . The flower stem itself has a length of over 3 feet. The very fine fringed flowers are bright red tinged with dark blue 2.50		18.00
Meta Immink . Splendid new cross having dense flower spikes of a delightful pink color. Very recommendable 2.50		18.00
Prof. V. D. Weilen . With long stems and side stems, showing fine small, pure white flowers in profusion, 2.50		18.00
Vesta . Tall, lilac-rose spikes; beautiful garden variety 2.50		18.00

Spiraea-Astilbe—

FOR GREENHOUSE AND GARDEN USE

The following varieties are of dwarf growth and will do very well in the garden but they are mostly used for forcing. The spikes produced in the garden are about 18 inches high in all shades of pink, rose and white. They are very lovely on the edge of a small pool where the larger growing sorts are out of scale. All flower in June.

	Doz.	100
Deutschland . A lovely pure white variety and a great improvement over Gladstone, of strong growth and very free flowering \$3.00		\$20.00
Gloria . Conspicuously beautiful with dense, feathery plumes of brilliant dark pink, shaded lilac 3.00		20.00
Granat . Striking novelty with long, well formed spikes and splendid crimson flowers, shaded salmon 3.00		20.00
Queen Alexandra . The compact spikes are bright pink colored with salmon 3.00		20.00

Stachys - Woundwort

* Lanata . Fine, old-fashioned cottage garden plant for edging; useful in rock garden; dwarf; soft silvery foliage; flowers useless, 4 inches 1.50		10.00
---	--	-------

Statice - Great Sea-Lavender

* Latifolia . A valuable plant either for the border or rockery, immense heads, frequently 1½ feet high and 2 feet across, of purplish blue, minute flowers during July and August. These, if cut and dried, last in perfect condition for months 1.50		10.00
---	--	-------

Stellaria - Star Flower or Golden Stitchwort

* Graminea aurea . A slender-stemmed hardy rock plant not over 6 inches high. Creeping and spreading in habit. Well adapted for sandy banks where grass does not do well or for dry places in the rockery 3.25		22.50
---	--	-------

Stokesia - Cornflower Aster; Stokes' Aster

Cyanea coerules . Beautiful light blue flowers are produced profusely in late summer and early autumn on 18-inch stems; lovely for cutting or in front of the border. Stokesias are one of our best late summer-flowering hardy plants 1.50		10.00
Cyanea coerules alba . White-flowered form of the above 1.50		10.00

SWEET WILLIAM. (See Dianthus Barbatus).

Sweet Wivelsfield

Mixed Shades 1.50		10.00
--------------------------------	--	-------

Teucrium - Germander

* Chamaedrys . Glossy green foliage resembling dwarf boxwood; may be used in place of boxwood where the latter is not hardy; can be clipped to suit any height up to 12 inches 2.00		15.00
* Orientalis . Dwarf, graceful plants, producing an abundance of blue flowers in August; good for rock garden or border 1.75		12.00

Thermopsis

Caroliniana . A lovely Lupine-like plant with rich green foliage growing about 2 feet high. In June and July, yellow, pea-like flowers are produced in racemes, 6 to 12 inches long. The general appearance is that of a yellow Lupine 2.50		18.00
--	--	-------

Thalictrum - Meadow-Rue

* Adiantifolium . A beautiful variety, with foliage like the Maidenhair Fern and miniature white flowers in June; grows about 2 feet high 1.75		12.00
Aquilegifolium . Graceful foliage like that of Columbine, and rosy purple flowers from June to July on 2 to 3 ft. tall spikes; lovely planted together with Poppy Wm. Perry 2.00		15.00
Aquilegifolium album . White form of the above 2.00		15.00
Dipterocephalum . Flowers a charming shade of lilac-mauve, which is brightened by a bunch of lemon-yellow stamens and anthers. The plant is of strong growth, about 4 feet high. The dainty flowers are produced in graceful sprays during August and September 2.00		15.00
Glaucum . Similar in habit to the Aquilegifolium; blue-gray leaves rather finely cut, with heads of Chinese yellow, fragrant flowers, 3 to 4 feet. July 2.00		15.00

Thymus - Thyme

	Doz.	100
* <i>Citriodorus</i> . The well known "Lemon Thyme".....	\$1.75	\$12.00
* <i>Launuginosus</i> (Woolly-Leaved Thyme). Woolly foliage with bright pink flowers.....	1.75	12.00
* <i>Serpyllum</i> . Growing about 10 inches high and spreading rapidly. This is one of the good varieties for naturalizing. When established it may be mowed with lawn-mower. Foliage is very fragrant when walked upon.....	1.75	12.00
* <i>Serpyllum album</i> (White Mountain Thyme). Forms dense mats of dark green foliage and clouds of white flowers.....	1.75	12.00
* <i>Serpyllum coccineum</i> . Plants become completely covered with brilliant crimson-scarlet flowers.....	1.75	12.00
* <i>Serpyllum splendens</i> . A rapid, dwarf-growing variety; very hardy and excellent to cover bare spots, also good for the edge of walks or in the rock garden.....	1.75	12.00

Tiarella - Foam-flower or False Mitrewort

* <i>Cordifolia</i> . An attractive little plant with fine foliage and small, creamy white, star-shaped flowers. Prefers partial shade; not over 12 inches in height; flowering in May.....	1.50	10.00
---	------	-------

Tradescantia - Spiderwort or Flower-of-a-Day

	Doz.	100
<i>Virginica</i> . Produces a succession of blue flowers all summer, on fleshy, blue-green stems about 18 inches high. A very fine plant for places where it is difficult to grow more delicate subjects; does well in shade and at the base of house or porch, where nothing else will grow. Good for the city garden.....	\$1.50	\$10.00
<i>Virginica alba</i> . A white-flowered form.....	1.50	10.00

Trillium - American Wood-lily or Wake Robin

	100	1000
<i>Grandiflorum</i> . Excellent plants for shady positions in the hardy border, or in a sub-aquatic position. Large, pure white flowers in early spring. 12 to 18 inches high.....	\$5.50	\$50.00

Tritoma - Torch Lily; Foam Flower; Red Hot Poker

	Doz.	100
<i>Pfitzeri</i> . Hardy if given protection. In bloom from August to October, with spikes 3 to 4 feet high, and heads of bloom of a rich orange-scarlet.....	\$1.75	\$12.00
<i>Perry's Hardy Hybrids</i> . These are seedlings of various colors, ranging from pale yellow to deep orange and are very showy; perfectly hardy.....	1.75	12.00
<i>Quartiniiana</i> . A strong growing variety, blooming late in May. Orange-red at first, but yellow on bottom half as bloom matures. Perfectly hardy here; does not need protection.....	2.50	18.00
<i>Rufa</i> . A graceful species, airy foliage and small loose flower spikes of yellow. Blooms all summer and autumn. Valuable for the border. May be forced in the conservatory and is not difficult as a winter house-plant.....	3.00	20.00
<i>Uvaria grandiflora</i> . 3 to 4 feet. The old-fashioned, late flowering sort, with flowers rich red changing to salmon-pink. Needs slight protection.....	1.75	12.00

Trollius - Globe-flower

<i>Asiaticus, Salamander</i> . A splendid new variety of excellent habit producing a wealth of rich yellow blossoms. Does very well near a pond or stream.....	4.00	30.00
<i>Europaens, Gold Quelle</i> . A deep yellow flower with tall, rich golden stamens. A fine late flowering sort.....	4.00	30.00
<i>Europaens, Lemon Queen</i> . Free flowering strong growing plant. Flowers pale yellow, produced in abundance on stems about 2 feet high.....	4.00	30.00
<i>Europaens, Orange Globe</i> . Desirable free-flowering plants, producing their giant orange-yellow buttercup-like blossoms on stems 1 to 2 feet high from May until August; succeeds admirably in the border in a half-shady position.....	4.00	30.00
<i>Europaens, superbus</i> . Same habit as Orange Globe with pale yellow blossoms.....	4.00	30.00

TROLLIUS—Continued.

	Doz.	100
<i>Ledebouri</i> . A magnificent variety of very deep orange color. Its great merit lies in its late flowering propensities. After other varieties have faded, it is at its best.....	\$4.00	\$30.00
<i>Mixed Choice Varieties</i> . Colors range from pale yellow to deep orange; on strong stems 2 feet high. Wonderful as cut flowers, and good in moist locations....	2.00	15.00

Tunica - Coat Flower

* <i>Saxifraga</i> . A pretty tufted plant with light pink flowers, produced all summer, about 6 inches high; for the rockery or border.....	1.50	10.00
* <i>Saxifraga rosea flore pleno</i> . Is a lovely double, pink variety. The rose-pink flowers are produced all spring and summer in great quantities which makes it a most valuable plant for the rock garden. We have a limited number of strong plants in pots ready to bloom at.....	3.25	22.50

Valeriana - Centranthus; Garden Heliotrope

* <i>Coccinea</i> . Showy heads of old rose flowers in umbels on 12-inch stems just above the rich green foliage, are produced from June until October. A splendid plant for bold effects in the wall or rock garden; plants, if too large, may be severely cut back without damage. Total height about 2 feet.....	1.50	10.00
* <i>Coccinea alba</i> . White form of the above.....	1.50	10.00
<i>Officinalis</i> (Hardy Garden Heliotrope). Produces showy heads of rose-tinted white flowers during June and July, with delicious strong heliotrope odor. 3 to 4 feet high; loves a moist spot.....	1.75	12.00

Verbascum - Mullein

<i>Olympicum</i> (Greek Mullein). The showiest of the entire family of more than thirty varieties. The foliage is silvery white, with leaves often 3 feet long. Flowers yellow, produced in quantity for about 3 weeks in midsummer. Succeeds best in a dry situation. 3 to 5 feet.....	1.75	12.00
* <i>Phoeniceum, Wayside Gardens Hybrids</i> . An excellent strain produced from a very superior grade of English Hybrids. Colors are most interesting, ranging from white, pink, rose, purple and bronze to brown; they grow about 18 inches high.....	2.00	15.00

Verbena

* <i>Canadensis</i> . A creeping plant in bloom all summer. The flowers purplish blue and always plentiful. Good for rock garden in warm, sunny place.....	2.00	15.00
--	------	-------

Veronica - Speedwell

* <i>Amethystina "Royal Blue"</i> . Beautiful spikes of rich Gentian-blue flowers, 10 to 15 inches. June and July flowering.....	2.50	18.00
* <i>Erica</i> . A heather-like Speedwell with delicate pink flowers, June-July, 8 to 12 inches.....	1.75	12.00
* <i>Gentianoides</i> . Beautiful variety with spikes of large flowers, palest blue edged deep blue, in June and July. 1 foot.....	1.75	12.00
* <i>Incana</i> (candida). 1 foot. July and August. A white, woolly plant; flowers numerous; blue. Has good appearance, both in and out of bloom. Useful in rockery or for edging paths and flower beds.....	1.50	10.00
<i>Longifolia subserilis</i> . 2 feet. July to September. One of the handsomest blue-flowering plants. Perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful blue flowers; fine for cutting and one of the best plants for the hardy border.....	2.00	15.00
<i>Orchidea</i> . Very handsome variety from the Balkans. Grows 2 to 3 feet in height and produces a profusion of clear blue flowers.....	2.50	18.00
* <i>Repens</i> . 1 to 2 inches. May and June. A useful rock or carpeting plant with light blue flowers. Not very hardy, we recommend <i>Rupestris</i> in its place.....	1.75	12.00
* <i>Rupestris</i> . A fine rock plant growing 3 to 4 inches high; thickly matted, deep green foliage, hidden in early June under a cloud of bright blue flowers. Does well in light shade and is also a good ground cover for shrub borders.....	1.75	12.00
* <i>Rupestris flexuosa</i> . Prostrate creeping plant forming a solid carpet of green which in late April and early May is covered with pale blue flowers. 1 inch high. A-No. 1 rock plant.....	1.75	12.00

VERONICA—Continued.

	Doz.	100
* <i>Rupestris, Heavenly Blue</i> . The same habit as <i>Rupestris</i> or <i>Rupestris alba</i> ; prostrate; does well in full sun or light shade. Lovely in the rockery or at base of shrubbery. Completely covered with heavenly blue flowers in late May or early June.....	\$2.50	\$18.00
* <i>Rupestris nana</i> . Prostrate and creeping, and flowers at the same time as <i>Rupestris</i> , forming a dark green carpet of shiny foliage which is covered with deep Gentian-blue flowers in late April and early May. 1 inch high. One of the best early blue rock plants known.....	1.75	12.00
* <i>Rupestris nana rosea</i> . Has same habit and flowers at same time as <i>Rupestris nana</i> . The flowers, however, are mauve-pink.....	2.50	18.00
<i>Spicata</i> . Long spikes of violet-blue flowers all summer; a very fine variety for the middle of the hardy border. For best results lift and divide every 3 years, and fertilize well with bone meal. Plant grows about 24 inches tall.....	1.50	10.00
<i>Spicata alba</i> . Long spikes of snowy white flowers.....	1.50	10.00
<i>Spicata rosea</i> . Much branched variety with pink flowers.....	1.75	12.00
* <i>Teucrium</i> . Dwarf; spreading, of a dense growth; flowers blue, 6 to 12 inches. May and June.....	1.75	12.00
* <i>True Blue</i> . Literally covers itself with blossoms of intense blue, 12 inches. June-July flowering.....	2.00	15.00

Vinca - Periwinkle or Trailing Myrtle

* <i>Minor</i> . A trailing evergreen plant, used extensively for carpeting the ground under shrubs or trees or on graves, where it is too shady for grass or other plants.....	100	1000
Field grown plants, 1 year old.....	\$5.50	\$45.00
Field grown plants, 2 year old.....	6.50	55.00
Heavy plants from 3-inch pots.....	7.00	60.00
<i>Minor alba</i> . The rare white-flowered form of the variety listed above.....	\$1.75	\$12.00
<i>Minor annea variegata</i> . The hardy golden variegated Vinca is a very attractive plant for the rockery or any shady place where a touch of color for the winter is required.....	1.75	12.00

Viola Cornuta - Tufted Pansies

<i>Admiration</i> . Deep violet flowers in great profusion all summer.....	1.25	8.00
* <i>Floraire</i> . A gem, producing profusely all summer through, small blossoms of pale blue. Famous in and around Geneva, Switzerland, a product of Monsieur Correvon. Fine for rockery.....	1.75	12.00
* <i>G. Wernig</i> . A variety of Tufted Pansy, forming clumps which are covered with rich violet-blue flowers the entire season; fine for rock garden.....	1.75	12.00
<i>Golden Yellow</i> . A very free-flowering sort producing its golden yellow flowers all summer.....	1.25	8.00
* <i>Gracilis</i> . A tufted species producing a mass of rich purple, small, starry flowers, in bloom all summer. An ideal variety for the rock garden.....	1.75	12.00
<i>Jersey Gem</i> . Possesses the dwarf habit and continuity of blooming of the true horned Viola (<i>V. cornuta</i>), and vigorous, bushy growth and roundish foliage of the finest English bedding varieties. Pure, rich violet, slightly perfumed.....	1.75	12.00
<i>Perfection</i> . Light blue flowers in abundance all summer; a very lovely variety planted with the yellow sort.....	1.25	8.00
<i>Rosina</i> . A novelty of unusual interest to the hardy plant lover, producing not only in spring but again in late autumn, quantities of dainty flowers, deliciously fragrant and of a charming new color—a combination of pink and old rose shades. The fragrance probably is the most outstanding feature of this new Viola. It is also quite resistant to either sun or dry weather conditions, and will prove extremely useful for bordering or as a ground cover in half shade or full sun. Splendid also for the rock garden. Field plants....	2.50	18.00
<i>Sutton's Apricot</i> . Beautiful rich apricot shade, tinged orange toward the center.....	1.75	12.00
<i>Sutton's Gem</i> . A very pretty mixture of tufted Violas, mostly of rose shades, but also showing some clear pinkish mauves.....	1.25	8.00
<i>White Perfection</i> . Pure white blooms in great profusion all summer.....	1.25	8.00
<i>Mixed</i> . Many shades and markings.....	1.25	8.00

Viola Odorata - Sweet Violet

	Doz.	100
* Prince of Wales. Rich, deep purple.....	\$1.50	\$10.00
* Double Russian. Perfectly hardy anywhere, producing double, sweet scented flowers in abundance. A splendid variety for that troublesome shady place.....	2.50	18.00

WALLFLOWER. (See Cheiranthus).

Yucca - Adam's Needle

* Filamentosa. Among hardy plants there is nothing more effective and striking for isolated positions on the lawn. It is also indispensable for the large rockery. Its broad, swordlike, evergreen foliage and immense branching spikes of drooping, creamy white flowers, rising to a height of 6 feet, render it a bold and handsome subject wherever placed.		
3-year-old plants	1.50	10.00
4-year-old plants	2.50	18.00

Climbing Plants and Vines**Ampelopsis - Boston Ivy**

	Doz.	100
Veitchi (Boston Ivy or Japan Ivy). The most popular climbing plant for covering brick walls, stone or wooden walls, trees, etc. When it becomes established it is of very rapid growth and clings to the smoothest surface with the tenacity of Ivy. Strong, 3-year-old field-grown plants	\$2.50	\$18.00
Lowi. A splendid variation from the popular Boston or Japan Ivy, possessing all the merits of the parent, being perfectly hardy, clinging to the smoothest surface without support, and with much smaller foliage, which is deeply cut, giving it an elegance entirely distinct from the old type.....	3.50	25.00
Quinquefolia (Virginia Creeper or American Ivy). This well known climber is one of the best and quickest growing varieties for covering trees, trellises, old stumps, etc. Its large, deep green foliage assumes brilliant shades of yellow, crimson and scarlet in the fall. Strong plants.....	2.50	18.00

Radicans. Dark orange flowers all summer and fall; free blooming and very hardy vine.....	3.00	20.00
--	------	-------

Celastrus - Bittersweet or Wax Work

Scandens. Attractive light green foliage and yellow flowers in June, which are followed in autumn with bright orange fruits, which usually remain on the plant all winter.....	3.50	25.00
---	------	-------

Clematis - Virgin's Bower

Coccinea	3.50	25.00
Montana perfecta (Anemone Clematis). A strong, vigorous, extremely hardy variety, thriving under most adverse conditions. Its large, white flowers expand in April and May, and it is the best of our spring climbers	3.50	25.00
Montana rubens. Flowers rosy pink, with beautiful green foliage, shaded bronze.....	3.50	25.00
Paniculata. This hardy climber is one of the choicest and most satisfactory climbing, flowering plants. Of strong, rapid growth, with small, dense, cheerful green foliage and pure white, deliciously fragrant flowers, in greater profusion in August and September, 2-year plants.....	2.00	15.00

LARGE-FLOWERING VARIETIES

	Each	Doz.
Henryi. Lovely, large creamy white flowers in great quantities all summer.....	\$0.50	\$ 5.50
Jackmani. The popular purple variety with large, purple-blue flowers; one of the loveliest vines we have..	.50	5.50
Mad. E. Andre. Red.....	.50	5.50
Mme. Villard. Bright carmine blossoms in great quantities; looks very well on a white background50	5.50
Ramona. Single, pale blue flowers completely cover this plant; it is a very lovely vine not used nearly enough50	5.50

English Ivy - Hedera

	Doz.	100
Helix (English Ivy). 30 inches high, strong plants....	\$3.50	\$25.00
Helix gracilis. Identical in habit with the English Ivy, but with dark green foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine for shady places or on walls with north and west exposures. Strong plants, about 30 inches high.....	3.50	25.00

Euonymus - Evergreen Bittersweet

Radicans. A strong grower with small, ovate, green leaves. Half bush and half vine in habit of growth. If given support, it makes a very fine covering for a building or a wall; very rugged grower, may be used for evergreen hedges, as it can be sheared into any shape.		
12 to 18 in. high, heavy, bushy plants	3.00	20.00
24 to 30 in. high, heavy, bushy plants	4.50	35.00
Kewensis. A variety with very small, dark green foliage. Everyone who has seen this appreciates its value as a rock plant. It grows close to the ground, and is a most valuable plant for a shady place in the rock garden where a delicate evergreen is needed.....	3.00	20.00
Radicans variegata. A beautiful small-leaved green and white variegated form of the same habit as the type.		
12 to 18 in. high, heavy, bushy plants	3.00	20.00
24 to 30 in. high, heavy, bushy plants	4.50	35.00
Radicans vegetus (Evergreen Bittersweet). A strong growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. As an evergreen, absolutely hardy wall cover, this plant is unequalled. 15 to 18 inches high, heavy, bushy plants.....	4.00	30.00

Lonicera - Honeysuckle

Italiana. Color an intermingling of white and yellow. Extremely fragrant and most satisfactory.....	2.00	15.00
Sempervirens magnifica. A magnificent new Honeysuckle with coral colored blooms of large size and beautiful blue-gray-green foliage. The brilliant and cheerful flowers freely produced; a worth while novelty	Each, 65c..	

Polygonum - Silver Lace Vine

Auberti. A splendid hardy climber of strong, vigorous growth, attaining a height of 25 or more feet, producing during summer and fall great foamy sprays of white flowers, and a well balanced plant during its long period of flowering is a great mass of bloom.	3.50	25.00
---	------	-------

Pueraria - Kudzu Vine

Thunbergiana (Jack-and-the-Bean-Stalk). Small, pea-shaped, rosy purple flowers, heart-shaped leaves. It will grow anywhere.....	1.75	12.00
--	------	-------

Schizophragma Hydrangeoides - Japanese Hydrangea Vine or Climbing Hydrangea

	Each
One of the finest and most artistic vines in existence and extremely rare. Foliage large and bold, held fast to walls or other support. Flowers in large, flat clusters, studded with large, flaky, sterile blooms which are very showy and fragrant. Pot plants	\$0.60

Wisteria

Woody vines with tightly clinging habit, for pergolas, arbors, trellises, etc., especially ornamental in early summer when they are resplendent with their large, drooping clusters of fragrant blossoms.

	Doz.	100
Sinensis (Chinese Wisteria). Bunches of pale lilac deliciously scented blossoms in great profusion all over the vine. Strong, grafted plants.....	\$5.00	\$40.00
Sinensis alba. A white-flowered form of the type. Strong, grafted plants.....	5.00	40.00
Sinensis multijuga. With deep lavender blossoms often 18 to 24 inches long. Old specimen plants. Each, \$2.00.		

Standard Wisteria Sinensis, Tree Form

Blue. Unequalled in formal gardens or as specimens along garden paths. We have a limited number of fine plants of the following size: 20- to 34-inch heads on stems 4 feet high. Stems straight and 3/4-inch caliper. Will be supplied with ball of earth at \$3.50 each.

Hedge Plants**Berberis - Barberry**

Thunbergi (Japan Barberry). Where a dwarf deciduous hedge is wanted, nothing equals this beautiful Barberry. Requires but little pruning to keep its shape. The leaves are small, light green, and towards fall assume rich, brilliant colors, the fruit or berries becoming scarlet. Absolutely hardy. Plant 12 to 15 inches apart.			
	Doz.	100	1000
Extra strong, 3-year-old plants.			
24 to 30 inches high.....	\$2.50	\$20.00	\$175.00
Strong, bushy, 3-year-old plants.			
18 to 24 inches high.....	2.00	15.00	125.00

Box Barberry

The new dwarf or miniature Berberis used for low edging around beds in formal gardens or for dwarf, small edges along garden paths. Requires little pruning and is the best dwarf edging to be used in localities where Boxwood is not hardy and is less expensive.

	Doz.	100	1000
Box Berberis. Bushy plants.			
10 to 12 inches	\$2.00	\$15.00	\$125.00
12 to 15 inches	2.50	20.00	175.00

Buxus - Boxwood

Buxus suffruticosa. True Dwarf Box. Ideal for edging.			
	Doz.	100	1000
4-6 inches	\$3.00	\$20.00	\$175.00
6-8 inches	5.00	35.00	300.00
8-10 inches	6.00	45.00	400.00

Vitex - Chaste-Tree

	Each	Doz.
Macrophylla, True. A lovely low-growing shrub of rounded form and handsome dark green, fernlike foliage. From July until September great lilac-like, lavender-blue flowers are produced at the ends of branches. Excellent for lawn or formal garden planting	\$0.60	\$ 7.00

Unusual Shrubs for Rock Garden and Border**Azalea - Hardy Varieties**

	Each	Doz.
* Amoena (Japanese Evergreen Azalea). A dwarf shrub with double purplish red flowers in May; is especially adapted for borders and rock gardens; needs some protection in northern latitudes. Should be planted in sheltered positions and will abundantly repay for any care given. 10-12 in.	\$0.80	\$ 8.00

AZALEA—Continued.

	Each	Doz.
Calendulacea (Flame Azalea). Probably the most gorgeous of the native Azaleas. From early May until well into the month of June, the plants are literally covered with orange-yellow or flame-red blooms which in size are often 2 inches across. The well-known Ghent Azaleas rarely equal in brilliancy this native species. Foliage remains good until late fall and breaks in the spring just before the blooms appear. 10-12 in. selected clumps, balled and burlapped, nursery grown.....	\$0.60	\$ 6.00
*Kaempferi (Torch Azalea). One of the most popular, hardiest, and most satisfactory of all; a vigorous grower, never failing to produce its brick-red flowers in May; excellent as a point of emphasis in the mixed shrubby border		
15-18 inches	1.50	15.00
18-24 inches	2.00	20.00
Macrantha . Large, single, salmon-red. Resembles Hino-degiri; very late. A very compact, flat, quick grower with dark green, glossy foliage. One of the hardiest of all. 12 to 15-in. diameter.....	1.25	12.50
*Mollis (Chinese Azalea). Without exception the most colorful of all low-growing hardy shrubs; in innumerable shades of orange-flame, and yellow; bushy plants offered in mixed colors only.		
12-15 inches70	7.00
15-18 inches90	9.00
Mollis, Louisa Hunnewell . Derived from a cross between Azalea mollis and Azalea japonica, this new variety is harder than either parent and is more beautiful and floriferous. The huge clusters of brilliant, salmon-red flowers completely cover the plants while they are in bloom. One of the showiest. Plants 12 to 15 inches.....	1.30	13.00
Nudiflora (Pinxter Bloom). An extremely beautiful Azalea. Rosy pink or whitish blooms, after or before the foliage develops, of strong, sweet fragrance, and borne in great profusion at about the same time as A. canescens. Fall foliage assumes attractive shades of orange and bronze. Fine for dry, open places. 10-12 in. selected clumps, balled and burlapped, nursery grown ..	.60	6.00
Pontica (Hardy Ghent Azalea). These have always been popular. The orange, pink, copper, salmon and yellow shades of their blooms, you must see to appreciate their wonderful beauty. The lustrous leaves when young are covered with silky hair, and in autumn turn to dull red and brown. In association with Rhododendron they make a fine effect. We have a unique and rare mixture of specimen plants in many colors. 12-15 in.	1.50	15.00
Schlippenbachii (Royal Azalea). A vigorous plant 3 to 5 feet high, with very large, showy flowers of pale rose-pink, the upper petals lightly spotted with brown. 10-12 in. selected clumps, balled and burlapped, nursery grown.....	.60	6.00
Vaseyi (Southern Azalea). A tall, slim grower, bearing rosy white flowers in April before the leaves appear. Foliage colors dark crimson in the fall. Profuse bloomer. Very decorative; deserving a place in every planting. 10-12 in. selected clumps, balled and burlapped, nursery grown60	6.00
*Yodogawa . Large, semi-double, lavender-pink flowers; the earliest to bloom. Bushy specimen plants. 18-24 inches high	2.00	20.00

Buddleia

He de France. (New). A great improvement over all other varieties. It blooms prolifically and the flowers are larger; the color is deeper, almost a deep purple. All together a fine plant for the flower garden or shrubby border or as a single specimen for the lawn .40

Variabilis magnifica. This is really a shrub but the top usually freezes back and new growth starts from the root like other perennials. Plants grew 3 to 4 feet and are covered with long racemes of Lilac-like flowers all summer . \$0.85 \$2.50 \$18.00

Cotoneaster - Rock Spray

	Doz.	100
*Horizontalis (Prostrate or Rock Cotoneaster). A low-growing shrub with almost horizontal branches covered with shiny dark green leaves. The flowers are pinkish but the fruit, which hangs on until spring, is bright red, giving the plant a wonderful appearance in the fall and winter. It is a most desirable plant for rock garden and in front of shrubbery. A splendid low shrub for entrance to gardens or at the base of steps near the front door. The safest way to transplant this shrub is from pots. We offer plants about 15 to 18 inches spread.		
5-inch pots	\$6.00	\$45.00
12-15 inch spread from 5-inch pots	4.00	30.00

Daphne - Garland Flower

***Cneorum**. These shrubs are of spreading habit and do not grow over 8 to 12 inches high; producing delicately perfumed rose-pink blossoms. The flowers completely cover the plant not only in spring but again in early autumn. As an edging plant in front of evergreens or shrubs, it is unequalled. It also forms a splendid low hedge along garden walks and around flower beds.

Culture. It prefers a sunny position in well drained sandy soil. In order to keep the evergreen foliage perfect, protect it with a little straw during the coldest part of the winter. The plants withstand temperatures as low as 10 below zero. Water sparingly in summer.

	Doz.	100
Rushy plants, 7-9 inches	\$ 4.75	\$35.00
Bushy plants, 9-12 inches	7.50	55.00
Bushy plants, 12-15 inches	12.00	80.00

Calluna and Erica - Heaths or Heather

The Heaths are compact, low-growing plants, and as such are extremely useful for rockeries. The small foliage is densely arranged around the wiry little stems, and either when in full bloom or in midwinter makes a very pretty picture. Give some protection in the first winter. Semi-shady location.

Culture. Same as Azaleas.

	Doz.	100
Calluna vulgaris (Scotch Heather). A low-growing shrub, with erect branches covered with short, closely pressed leaves. The pretty, bell-shaped flowers occur in great profusion towards tops of the shoots and are a pretty rosy color	\$3.50	\$25.00
C. vulgaris alba (White Heather). Always worn in buttonholes for good luck. Is the white form of the common Scotch Heather	3.50	25.00
C. vulgaris Alporti . Late. Grows 24 inches high. Flowers rosy purple	3.50	25.00
C. vulgaris aurea (Golden-Leaved Heather). Same habit as <i>Vulgaris</i> except the foliage, which is of a beautiful golden tint	3.50	25.00
C. vulgaris nana compacta . Prostrate and compact in growth. Not over 7 or 8 inches. Dull, rich green or fine little evergreen plant for the rock garden; has pink flowers	3.50	25.00
C. vulgaris Hammondi . Midseason. Grows 15 inches high. Flowers white	3.50	25.00
C. vulgaris multiplex . A double-flowered form of the type. Midseason. Grows 12-15 in. high. Purple flowers	3.50	25.00
C. vulgaris rubra . Early. Low spreading growth; 6-12 inches. Flowers rosy carmine	3.50	25.00
ERICA . A charming hardy plant, companion to the Heathers. The Heaths flower in early spring.		
E. carnea (Spring Heath). Early, bright rose	3.50	25.00
E. Darleyensis (Darley Heath). Early deep rose	3.50	25.00
E. vagans (Cornish Heath). Pale lilac	3.50	25.00

Hybrid Tea Roses

SELECTED NO. XX GRADE

Under this heading we offer the very best and most popular well tried varieties of Hybrid Tea Roses, with the majority of which every lover of the Rose is familiar. We recommend this collection for general planting to the amateur who wishes the finest varieties, and who is desirous of a supply of extra choice flowers to cut throughout the season. There is not one individual sort which we cannot endorse as possessing superior merit; all have been thoroughly tested.

HYBRID TEA ROSES—Continued.

	Doz.	100
Betty Upprichard . One of those delightfully contrastive types; the outside a blend of deep toned carmine with coppery orange; the interior being mostly a delicate salmon-pink	\$5.00	\$40.00
Briarcliff . Large, pointed buds, and double, high-centered blooms of brilliant rose-pink; fragrant and long lasting	5.00	40.00
Caledonia . The most desirable white; exceptionally long-pointed bud opening to a very double, high-centered, long-lasting, very large, moderately fragrant flower. Continuous free bloomer.....	5.50	45.00
Caroline Testout . One of the most popular and valuable bedding varieties, large, full globular flowers of bright satiny rose, with brighter center, very free and fragrant	5.00	40.00
Charles K. Douglas . Of vigorous, upright growth, and liberal, fragrant bloom which is of delightful form. Color a flaming scarlet flushed with velvety crimson.	5.00	40.00
Charles P. Kilham . A brilliant, distinct and striking novelty which will appeal to and please every Rose lover. The buds are long pointed, of perfect shape, opening to high centered, perfectly formed, full double flowers of a rich and brilliant Oriental red, flushed with orange and glowing scarlet. A vigorous grower; very free flowering and sweetly tea-scented.	5.50	45.00
Chateau de Clos Vougeot . Glowing red blooms, deeply shaded black and scarlet; very double; intensely fragrant. Low, branching growth; fair foliage	5.00	40.00
Claudius Pernet . A most vigorous grower of erect branching habit, beautiful brilliant green foliage, long pointed buds of exquisite shape, carried on long, stiff stems. Very large, full flowers with elongated deep petals; a beautifully formed bloom. Color most striking sunflower-yellow	5.00	40.00
Columbia . This beautiful Rose is of strong, vigorous habit and exceptionally free blooming. Color a most pleasing shade of rose-pink and delightfully fragrant	5.00	40.00
Cuba . Vivid orange-scarlet buds opening to immense cuplike flowers of iridescent copper-red and brilliant orange-vermilion. Extremely free-flowering and a vigorous, erect grower	5.00	40.00
Dainty Bess . An appropriate name for a daintily colored single Rose of perfect form; a delicate shade of shell-pink with a conspicuous bunch of crimson stamens. A greatly admired, long-lasting, single flower	5.50	45.00
Dame Edith Helen . Shapely buds and substantial, high-centered blooms of clear pink, sweetly scented and freely produced on long, strong stems. Vigorous. Most remarkable for the number and beautiful arrangement of its petals	5.00	40.00
Dr. Edward Deacon . Very large buds and blooms of deep salmon-orange, paling to shrimp-pink at the edges of the petals; very double and beautifully shaped. Plant is bushy and remarkably free flowering	5.00	40.00
Duchess of Wellington . Intense saffron-yellow, stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers are fairly full, with large petals, great substance, delightfully fragrant..	5.00	40.00
Edel . An enormous bold, stately, well built flower of great quality and finish. Color white with faintest ivory shading toward the base, passing to a pure white. A fine grower with uniform, stout habit	5.00	40.00
Edith Nellie Perkins . A Rose of outstanding merit, vigorous in growth and free flowering. Long pointed bud; flower of good size, long lasting and fragrant, double; outside of petals orient-red shaded cerise-orange; inside salmon-pink	5.50	45.00
E. G. Hill . Beautiful long bud of perfect form and full double, high-centered flower of dazzling scarlet, shading to a deeper red as it develops. Strong, vigorous free-flowering habit.....	5.50	45.00
Eldorado . In this we have an exact counterpart of Miss Lolita Armour, in the large sized flowers of distinct formation, vigorous growth, and free flowering habit and fragrance, but in color it is of the golden yellow that is peculiar to the climbing Rose Marechal Niel, with the base of the petals slightly tinted red	5.00	40.00
Elizabeth of York . Pointed buds and medium size, semi-double flowers of bright cerise-pink, borne singly on long stems. A profuse, continuous bloomer. The flower is very beautiful when half open	5.00	40.00

HYBRID TEA ROSES—Continued.

	Doz.	100
Etoile de Hollande. Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; petals enormous; very fragrant. Free flowering.....	\$5.00	\$40.00
Feu Joseph Looymans. Long, pointed buds of brilliant orange-buff, and large, fairly full flowers of vivid yellow and bright apricot; fragrant and freely produced.....	5.00	40.00
Golden Emblem. Beautifully formed long buds opening up into fine, fragrant, golden flowers. The color is rich, a yellow cadmium toning to sunflower yellow..	5.00	40.00
Gross an Teplitz. This is a Rose for everybody, succeeding under the most ordinary conditions. In color it is of richest scarlet, shading to a velvety crimson; very fragrant; a free, strong grower and in bloom all the time.....	4.00	30.00
Imperial Potentate. Dark, shining rose-pink, shaded lighter on reverse of petals; fragrant. Erect, branching plant with very good foliage. Blooms with remarkable freedom.....	5.00	40.00
Independence Day. Flaming yellow buds, heavily shaded with copper and brown, opening quickly to moderately large flowers of 15 to 20 petals which rapidly fade to light orange-pink.....	5.00	40.00
Joanna Hill. Invaluable for the garden. The buds are large, long pointed and open to large, full, semi-double, attractive, long lasting, moderately fragrant flowers of a clear yellow with orange-yellow heart. They are borne singly on long strong stems; growth vigorous, upright; a profuse bloomer.....	5.50	45.00
John Russell. Large, ovoid buds and immense crimson flowers of the old-time, globular type with the famous exhibition center. Plant exceptionally strong and vigorous.....	5.00	40.00
Jonkheer J. L. Mock. The flowers, which are produced with the greatest freedom on long, stiff stems, are of large size and of perfect form, of a deep imperial pink, the outside of the petals silvery rose-white ..	5.00	40.00
Jules Gaujard. Distinct and beautiful, the large, well-formed double flowers on first opening are of a glistening cochineal-crimson which, as they fully develop, passes to a pretty shade of orange-rose. It is of strong, vigorous, branching habits, very free flowering and a greatly admired garden Rose.....	5.50	45.00
Kaiserin Augusta Victoria. Soft pearly white, tinted with just enough lemon in the center to relieve the white; remarkably fragrant, beautifully formed flowers on long, graceful stems; a strong, free, healthy grower.....	5.00	40.00
Killarney Queen. Another Killarney, closer to the original in color but fuller, and stronger in growth. Very free flowering. It is practically immune to mildew, with large flowers and thick petals.....	5.00	40.00
Killarney White. A duplicate of the charming pink Killarney; flowers white as snow.....	5.00	40.00
Lady Alice Stanley. A gem that everyone admires; it is absolutely perfect in every way; form, color, size, freedom of bloom and fragrance are fully developed; in color it is a beautiful shade of coral-rose, the inside of the petals shading to flesh-pink with deeper flushes.....	5.00	40.00
Lady Ashtown. A very free-flowering variety, producing fine blooms throughout the season. The flowers are large and of a delicate soft rose color, shading to yellow at the base.....	5.00	40.00
Lady Hillingdon. A beautiful coppery shade of apricot-yellow, beautiful in the bud; a strong, vigorous grower; free flowering.....	5.00	40.00
Lady Margaret Stewart. It is of perfect form, with a high-pointed center, golden yellow shaded and streaked with orange and red. Especially handsome foliage.....	5.00	40.00

HYBRID TEA ROSES—Continued.

	Doz.	100
Lady Ursula. Well shaped buds and blooms of good substance in varying shades of light pink merging to a yellow base; slightly fragrant. Plant of tremendous growth.....	\$5.00	\$40.00
Lord Charlemont. Deep crimson, well formed, high-centered and fragrant blooms. Moderately bushy plant. A new red Rose which has been very much talked about.....	5.00	40.00
Los Angeles. Very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink, toned with coral and shaded with translucent gold at the base of petals.....	5.00	40.00
Lucie Marie. Very long pointed buds, deep yellow splashed rosy red. As the outer petals unfold, the inner face is yellow with coppery venation with the petals lightly tipped with pink; slightly fragrant. It is of strong, vigorous, healthy habit of growth with dark leathery foliage. A most distinct and interesting bedding variety.....	5.50	45.00
Madame Butterfly. A symphony of white, bright pink, apricot and gold. Compared with Ophelia, this derivation is fuller-petaled, more prolific, and of greater color appeal. The buds are a rich Indian red, yellow at base.....	5.00	40.00
Margaret McGredy. Large, ovoid buds and double, cupped flowers of solid orange-vermillion. Very prolific. This extraordinary Rose has been widely discussed and tested in this country and found good ..	5.00	40.00
May Wettern. Fine, shapely flowers of deep rosy pink, with recurved petals showing a paler tint; mild Tea fragrance. Excellent stems and foliage; free growth and blooming. A very pretty garden Rose resembling Mme. Abel Chatenay but a better bloomer.....	5.50	45.00
Mevrouw G. A. Van Rossem. A marvelously beautiful Rose with a unique color combination not found in any other variety, a most striking blending of dark vivid orange and apricot on a golden yellow ground, frequently with touches of bronze on the reverse of the petals. The sweet-scented flowers are very large, of perfect form, both in bud as well as in the fully developed flower and are produced freely on vigorous upright growths.....	5.50	45.00
Miss Lolita Armour. The flowers are of great substance and delightfully fragrant. As the flowers expand they develop to a deep coral-red with a golden coppery red suffusion, the base of the petals a rich golden yellow with coppery red sheen. A strong, vigorous grower ..	5.00	40.00
Miss Rowena Thom. Enormous buds and blooms of fiery rose and mauve, shaded with old gold at the center, borne on long, strong stems. A profuse, continuous bloomer and a very vigorous plant.....	5.00	40.00
Mme. Edouard Herriot. The Daily Mail Rose. In color its buds are coral-red, shaded with yellow at the base; the open flowers of medium size, semi-double, of a superb coral-red, shaded with yellow and bright rosy scarlet passing to shrimp-red.....	5.00	40.00
Mme. Jules Bouche. While not a pure white, it is to all intents white and without question the best white everblooming bedding Rose yet introduced. The flowers are large, quite double and of splendid form. It is fragrant, a vigorous grower and very free flowering....	5.00	40.00
Mme. Leon Pain. Splendid salmon buds and pink blooms of great size, tinted heavily with silvery flesh and orange at the center. Plant is vigorous, free flowering, and almost immune to disease.....	5.00	40.00
Mrs. Aaron Ward. A remarkably floriferous variety of strong, vigorous, but compact growth; the flowers, which are full double, are equally attractive when full blown as in the bud state; in color, a distinct Indian yellow, shading lighter towards the edges ..	5.00	40.00
Mrs. Arthur Robert Waddell. Beautiful, tapering buds of yellowish copper, opening to nearly single, cupped blooms of bronze-pink and apricot, with a delicate, delicious perfume.....	5.00	40.00
Mrs. Charles Bell. Lovely shell-pink buds and blossoms of fine, globular form, with shadings of soft salmon; sweetly perfumed.....	5.00	40.00

HYBRID TEA ROSES—Continued.

	Doz.	100
Mrs. Erskine Pembroke Thom. Slender yellow buds and large, well shaped blooms of bright canary-yellow, deepest in center. Blooms very freely.....	\$5.00	\$40.00
Mrs. Henry Bowles. Ovoid buds and globular flowers of clear, piercing pink with lighter shades. A fine, firm center, well held, and fragrant. Vigorous and free flowering.....	5.00	40.00
Mrs. Henry Morse. A bright flower of two contrasting tones of pink, with an underlying yellow glow; double, high centered, large, moderately fragrant.....	5.00	40.00
Mrs. Lovell Swisher. Large, beautifully pointed buds and gorgeous flowers of salmon-pink and gold, passing to flesh-pink at the edges. Very impressive	5.00	40.00
Mrs. Sam McGredy. The color is a beautiful scarlet coppery orange, heavily flushed with Lincoln-red on the outside of the petals, and these colors together give a rich and almost dazzling effect. The flowers are of large size and beautiful form, and possess the fullness to make them useful for all purposes, are very freely produced and delicately perfumed. The plant has a vigorous and exceptionally free habit and is one of the best all purpose varieties.....	5.50	45.00
Mrs. Pierre S. DuPont. Medium sized long pointed bud of a reddish gold opening to a semi-double, cupped, very lasting fragrant flower of a deep golden yellow. The plant is of strong, vigorous, compact growth. A profuse and continuous bloomer.....	5.50	45.00
Mrs. Wakefield Christle-Miller. The flowers, which are of large size, remain perfect on the bushes for a long time, and are produced very freely; they are of a bright pink color with lighter shadings.....	5.00	40.00
Olympiad. This brilliant new red Rose, first sent out spring of 1932, is now available at popular prices. The color of Olympiad is unique, a lustrous, dark oriental scarlet, its depth of color accentuated by the golden base and intensified by a rich velvety sheen. The bud is long and pointed and the flower magnificent in every stage of development.....	5.50	45.00
Ophelia. A Rose that is admired by everyone; its flowers are held erect on long, stiff stems, are of perfect form, good size, and of a most pleasing, delicate tint of salmon-flesh shaded with rose; very floriferous ..	5.00	40.00
Padre. Copper-scarlet, with bright yellow at base of petals. Flowers semi-double, with 15 to 20, often curiously notched petals. Blooms with exceptional freedom.....	5.00	40.00
President Herbert Hoover. Large flowers of a very charming combination of cerise-pink, flame, scarlet and yellow, with broad, thick petals; very fragrant. The clean, handsome foliage is an added attraction. The brilliancy of the color is somewhat dimmed by hot weather, but the cool autumn nights develop tones and tints of almost unbelievable richness. Perhaps it will do best in partial shade.....	5.50	45.00
Radiance. An ideal bedding Rose that continues to produce its large flowers throughout the most unfavorable hot weather when frequently many other varieties fail. A brilliant carmine-pink, with salmon-pink and yellow shadings at base of the petals.....	5.00	40.00
Red Radiance. A counterpart of Radiance from which it is a "sport," possessing all the good traits of that valuable variety but differing in color, which is a bright cerise-red.....	5.00	40.00
Rev. F. Page-Roberts. Copper-red buds of great length, opening to golden yellow blooms stained outside with red, fully double and very large; fragrant.....	5.50	45.00
Rose Marie. Fragrant, clear rose-pink flowers of large size, borne freely on plants of notable vigor. Quite distinct and worth having in any planting.....	5.00	40.00
Schwabenland. There are many pink Roses but none just like this variety either in color or in the splendid formation of its blooms. The moderately fragrant flowers are large; over 5 inches in diameter, with high spiral center, the petals having a peculiar twist or curl. In color it is a luminous rich rose-pink, retaining its brightness until the petals drop. The flowers are carried singly on long stiff stems. A strong, healthy, hardy, vigorous grower and free flowering.....	5.50	45.00

HYBRID TEA ROSES—Continued.

	Doz.	100
Sensation. Enormous scarlet-crimson blooms of fine deep form; double, 30 to 35 petals of great size and substance; very sweetly scented. Plant is strong and active in sending up new blooming shoots. However, Etoile de Hollande is a great improvement over this fine Rose \$5.00		\$40.00
Souvenir de Claudius Pernet. (See Claudius Pernet, page 16).		
Souvenir de Georges Pernet. Brick-red buds, opening to orange-pink blooms of immense size, very double, and deliciously fragrant. An unusually beautiful Rose 5.00		40.00
Talisman. Brilliant red and gold buds, opening to well shaped blooms of scarlet-orange and rich yellow. Constantly in bloom; the most vivid color yet produced in Roses 5.00		40.00
Vaterland. The most distinct dark colored variety yet introduced, deeper and richer in effect than the Hybrid Perpetual variety, Prince Camille de Rohan. A rich deep velvety scarlet-maroon and a splendidly formed high centered flower of remarkable keeping qualities. The plant is of vigorous, strong, erect habit with healthy foliage and free and perpetual flowering; unquestionably the best of this type that has yet come to our notice 5.50		45.00
Ville de Paris. Round buds of clear yellow and big, globular flowers of the same hue, untouched by any other color. This is one of the really distinct breaks in the new yellow Roses 5.00		40.00
Wilhelm Kordes. Long, pointed buds opening to full double flowers, a rich capucine red overlaying a golden ground; wonderfully prolific 5.00		40.00
Willowmere. Superb buds and blooms of richest pink, shining with a yellow glow which seems to come from the heart of the flower 5.00		40.00

Hybrid Perpetual Roses

The varieties listed below are unquestionably the best that can be selected in the Hybrid Perpetual class, which, before the development of the Hybrid Teas, was the most popular type for garden planting, and even now they dare not be overlooked, but should be used extensively in conjunction with the other sorts, and especially so in localities where the hardiness of the Hybrid Tea varieties has not been established. The collection here offered embraces as complete a range of colors as it is possible to bring together in such a number of plants, with freedom of flowering, perfect form, fragrance, hardiness and general excellence.

	Doz.	100
Fran Karl Druschki. This is the ideal hardy white Rose; pure in color, perfect in form, strong grower and remarkably free flowering; superb in every way \$4.00		\$30.00
George Arends or Pink Frau Karl Druschki. This is a pink form of the popular white Frau Karl Druschki, possessing not only the exquisite form, large size, and remarkable free-flowering habits of its parent, but in addition to this, it is also highly perfumed 4.00		30.00
Mme. Albert Barbier. Full, cupped flower of soft fawn-yellow, paling to white, with pinkish shades in the center, blooming throughout the season. A remarkable color for a Hybrid Perpetual, a class in which yellow tints are rare. This Rose has showed up unusually well in color, shape of flower, and its habit of constant blooming 4.00		30.00
Mrs. John Laing. Soft pink, of beautiful form; exceedingly fragrant and remarkably free flowering; always does well and stands very close to the top among fine Roses 4.00		30.00
Paul Neyron. Dark rose of enormous size; perhaps the largest of all 4.00		30.00
Ulrich Brunner. Brilliant scarlet-crimson; an old favorite and one of the best known Roses in cultivation; does well everywhere 4.00		30.00

Polyantha Roses

A type of Roses which is deservedly very popular for bedding purposes. They form shapely, compact, bushy specimens, most of them growing about 8 inches high, producing in great profusion, from early in the season, without stopping, until severe frost, trusses of small flowers. Pruning is not necessary; simply remove the past season's flower stems.

POLYANTHA ROSES—Continued.

	Doz.	100
Cecile Brunner. Small, exquisitely formed buds and flowers of light pink with yellow base, in diffuse, graceful clusters. Perfectly formed miniature Roses of utmost grace and delicacy. Also called "Sweetheart Rose" and "Mignon Rose" \$5.50		\$45.00
Chatillon Rose. Bright pink semi-double blooms with an illuminating touch of orange. The color lasts well and is not unattractive when faded. The trusses are of gigantic size, and the plant is both healthy and hardy 4.00		30.00
Eblouissant. Glowing, dark red flowers of medium size, shaded heavily with velvety crimson. Large, compact trusses, borne on dwarf but robust plants, which bloom constantly 4.00		30.00
Gloria Mundi. Bright orange-salmon flowers in huge clusters. Growth is vigorous and bushy. Splendid when planted in masses 4.00		30.00
Lafayette. Large, semi-double flowers of striking light crimson; open, frilled form. Blooms very liberally in loose clusters 4.00		30.00
Princess Juliana. A dainty, sweet combination of maiden-blush and peach and ivory. The florets are prettily waved, and strung along the branched sprays 4.00		30.00

Hardy Climbing and Rambler Roses

Climbing Roses require no pruning in the spring beyond the cutting out of very old or dead wood, and the shortening of the laterals and long canes to make the growth conform to the space to be covered; but a severe pruning in July, directly after they have finished flowering, is beneficial. Cutting away at that time all old flowering wood will encourage a vigorous growth, which will give an abundance of flowers the following season. We offer on this page a selection of twelve of the most modern Hardy Climbing and Rambler Roses.

American Pillar. A single-flowering variety of great beauty. The flowers are of large size, 3 to 4 inches across, of a lovely shade of pink, with a clear white eye and clusters of yellow stamens. These flowers are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten. \$1.00 per doz.; \$30.00 per 100.	
Bess Lovett. Large, fairly full flowers of light crimson-red, cup-shaped, and borne in long-stemmed clusters suitable for cutting; sweetly fragrant. Plant very strong, exceedingly free flowering, with fine, glossy foliage almost immune to disease. Probably the best of the red climbers, with flowers of Hybrid Tea size. Better habits than Climbing American Beauty but totally unlike it in color and form. \$1.00 per doz.; \$30.00 per 100.	
Blaze. The Everblooming Paul's Scarlet. A marvelous new hardy everblooming climbing Rose which inherits the blazing color of Paul's Scarlet Climber and the everblooming habit of Gruss an Teplitz, thus combining the most attractive features of both its parents. It is a very vigorous climbing variety which will grow to considerable height and produce flowers on both the old and the new growth. In our opinion, this Rose is destined to enormous popularity. Each, \$1.25.	
Chaplin's Pink Climber. This striking novelty originated in the same nursery in which Paul's Scarlet Climber was raised. It is a cross between Paul's Scarlet and American Pillar, and like its parents is of vigorous growth, perfectly hardy, producing its large flowers, similar in size and form to Paul's Scarlet. Strong, two-year-old plants, \$5.00 per doz.; \$40.00 per 100.	
Climbing American Beauty. Its name is somewhat misleading, but it is one of the best climbing Roses. A strong, healthy, vigorous grower, frequently making shoots from 1 to 12 feet long, and good sized flowers for a climbing Rose that blooms so freely. Color a pleasing rose-pink; of splendid form, good substance. \$1.00 per doz.; \$30.00 per 100.	
Dorothy Perkins. Soft shell-pink; flowering profusely in large clusters. Very fragrant and lasting. A grand Rose in every way. \$1.00 per doz.; \$30.00 per 100.	
Dr. W. Van Fleet. A Rose, which on account of its dainty color and exquisitely shaped buds and flowers, appeals to everyone. The long pointed buds are of a rich flesh-pink on stems 12 to 18 inches long. Splendid for cutting. \$4.00 per doz.; \$30.00 per 100.	

HARDY CLIMBING AND RAMBLER ROSES—Continued.

Flower of Fairfield. Also called the "Everlasting Crimson Rambler." Combines the beauty of the well known Crimson Rambler with the continuous-blooming habit, the new growth bearing large clusters of crimson blooms through the summer continuously. Be sure to include this sort in your selection. \$4.00 per doz.; \$30.00 per 100.	
Golden Climber. A departure in Yellow Climbing Roses. Extreme hardiness, combined with blooms of Hybrid Tea type and quality which hold their color. Flowers always come solitary on stiff strong stems, often 18 inches or longer, and are 4 to 5 inches in diameter, making a cut flower which has no equal. Golden Climber has fragrance, so much lacking in our newer Roses of today. It is able to withstand sub-zero temperatures and stay "put" anywhere. Handsome, glossy foliage, green wood, and red thorns. Its beauty is long lasting. Handsome "vine" to cover a fence, trellis, porch, pergola, or garage wall. Golden Climber won the Gold Medal awarded by the Massachusetts Hort. Society in 1933; also the American Rose Society's Medal for best Rose at their 1933 annual meeting. Each, \$2.00; doz., \$20.00.	
Mary Wallace. Originated at the Maryland Station of the Department of Agriculture by the late lamented Dr. W. Van Fleet. The Department describes it as a Pillar Rose, making a fine strong, self-supporting plant 6 to 8 feet high, with large, glossy foliage, blooming with great freedom in spring and bearing a considerable number of fine buds in summer and fall. Flowers very large, generally exceeding 4 inches across; well formed, semi-double, of a bright, clear rose-pink with salmon base to the petals. \$1.60 per doz.; \$30.00 per 100.	
Mme. Gregoire Staechelin. The first climbing Rose to which a Gold Medal was awarded at the International Test Garden for Roses at Bagatelle, Paris, France. Mme. Gregoire Staechelin has inherited the best traits of both of its popular parents, Frau Karl Druschki and Chateau de Clos Vougeot. The plant is of strong climbing habit, growing 12 feet or more high and has large disease resistant foliage. The long pointed buds are crimson at first as the sepals divide, then the firm outer petals show splashes of carmine as the flower opens with an iridescent pearl pink inside. Strong, two-year-old plants, \$5.00 per doz.; \$30.00 per 100.	
New Dawn. Everblooming Dr. W. Van Fleet. A sport from Dr. W. Van Fleet which is universally acknowledged as the best and most popular American Climbing Rose. Identical in every way with its parent in size and formation of its flowers, color, etc., but blooms continuously throughout the summer and fall. The first Everblooming Climber introduced; a variety that every Rose lover will be anxious to possess. Each, \$1.00.	
Paul's Scarlet Climber. No other Rose, in any class, can compare with it for brilliancy of color, which is a vivid scarlet. Flowers are semi-double, very freely produced in clusters of from 3 to 20 flowers each on much branched canes. It is of strong, climbing habit and perfectly hardy. One of the most popular climbing Roses. \$4.00 per doz.; \$30.00 per 100.	
Silver Moon. Different from all other Roses, with beautiful semi-double flowers, 4½ inches and over in diameter; pure white in color, petals of great substance, beautifully cupped, forming a Clematis-like flower. The large bunch of yellow stamens in the center adds to its attractiveness. \$4.00 per doz.; \$30.00 per 100.	
Star of Persia. A brilliant new Rose with flowers on the order of the lovely old Harrison's Yellow; semi-double, bright yellow and about 3 inches across. It makes a striking low climber or pillar Rose from 8 to 10 feet high, bursting into showers of sparkling bloom in June. It does not fade and the flowers last several weeks. \$8.00 per doz.; \$60.00 per 100.	
White Dorothy Perkins. A pure white climber, identical with Dorothy Perkins except the color. Without doubt the best white climber. \$4.00 per doz.; \$30.00 per 100.	

All prices quoted on Roses are for dormant stock, XX No. 1 grade. Rose plants in pots, furnished late in the season, will be priced as follows:

Extra, per dozen \$ 1.00
Extra, per hundred 10.00

Summer Flowering Bulbs for Spring Planting

Gladioli

	Doz.	100
Betty Nuthall. A new variety popular wherever shown, the color is coral-pink with light orange throat markings, several flowers are open at a time on strong spikes with heavy foliage.....	\$0.80	\$ 6.00
Carmen Sylva. Large pure white flowers, well placed on perfectly straight tall stems; a splendid cut flower variety.....	.45	3.00
Dr. F. E. Bennett. Deep peach-red with flame-scarlet suffusion, lip speckled ruby and white. Large flowers borne on tall, stiff stems. The general effect of the flower is red and it is considered the finest of its color.....	.45	3.00
E. J. Shaylor. Tall, very strong plants and large blooms of a beautiful deep rose-pink. This variety has recently been awarded a certificate of merit in London.....	.45	3.00
Golden Dream. A golden dream come true. As deeply, richly golden as Souvenir, but much larger. Flowers slightly smaller than Golden Measure but taller and later; many open flowers at one time.....	.55	4.00
Giant Nymph. La France pink; with creamy yellow throat. Without question one of the very best recent introductions.....	.45	3.00
Los Angeles. Clear shrimp-pink with orange throat. An excellent cut flower.....	.45	3.00
Malden's Blush. Delicate shell-pink.....	.45	3.00
Marmora. Gray-lavender with pale purplish blotch. One of the finest of the new varieties, 8 to 10 flowers open at once.....	.75	5.00
Minuet. Considered the best lavender in existence, six blooms generally open at once, strong spike and heavy foliage; a grand exhibition sort.....	.80	6.00
Mrs. Frederick C. Peters. Beautiful shade of rose-lilac, with crimson blotch bordered white on lower segment; resembling an orchid in color. Flowers of large size and many open at one time on a strong stem. Healthy plant with good green foliage.....	.55	4.00
Mrs. F. C. Hornberger. Snow-white, with just a faint flush of ivory, or perhaps a tint of pink, only noticeable on careful examination. It is a great improvement over existing white varieties, with large, ruffled flowers that have aided it greatly in attaining widespread popularity.....	.55	4.00
Mrs. P. W. Sisson. Most beautiful light pink of all Glads; tall, strong grower with many flowers open at one time. One of the best in this class.....	.45	3.00
Mrs. Van Konynenburg. The leader in its color—light blue. It has an excellent spike, beautifully formed flowers, is free flowering and a very good propagator. Surpasses all others of its color.....	.75	5.00
Nancy Hanks. Rich apricot, shaded orange-pink. The pretty flowers are nicely arranged on a sturdy stem, with six or more open at one time. They stand up well under the hottest summer sun.....	.45	3.00
Orange Queen. Apricot-orange and a color that does not exist in any other variety. Very popular.....	.45	3.00
Souvenir. Pure golden yellow.....	.45	3.00
Rose Ash. Corinthian red shading into ashes-of-roses on the outer edges. Lower petals light yellow speckled with ruby.....	.45	3.00
W. H. Philipps. Dominating flowers of immense size in long, massive spikes, all out at once. A captivating shade of La France pink warmed with salmon-rose, lighter at center; lower petals faintly clouded with ruby dots.....	.55	4.00
Large-Flowered Exhibition Mixture. Fine, large-flowered varieties, containing beautiful forms and shades that will harmonize well.....Per 1000, \$25.00..	.45	3.00
Primulinus Exhibition Mixture. Finest improved Primulinus, containing the most beautiful forms and all pastel shadings that will harmonize well together.....Per 1000, \$25.00..	.45	3.00

Begonias

This charming class of Begonias is perhaps the handsomest of all summer-flowering, tuberous-rooted plants, and deserves even greater popularity. Particularly useful for planting in a semi-shady position. Their culture is of the simplest, and with the least regard for their requirements they will repay with an abundance and brilliancy of bloom not equalled by any other class of plants. Superb for the shady city garden. Begonia bulbs will last for ten years if taken up each autumn.

Culture. Early in spring provide a flat box or shallow pan, cover the bottom surface with 1 or 2 inches of leaf mold, placing bulbs immediately on top, spacing them 2 inches apart. Then cover with 1 inch of leaf mold and place container in a warm place in full light, water freely. Very soon growth will commence, keep bulbs growing indoors until leaves have fully developed. Move to a permanent place in the garden, preferably in shade, planting 3 inches deeper as soon as all danger from freezing is past. Store bulbs in winter same as Gladioli.

SINGLE-FLOWERING VARIETIES

This class of the Tuberous-rooted Begonias is largely used for beds or border planting.

White, Pink, Scarlet, Crimson, Yellow, Orange, Salmon, doz., \$1.75; 100, \$12.00.

Select mixture of all sorts, equal proportions, doz., \$1.75; 100, \$12.00.

DOUBLE FLOWERING VARIETIES

White, Pink, Scarlet, Crimson, Yellow, Orange, Salmon, doz., \$1.75; 100, \$12.00.

Select mixture of all sorts, equal proportions, doz., \$1.75; 100, \$12.00.

Hyacinthus Candicans - Cape Hyacinth

A white summer-flowering Hyacinth, growing 3 to 5 feet in height, gracefully surmounted with from 20 to 30 pure white, bell-shaped flowers. Culture same as for Gladioli.....

Lilium - Lilies

	Doz.	100
Auratum (Gold-Banded Japan Lily). Undoubtedly one of the finest. Its large, graceful, fragrant flowers are composed of 6 petals of a delicate ivory-white color, thickly studded with chocolate-crimson spots and striped through the center a golden yellow; 3 to 5 feet. July to September.....	\$3.50	\$25.00
Large bulbs	4.50	35.00
Mammoth bulbs	4.50	35.00
Auratum platyphyllum. Also called "Macranthum." This is a robust growing form; the stem is stouter and attains a greater height; the leaves are much broader; enormous flowers, white, richly spotted yellow. Undoubtedly the choicest of all.....	4.00	30.00
Large bulbs	5.00	40.00
Mammoth bulbs	5.50	45.00
Auratum pictum. Is another splendid form of Auratum and fortunately a stronger grower.....	3.50	25.00
Batemanniae. Strong stems with 5 to 10 flowers of a reddish orange color. July-August, 3 to 4 feet.....	3.50	25.00
Browni odorum. A vigorous grower with large, trumpet-shaped flowers of clear white, veined outside with purplish maroon.....	8.00	60.00
SF Canadense. Our dainty, beautiful native Lily. Graceful and charming flowers.....	1.75	12.00
SF Canadense flavum. Yellow-flowered form of the above.....	2.00	15.00
F Candidum (Madonna or Annunciation Lily). This is the old-fashioned garden Lily, and one of the most beautiful.....	3.00	20.00
Large selected size bulbs	4.00	30.00
Mammoth bulbs	3.50	25.00
SF Carolinianum. A showy Lily with slender stems, bearing reflexed, orange-red flowers, spotted maroon. Requires a well drained situation. July and August, 2 to 3 feet.....	3.50	25.00
Colchicum (Szovitzianum). A beautiful lemon-yellow Lily, produced in pyramidal clusters of drooping, waxlike flowers. June, 4 to 5 feet.....	7.00	60.00

LILIES—Continued.

	Doz.	100
Crocenm (True). The Irish Orange Lily. South Europe. Flowers very showy, bright orange, with minute dark brown spots. June flowering. When well grown and established it attains a height of 5 feet or more, with a large quantity of flowers on each stem. This Lily is now getting scarce.....	\$4.00	\$30.00
Elegans (Mixed varieties). (Japan). Very hardy, dwarf Lilies thriving in any garden and producing large, erect flowers of various shades of yellow, orange and red. All varieties grow from 1½ to 2 feet; bloom in June and July. Mixed.....	1.50	10.00
Elegans, Alice Wilson. A very rare and beautiful Lily with clear lemon-colored flowers. Height 2 feet.....	4.00	30.00
Elegans atrosanguineum. Flowers of a rich dark coppery crimson with purple-black spots at base of petals. Very attractive. Height 1 foot.....	3.25	22.50
Elegans, Orange Queen. Very handsome, producing in July, large orange-colored flowers with small, black spots; a strong robust grower; very decorative in pots or borders. 15 to 18 inches.....	3.50	25.00
Giganteum (Himalaicum). The most majestic of Lilies, having stems 10 to 12 feet high when established, with large, handsome, heart-shaped leaves, and from July to August bearing immense, long, white, trumpet-shaped, sweet scented flowers. Groups of this noble Lily in woodland or wild gardens produce a grand effect. It requires to become established before flowering freely and thrives best where there is an abundance of leaf soil. Plant very shallow. Each, \$2.50.		
SF Grayl. A native Lily with deep red flowers. One of the finest for planting in shady places. Small, rich red flowers, spotted maroon. July, 3 to 4 feet.....	2.00	15.00
Hansoni. Plant among shrubs and low plants to protect young shoots, this being one of the earliest Lilies to appear in the spring. The stem reaches a height of 4 to 5 feet, carrying blossoms 2 inches across, regularly reflexed, the petals being of a bright orange spotted more or less with brown, of a waxy texture. June-flowering.....	4.00	30.00
SF Henryi. A new Japanese Lily that has made a sensation in Europe. It has the same form and appearance as the speciosum varieties but the flowers are bright orange-yellow. They are as hardy as a tree. Easily grown and permanent.....	4.00	30.00
SF Humboldt (California). Large, handsome flowers of great substance, rich, golden yellow, spotted dark crimson, with recurved petals; very showy. Height 5 feet. July flowering. This Lily requires to be established before blooming freely and then produces as many as 20 to 30 flowers on a stem.....	5.50	45.00
Kramerl. Unique for its color and grows from 2 to 4 feet high. The funnel-shaped, finely formed flowers are 6 inches or more in length and as much across, of a beautiful clear pink color, often shaded blush.....	3.25	22.50
SF Martagon album. One of the most beautiful Lilies, producing in July handsome pyramidal spikes of very beautiful, pure white flowers, with reflexing petals of waxlike substance. Height 4 feet.....	6.00	50.00
SF Martagon (Dalmaticum; Turk's Cap Lily). A handsome Lily, bearing clusters of purple, waxlike flowers. Thrives best in partial shade. June, 5 feet.....	3.50	25.00
SF Pardalinum (Leopard Lily). Flowers reflexed, bright yellow at base, spotted brownish purple, remainder orange-scarlet. 3 to 4 feet.....	2.50	18.00
SF Philadelphicum. A handsome native Lily with yellow, cup-shaped flowers, spotted maroon and shaded orange at ends of petals. Good for naturalizing. July, 3 feet.....	2.00	15.00
Philippinense formosanum (Formosa). A very graceful Lily, growing 2 to 3 feet high with grassy foliage and slender stem; flowers very long and trumpet-shaped, white with reddish brown shading on exterior, tips of petals elegantly recurving.....	3.00	20.00

SUMMER FLOWERING BULBS FOR SPRING PLANTING—Continued

LILIES—Continued.

	Doz.	100
SF Regale or myriophyllum (The Regal Lily). It is absolutely hardy, and is excellent for forcing, and being so hardy, may be grown anywhere. The flowers are white, slightly suffused with pink, with a beautiful shade of canary-yellow at the center, and extending part way up the trumpet. It is delightfully perfumed.		
Flowering bulbs, 4 to 5 inches	\$ 5.00	
Flowering bulbs, 5 to 6 inches	6.00	
Medium bulbs, 6 to 7 inches	1.50	9.00
Large bulbs, 7 to 9 inches	2.00	15.00
*Rubellum . Beautiful small Lily. The color varies from a deep rose-pink to almost white, with yellow anthers; very fragrant, small funnel-shaped flowers; grows 1½ feet high. It does best in light soil.	3.50	25.00
Speciosum album . The Speciosum or Lancifolium are the most important of all the Japanese Lilies, always satisfactory. The variety here offered has large, white flowers of great substance, with a greenish band running through the center of each petal.		
Large bulbs	3.50	25.00
Speciosum magnificum . Magnificent large flowers of a rich rosy red.		
Large bulbs	3.00	20.00
Mammoth bulbs	4.00	30.00
SF Superbum . 3 to 4 feet. Flowers bright, reddish orange, conspicuously spotted; easily grown and permanent	1.75	12.00
F*Tenifolium . A small, slender growing Lily not more than 18 inches high, with bright scarlet flowers and recurved petals. One of the prettiest little Lilies in cultivation. Early June. 12 to 18 inches.	1.75	12.00
SF Testaceum (Excelsum or Nankeen Lily). This is one of the finest of all Lilies. The color is difficult to describe, being a shading of dull apricot with orange-yellow anthers. A most graceful Lily and a good companion to L. candidum. June-July. 5 feet. Easily grown and permanent	15.00	125.00
SF Tigrinum Fortunel giganteum (The Tiger Lily). Very hardy, vigorous growers. A grand, robust variety of Fortunel, having a woolly stem and producing on bold branching heads up to twenty large, rich orange-scarlet flowers spotted crimson-brown. Height 5 feet	2.50	18.00
SF Tigrinum flore pleno (The Double Tiger Lily). The only double Tiger Lily worth growing	2.50	18.00
SF Umbellatum grandiflorum (Europe). A very showy Lily of easy culture, bearing in June, large, handsome, rich orange flowers shaded red; very effective when grouped in shrubbery and flower borders; also good pot plants	2.50	18.00
Umbellatum, Golden Fleece . A very fine variety, producing large, open flowers of a clear apricot, slightly speckled maroon-crimson; a good, strong grower. Height 20 inches	8.50	70.00
Umbellatum, Monarch . Producing branching tiers of up to 20 or more flowers of a brilliant orange-scarlet shaded vermillion, faintly spotted; of robust growth	6.00	50.00
SF Wallacei . A handsome Lily of a beautiful shade of the warmest apricot with rosy shading. August. 1½ to 2 feet	4.00	25.00
SF Washingtonianum . A beautiful Lily from California, with large, reflexed flowers, varying in color from light to a rich wine color, slightly spotted deeper. This variety requires a moist but well drained situation. June-July. 3 to 5 feet	5.00	40.00

Ismene Calathina Grandiflora

One of the best of our Summer-flowering bulbs. Clusters of large, fragrant, pearly white flowers, resembling the Amaryllis family.

	Doz.	100
Large bulbs	\$1.75	\$12.00

Montbretia - Tritonia

EARLIAM LARGE-FLOWERING HYBRIDS

These are the magnificent new Montbretias which have attracted so much attention at the Royal Horticultural Society's shows in England. They are a completely new race of flowers, the result of hybridization successfully carried out by the late Mr. Sydney Morris of Earham Hall, Norwich. They represent an enormous advance over the ordinary Montbretias, being generally much taller and more robust in growth, and having flowers of great size and beauty. They make first-class border plants and are of great decorative value for cutting.

Culture. Montbretias are of easy culture, preferring a light loamy soil well enriched with leaf mold, but no manure or chemical fertilizer should ever be used. A little Wayside Gardens Plant Food can be used and a light dressing of lime may prove beneficial. The moisture supply should be good. They thrive in the partial shade of borders or shrubbery as well as in full sunlight. Mulch lightly with peat or litter but no manure for winter protection.

	Doz.	100
Goldfinch . The branching heads of flowers are of good size, bright yellow with small maroon blotches at center, outer petals heavily shaded brilliant cherry-scarlet, very decorative	\$0.90	\$ 7.00
Hereward . Pale orange-yellow, resembling the variety George Davison, but nearly one month later. The flowers have the shape of Martagon lilies	.80	6.00
His Majesty . A glorious variety, flowers measuring 4 inches or more across, very broad-petalled, deep velvety scarlet shading down to gold, reverse of petals dark crimson shading down to gold. Height 3 feet. The largest flowered of all Montbretias. First Class Certificate, R. H. S. and Glasgow	2.00	15.00
King Edmund . A robust grower with large, open flowers, rich yellow, carmine-blotched center	.80	6.00
Lady Hamilton . Yellow suffused with a richer color until it becomes apricot. Flowers are more trumpet-shaped than other varieties and peculiarly graceful	1.00	8.00
Lord Nelson . A handsome dark-stemmed variety, flowers of great substance, of a rich, deep orange, outside of vermillion	.90	7.00
Marjorie . Large open flowers, orange-yellow, with crimson center, a beautiful flower, perfectly flat when fully open. Height 3 feet	.90	7.00
Princess . Brilliant ruby-scarlet, flowers of fair size, center yellow with small crimson blotches, very effective. Height 2½ feet	.90	7.00
Prometheus . Award of Merit. A magnificent flower 3 inches in diameter; deepest orange with showy crimson ring around eye; most distinct	1.50	10.00
Queen Adelaide . Award of Merit. Deep orange, shading to red almost as deep as Germania; very vigorous large flowers 2 to 3 inches in diameter	2.00	15.00
Queen Alexandra . A choice variety with erect habit of growth, chrome-yellow with carmine blotch at base of petals, late flowering. Height 3 feet. Award of Merit, R. H. S. and Haarlem 1926	.90	7.00
Queen Charlotte . Of free branching habit, flowers orange-scarlet; center shading to primrose with ruby markings. Height 2½ feet	.90	7.00
Queen of Spain . Flowers of large size, brilliant deep golden orange, reverse of petals golden apricot with small crimson and purple calyx, color very brilliant and effective. Height 2½ to 3 feet. Award of Merit, R. H. S. and Haarlem	.90	7.00
Star of the East . Pale orange-yellow, with lemon-yellow eye, expanding quite flat and held erect. Flowers larger than any other variety; size, vigor, color and habit, magnificent and unequalled	3.50	25.00

Tigridia - Shell Flower of Mexico

Few flowers are more gorgeously colored or so beautiful. Plant in sunny position in a flower border in well drained soil. Same treatment as for Gladioli. Can also be used in beds. Blooms from middle of July to September.

	Doz.	100
Mixed	\$1.25	\$8.00

Tuberose

	Doz.	100
Double Pearl . One of the most delightfully fragrant and beautiful of the summer flowering bulbs. For flowering in the open, plant about the middle of May, or as soon as the ground becomes warm. Largest bulbs	\$0.55	\$4.00

Zephyranthes - Zephyr Flower or Fairy Lilies

Beautiful dwarf, bulbous plant, very effective for massing in the border, flowering with great profusion during the summer. They are also suitable for pot culture and rock garden.

	Doz.	100
Alba . Pure white	\$0.40	\$3.50
Rosea . Large, rose-colored	1.25	7.50

Waterlilies - Nymphaea

The culture of of Waterlilies is so simple that it might almost be said that "they just grow themselves." Their modest requirements are sun, water, and rich soil. In deciding on a place for a natural water garden, one is naturally led to select a low spot. A stream of water running through this or near it can easily be dammed or diverted so as to form a pond. The digging up and grading of the ground to be flooded is the first consideration. Of course, it is not possible for everyone to have such a location, but almost everybody can have built or can themselves construct an artificial pool. In this event, any location that is available would be satisfactory, provided it is exposed to the full sun. Rather than have no water garden at all, the interested party can grow many of the varieties in tubs or half-barrels sunk in the ground.

Soil. In preparing a piece of ground about to be flooded, it is well to dig into the soil a generous amount of thoroughly rotted manure, with the addition of a small amount of bone meal. An excellent soil for use in tubs or artificial pools is made by mixing three parts of rotted sod, compost, or good top soil with one part of cow manure or good barnyard manure. All manure used must be thoroughly decomposed, to prevent fermentation when covered with water. Ground bone or bone meal may be used if necessary, at the rate of one quart to one bushel of soil.

Size of Pool. The larger the water surface the better the results. A tub or half-barrel 2 feet in diameter will furnish a miniature pool. An artificial pool should be made as large as possible, and 2 feet deep. Where clay is very abundant, it is quite possible to line an excavation with this in such a manner as to have it water-tight. Make an artificial pool as natural as possible and avoid stern lines and too apparent masonry. A generous planting of moisture-loving plants around the edge of the pool or pond will furnish an added charm to the plants in the pool itself.

Water. One foot of water over the soil is the most desirable depth in artificial pools. Some will thrive in shallower water, but few will stand a depth exceeding two feet. A continuous flow of water tends to keep the temperature in the pool low and must be avoided. After the pool is once filled it is only necessary to replenish that which evaporates.

Hardy Varieties

	Each
Gloriosa . This can well be called the most satisfactory Water-lily. It is the earliest to bloom and continues to flower until late summer, producing more blossoms than any other sort. In the spring the flower is a bright carmine which becomes darker as the season lengthens. The blooms are perfect in form and 4 to 6 inches across. This variety is one of the finest for cutting and has so much to recommend it that we do not hesitate to say that it should be the first Nymphaea for any pool	\$1.85
James Brydon . Rich rosy crimson, reverse of petals having a silvery sheen	2.25
Marilacea alba . A vigorous variety, flowers large, of sparkling whiteness; stamens light yellow, sepals flushed pink; fragrant and produced freely and continuously through the season. Desirable and handsome	.95

SUMMER FLOWERING BULBS, PLANT FOOD, Etc.

WATERLILIES—Continued.

	Each
Marilacea chromatella. Medium sized flowers usually 4 to 5 inches across. Color of the bloom is bright yellow, with stamens somewhat deeper in color. The leaves are green, mottled with brown	\$1.15
Odorata. The American Waterlily of the northeastern United States. Flowers white. Splendidly adapted to quantity planting in natural pools55
Paul Hariot. The blooms are quite large, of lasting quality, and are borne in abundance all season. The petals are clear yellow the first day, orange-pink the second day, and this deepens almost to a red on the following days. Flowers of different ages present an appearance quite unique and decidedly attractive	1.50
Pink Opal. A new variety. The color is a deep pink. The buds are almost round, opening into a flower with comparatively short petals, but because of its substance it has a distinct value for cutting	1.15
Rose Arey. A wonderful variety of the Odorata type; very free flowering, and strong growing. The flowers are very large and are sweetly scented. The color is clear cerise-pink and does not lighten toward the center of the flower	1.30
Rose Magnolia. The blooms are borne well out of the water, which makes them desirable for cutting. They are usually 4 to 5 inches across and of a delightful shade of pink. Strong, vigorous grower	1.15
Sloux. Large flowers of rich, brassy yellow, shaded red as the flower grows older	1.15
Tuberosa Richardsons. Flowers white and quite double. No variety in our Water Garden is admired more than this immense snowball-like flower. 8 inches in diameter75
Tuberosa rosea. Flowers an exquisite shade of pink. A vigorous grower, of the easiest culture75
Tuberosa sulphurea. A strong, rampant grower with large sulphur-yellow, sweet-scented flowers75

Tropical Waterlilies

BLUE, LAVENDER, PURPLE, RED, WHITE AND PINK
Tropical Water-Lilies, or Nymphaeas, have many desirable qualities. Although they are set out late in the season, usually June, they make such remarkable growth that within several weeks blooms appear, and continue increasing in size and numbers until heavy frosts destroy the foliage.

NIGHT-BLOOMING TROPICALS

	Each
Dentata. Flowers pure white, with golden yellow stamens. They are large and open out flat	\$1.15
Devoniensis. Bright rosy red. Several flowers, from 8 to 10 inches in diameter, are produced at one time, and carried on stems well above the foliage	1.15
Frank Trelease. Dark crimson, with deep reddish brown stems. Flowers are from 8 to 10 inches in diameter	1.15
Rubra rosea. Brilliant rosy carmine, with reddish brown stamens	1.15
Sturtevant. Bright pink, flushed with red. A valuable variety for large pools and ponds	1.50

DAY-BLOOMING TROPICALS

August Koch. Viviparous blue with lilac-purple shading	1.50
Dauben. The best known viviparous Lily. Produces small blue flowers in great profusion. The small leaf-plants frequently bloom while still attached to parent plant. Fine for tub or aquarium culture. A continuous bloomer75
General Pershing. One of the finest novelties of recent years. Very large, fragrant flowers of pure, warm pink, unlike any other day-blooming Waterlily. Very free-flowering and one of the most highly prized	2.25
Mrs. C. W. Ward. Petals rich rose-pink, illuminated by a mass of golden stamens. Flowers are borne well out of the water ..	1.50
Mrs. Edwards Whitaker. The largest and most striking of the day-blooming tropical Lilies. Its blooms are frequently over a foot in diameter and are produced in quantity. The color is lavender-blue, which becomes paler as the bloom ages. Petals slightly rounded at the tips and quite numerous	1.85

WATERLILIES—Continued.

	Each
Mrs. George H. Pring. A new and novel type that produces numbers of large, fragrant, white flowers with pointed petals	\$1.15
Panama-Pacific. Flowers deep royal purple, with yellow stamens. The buds are green-bronze flaked with red-brown, and the petals edged with red. Like the other viviparous Lilies, it blooms freely and perpetually in the proper environments. One of the best conservatory types	1.85
Pennsylvania. Deep blue flowers a foot across and produced freely; sepals marked with purple lines and dots. The leaves are slightly speckled with brown above; beneath, the ground-color is red-purple at the edge, shading to pale green centers. Desirable in a small pool or tub	2.00
William Stone. Rich violet-blue, shaded amaranth	1.50
Zanzibariensis azurea. Lovely, clear azure-blue flowers, freely produced	1.15
Zanzibariensis rosea. General characteristics of this plant are the same as the above, with the exception of the colors, which are in various shades of rose. Opens earlier in the morning than other sorts	1.15

Nelumbiums - Lotus

Album grandiflorum (Magnolia Lotus). Pure white flower with delicate fragrance. Extra-large foliage	1.50
Luteum. This variety, native to some of the states in the south and west, is commonly known as the Water Chinquapin or American Lotus. Flowers rich yellow	1.50
Pekinensis rubrum plenum. The full double flowers are bright rosy carmine and carried well above the foliage	3.50
Speciosum. The Sacred Lotus of the Nile. It grows well under almost all conditions. Both flowers and leaves stand well above the water. The rosy pink blooms are always large and fragrant	1.50

Plant Food, Books and Sundries

Wayside Gardens Plant Food

Price is all important these days. Wayside Gardens Plant Food is the lowest cost plant food on the market. It contains no fillers and is acknowledged by experts the finest plant food offered for sale.

Apply as follows: 15 to 25 pounds for top dressing five hundred square feet of ground planted with Hardy Plants, Rock Plants, Roses, Annuals or Bulbs. In making a new garden use double the amount and mix with soil; planting may be done at once. 10 to 25 pounds for top dressing five hundred square feet of lawn. In making new lawns, use double the amount and mix with soil; seeding may be done at once. Contents of a 3-inch pot mixed with one bushel of earth will make a splendid potting soil.

Two applications of the Plant Food should be made per year, one in spring and one in September. Use Wayside Gardens Plant Food, you cannot damage bulbs should they come in contact with it. In spring your lawn will be healthy and free from holes and bare spots, no more patching up. If still in doubt, we shall be glad to mail you testimonials from experts if desired. Wayside Gardens Plant Food may be had at the following prices:

50 lbs., \$2.50; 100 lbs., \$4.00; 500 lbs., \$15.00; 2000 lbs., \$50.00.

Can only be obtained direct from Wayside Gardens.

Wayside Gardens Plant Food is sold only in the following states: Illinois, Michigan, Ohio, West Virginia, Kentucky, Massachusetts, District of Columbia, Pennsylvania, New York, New Jersey, Virginia, Indiana and Rhode Island.

Red Arrow Insect Spray

Kills all plant pests. The most highly concentrated pyrethrum insect spray on the market.

Red Arrow is an exceedingly powerful non-poisonous insecticide, especially adapted to agricultural and horticultural purposes, both under glass and in the open. Very effective against insects in poultry house, kennel, and dairy barn. Also deadly for worms, beetles, and ground insects.

Does not burn or stain flower, leaf or fruit. When used on fruits and vegetables it eliminates washing because with Red Arrow there is no poisonous residue.

RED ARROW INSECT SPRAY—Continued.

Red Arrow is as nearly a perfect spray as you can buy because it will kill 100% of more varieties of insects than any other non-poisonous insecticides. Deadly to insects—but harmless to children, pets, valuable wild bird life and soil.

Red Arrow is pleasant and easy to use. It has no dangerous fumes or unpleasant odors and needs only to be mixed with water. 1 oz., 30c; ¼ pt., 90c; ½ pt., \$1.50; 1 pt., \$2.75; 1 qt., \$5.00; 1 gal., \$15.00.

Fungtrogen

Controls mildew and black spot. A highly concentrated fungicide invisible on the foliage or blooms. It is the noted Rosenbluth formula combined with the plant stimulant—Hortogen—that results in plant vigor and superb foliage.

Fungtrogen is an effective and scientific preventive and remedy for mildew, black spot and other fungous diseases of Roses. It also prevents mildew and black spot on Phlox, Chrysanthemums, Hollyhocks, Delphiniums, Sweet Peas and Evergreens and is endorsed by leading rosarians.

Fungtrogen is a complete spray, ready to use when mixed with water to sixty times its volume.

Prices: ½ pt., \$0.70; pt., \$1.15; qt., \$1.80; ½ gal., \$3.25; gal., \$5.60.

New Garden Trowel

Wayside Gardens Model

This garden trowel was designed by us. In the nursery where each year more than 3½ million plants must be set out it is of great importance to have a perfect tool. This great yearly task of planting must be done without getting a tired wrist, blisters or cramped fingers, and above all it must dig the proverbial "dollar hole for a 5c plant," a good size hole that will hold all the roots without cramping. The result is this new trowel. Smooth, solid wooden handle (painted red so you won't lose it), short shank to prevent tired wrist. Short, sharp, wide blade for easy digging of wide hole.

55c each; \$6.00 per doz.

Eezy-Wear Garden Gloves

For Men and Women

Here's a new and increasingly popular type of garden glove—specially designed to give finger freedom and complete protection.

All leather—dirt-proof—soft as kid—extra pliable—washable!

Made from select imported leather specially processed to render it amazingly soft and pliable—as well as durable. Permit almost barehanded freedom with perfect comfort yet insure complete protection from dirt, scratches, bruises, stains. Keep the hands in perfect condition.

Economical—outwear six pairs of ordinary fabric gloves and are useful for other home duties the year round—housework, painting, yard, furnace, garage, etc.

Sizes for women: "Small," "Medium," "Large." For men, "Medium" and "Large."

Price, 65c a pair; 2 pairs for \$1.20.

Perfect Garden Label

The Perfect Garden Label is inconspicuous. The beautiful cool gray-green color blends with the soil, foliage and rocks. Only the marking space shows. If you wish the labels hidden they may be almost buried out of sight and lifted only for reading. The markings will be completely legible.

With an ordinary lead pencil write or print on the ample horizontal marking space of a Perfect Garden Label.

One year, two years, three years, four years afterward, at any time, you will be able to read easily every character of your marking.

Previous markings can be readily erased at any time with a stiff pencil eraser and the label can be used again. The marking space is large enough, for three or four lines of writing or even display printing. The under side of the marking space can be used for extensive notes.

Border Size	Rock Garden Size
25 labels.....\$1.75	25 labels.....\$1.50
100 labels..... 5.50	100 labels..... 5.50

Wayside Gardens Grass Seed Mixtures

We offer below four Wayside Mixtures of grass seed, each carefully prepared to best serve its specific purpose. Blended from choicest imported lawn seeds.

Prices will be gladly furnished on special formulas or on separate varieties.

Open Place Lawn Mixture

A general purpose lawn mixture of exceptionally high quality. Permanent grasses predominate over temporary grasses in the ratio of four to one which is considered by experts to be ideal. This mixture contains approximately one-fourth Creeping Bent. The weed content is but one-tenth of one per cent, absolutely free from coarse and filler grasses.

Postpaid: 1 lb., 45c; 5 lbs., \$2.07; 10 lbs., \$3.85.

Express paid: 25 lbs., \$9.05; 100 lbs., \$35.50.

Shady Place Lawn Mixture

Shaded lawns are a problem. Mixtures for such locations should consist of varieties which will grow vigorously with little sunlight and in soils deficient in plant food and moisture. The Wayside Gardens' Shade Mixture is just such a combination of domestic and imported grasses, including Bent. (Remember the importance of keeping a shaded lawn fed regularly).

Postpaid: 1 lb., 56c; 5 lbs., \$2.65; 10 lbs., \$5.00.

Express paid: 25 lbs., \$12.20; 100 lbs., \$47.00.

Fairway Lawn Mixture

This mixture contains extra heavy seed of the best fairway grasses suitable for building a sturdy lawn turf, including Bent. It is ideal for new fairways as well as for the re-sowing of established fairways.

Postpaid: 10 lbs., \$2.70.

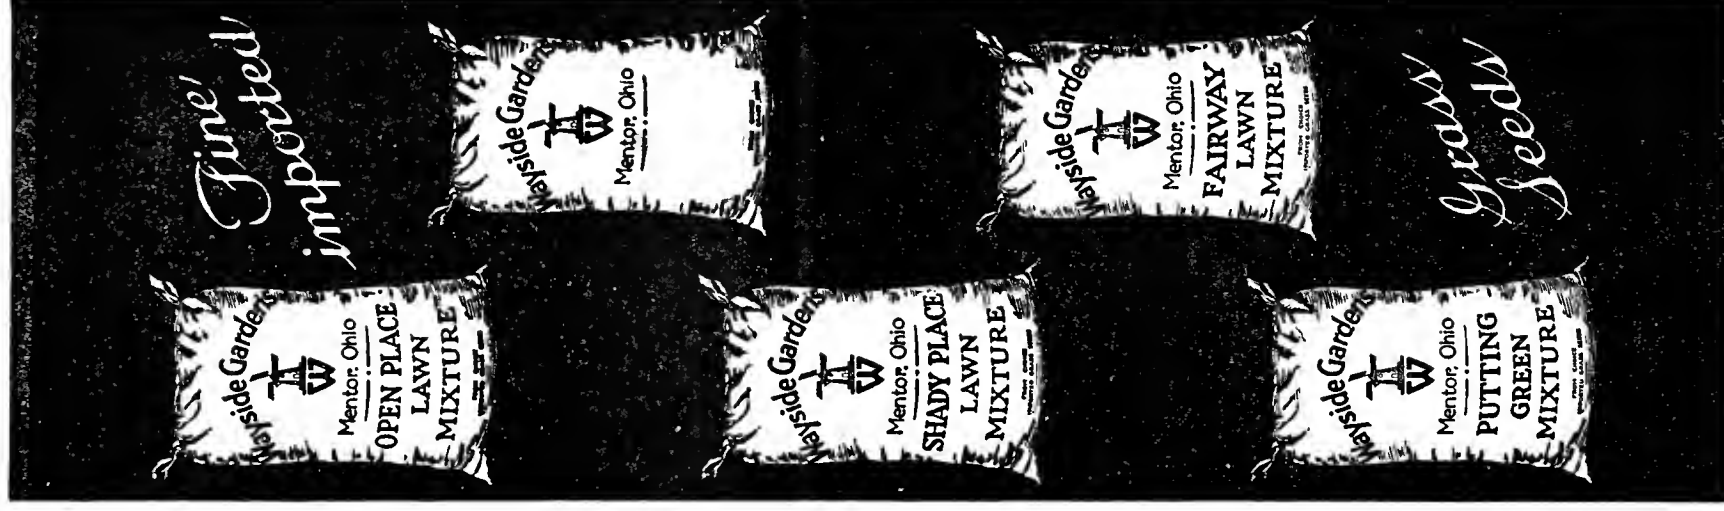

Express paid: 25 lbs., \$6.42; 100 lbs., \$24.00.

Putting Green Mixture

A combination of the best varieties of Bent grasses. No other grasses used. This seed is high in purity and germination and practically weedless. Suitable for new or old greens or for use in establishing lawns like putting greens.

Postpaid: 1 lb., \$1.07; 5 lbs., \$5.17; 10 lbs., \$10.05.

Express paid: 25 lbs., \$24.82; 100 lbs., \$97.50.
